REV. DR. FULLERTON'S SERMON ON HEAVEN

(Continued from Page One)

follow without breach of continuity the life we live now. The laws that apply to life now will apply to life when we pass into the unseen. There is one law that is inalienable, namely, that of growth. We do not by some miraculous intervention of God assume the condition of radiant holiness. That is inconsistent with our idea of life's continuity. The nobility of character in heaven grows out of the nobleness of the life that has been lived on earth. The fair linen in which the saints are clothed is the righteous garment they have woven while here.

"In dying, so far as we are concerned, our loved ones go out into the night, but when we bring our Christ revelation it is not into the night, but into the day; it is not leaving home, but going home, going to a father's care and a father's keeping."

PERSONALS

Mr Stephen Boylen, Charlottetown, left Saturday for Bedford.

Mrs. W. P. Doull has returned home after visiting a week in Summerside.

Mr. Everett McLeod, Grand View, leaves tomorrow night for Amherst, with the Prince Edward Island Light Horse.

Mr S. C. Moore, Charlottetown, was a passenger leaving Charlottetown by the boat special last night en route to the mainland.

Mr and Mrs Thomas White, Charlottetown, left last night for St John to visit their son, Harry, who leaves shortly for the front as an infantryman.

Mr. W. S. McKie arrived home on Saturday night with the "British Soldier" from Kentucky. The "Soldier" is a fine stallion.

Mr. Sam Duff was one of the passengers who spent several days in the Straits on the Minto. He was on his way to visit his brother Edward in Mt. Stewart. Mr. Duff comes down from Boston nearly every spring to join the sportsmen shooting geese in Tracadie Harbor.—L.

Recall Blood Tablets—the great blood builder and health builder, are recognized as a superior spring tonic. Get a box they're guaranteed to satisfy Mackinnon Drug Co., Corner, Great George and Kent Streets, M.E.T.

DIRECT SLAP AT CANADIANS

OTTAWA, March 20.—Fifteen hundred Canadian school teachers in California, and twenty-eight professors in the State University of that State, have found themselves in a most awkward situation, as the result of an attempt to enforce an old State law. The matter has been brought to the attention of the Justice Department by Mr. William Gray, member for London, who has large California investments; and it will also be brought to the attention of the House by Mr. Gray tomorrow.

These fifteen hundred teachers and professors, who have not been naturalized as Americans, now find that they cannot draw their salaries, and are being refused payment by County and State administrations. The Ottawa authorities are investigating, and the feeling is that the grossest injustice is being done Canadian subjects in California.

It seems that in 1901 a law was passed which provides that no State or county money can be paid to aliens as salaries. No attempt was ever made to enforce the law—it was a dead letter—until this year, when the town of Bakersfield dug up the ancient statute. They asked for an opinion from the Attorney-General and he took the ground that no money could be paid out to Canadian school teachers or could any contracts be made, although contracts must be filled. The result is that Canadian teachers in Bakersfield who have not been naturalized, have had their salaries held up. As many of the teachers have been there for years, and bought homes, the matter is a most serious one. With this decision also teachers all over the State, including the professors in the State University, are placed in the same unfortunate position.

The matter was brought to the attention of Mr. Gray. He feels very strongly on the subject, and is urging that strong representations be made the California authorities.

CHILD MANGLED UNDER CAR WHEELS.

MONTREAL, March 16.—Five-year-old Nora MacInnes, whose parents reside at 90 Alexander street, was killed almost instantly today when she was ground under the wheels of a South-bound Church street car, opposite the Church Street Public School, and within a short distance from her home. Her father, attracted to the scene by the crowd of people that had gathered, pushed his way through and helped to extricate the mangled remains of the poor little child from underneath the blood-spattered wheels. It was not until he got a look at the little face that Mr. MacInnes recognized his own girl. The grief-stricken father, with the child in his arms, rushed into a nearby drug store and sent for a doctor. When the latter arrived upon the scene he found life extinct in the child. The body was taken to the morgue, where an inquest will be held. Acting Detective Koster has been assigned to the case to ascertain whether there was any negligence on the part of the street car. As far as can be learned the child was playing on the sidewalk and ran out on to the road just as the car bore down. The motorman dropped the fender, which picked up the girl, but dropped her and she rolled underneath the wheels.

NOVEL CAPTURE OF GERMAN SUBMARINE.

SASKATOON, Sask., March 20.—That one of Germany's most powerful submarines was caught in an iron net protecting the Forth Bridge, Scotland, and the entire crew suffocated and later were brought to the surface dead, is the news contained in a letter received in Saskatoon yesterday by one whose position it is claimed enables him to speak from actual knowledge.

TRADE OFF WHAT YOU DON'T WANT

Put an Ad In the Exchange Column of the Guardian Free For Limited Time

The Charlottetown Guardian has no doubt that hundreds of its readers have articles of some kind, that are perfectly good and useful, but for which they can find no use. Somebody else might want just those articles. If you can work a trade through the medium of a 25c ad, wouldn't it pay you?

The Charlottetown Guardian's Small Ads have supplied many wants of its readers and this new department is merely an extension of this service. The Guardian hopes it will become very useful to the public. See the announcement on page two.

To encourage readers to use these Exchange Ads, The Guardian will accept ads FREE for a limited time if presented with the following coupon.

Good For One Exchange Ad. This coupon is good for one Exchange Advertisement, not over 20 words in length, to run 3 times in the Guardian. Present coupon with ad. Not good for dealers. Must be used by private individuals only. Ads asking for money will be charged for.

MEETING OF HORSE BREEDERS ASSOCIATION

The Annual Meeting of the Horse Breeders Association was held in the Agricultural Hall on Thursday, March 18th. The meeting was called to order at 9.30 by the President, Mr. W. W. Crosby. He spoke of the work that had been done, the success this second annual horse show had achieved and an outlook for the future. He then called on the Secretary for the financial statement, which was read and adopted.

The President then declared the meeting open and called upon Mr. Jabez Lea. He suggested that there should be a discussion on the prize list and also on the rules and regulations governing the Show.

Mr. Hammond Kelly suggested that a class be opened for Percherons and one for Standard Breds, and that the present class 4 "Carriage Mares" be divided into two classes. He thought the Standard Bred Horses should be shown in carriages if at all possible; if the day were suitable they might be shown on the streets. He suggested that Ribbons should be provided instead of tickets, and showed a rosette which he considered suitable and which could be purchased for fifty cents, if purchased in numbers.

Mr. Stanley J. Wedlock agreed with Mr. Kelly's suggestion but thought there should be a class for carriage mares and also a class for geldings. He recognized the financial difficulty and moved that a committee of three be appointed to wait on the Government for the purpose of securing a grant for the Provincial Horse Show. This motion was seconded by Mr. Jabez Lea and carried unanimously.

The committee appointed were, Messrs Hammond Kelly, Stanley J. Wedlock, and F. W. Hughes.

Mr. Peter Brodie offered some suggestions in regard to the conduct of the horse show.

Mr. Wallace Stead suggested that this was a Pure Bred Breeders Association and that no one should be allowed to join it unless he were an owner of pure bred horses.

Mr. T. P. Cass considered that the greatest difficulty the Association had to meet was the lack of accommodation for stock. He pointed out many advantages that proper stabling would bring. This show had been started as a Stallion Show, the breeders were supposed to have an opportunity of seeing the best Stallions in the country but at present the stallions could only remain in the building about an hour after which they were taken away. He thought some means should be taken to have at least twenty box stalls provided.

The President, Mr. W. W. Crosby then made some remarks. He stated that the Show up to the present time had been financed entirely by the horse breeders but he thought it had so developed that they might reasonably look elsewhere for some assistance. He referred to the changes that had been made in the prize list, particularly to the increased prizes offered for the young stock. He then outlined a plan for a two-days horse show that he thought would be entirely feasible. More money would have to be raised, but not very much more, as the show could be made much more attractive and as a consequence a higher admission could be charged.

Professor Ross then told of the assistance that was being given to Live stock exhibitions from the Live Stock Branch. He pointed out that this show, as it stood today, would not qualify for the grant whereas the Maritime Horse Show at Amherst would; and on account of the difficulties of navigation Prince Edward Island would take no part in this Show. He therefore thought that if it were properly represented to the Live Stock Commissioner this Provincial Horse Show could be placed on the same footing as the other Horse Shows and receive financial assistance in the same proportion, even if it did not meet the requirements in the minimum of cash prizes paid out. He moved that Professors Reek and Reid be appointed a committee to draft a resolution to this effect to present to the Association. The following resolution was then presented:

"WHEREAS, owing to navigation difficulties, horses from Prince Edward Island can not be exhibited at the Maritime Horse Show at Amherst, N. S., and

directors, which motion was carried unanimously.

Several other subjects came up for discussion, but were referred for decision to the directors. The meeting then adjourned.

TRURO MAN WAS WOUNDED SECOND TIME IN FRANCE.

HALIFAX, March 20.—A cable received here tonight says Captain H. A. Kaubach, of Truro, who was wounded in the war early in February, was again badly wounded and lost an arm. He was attached to the Royal Lancaster Regiment. His wife has left London for France to nurse him.

HURLED WOMAN AND CHILDREN FROM WINDOWS.

NEW YORK, March 20.—Three persons, a woman and two children, were thrown from buildings to-day and taken to hospitals in a dying condition.

The seven-year-old Sadie Liebman and her brother, Samuel, aged 5, who were left sleeping by their mother while she left the house to buy food for breakfast, were thrown from their room, on the fifth floor of a tenement, to the street during the mother's absence. They probably will die. The police have issued a general alarm for the apprehension of the children's father, Samuel Liebman, who was to have appeared in court to-day to answer his wife's charge of non-support.

The woman was hurled from the top of a five-storey tenement. Neighbours were awakened by her pleading with her assailant, but went back to sleep, as she cried out only once. When they awoke, they found her unconscious in the courtyard. At the hospital she said her name was Margaret Rosefit. Her assailant escaped. She is about 28 years of age.

ALGY AT THE FRONT

I was what they call a "knot" in Piccadilly. It used to tire me out to walk a mile, if they woke me up at noon I would yawn "too bally soon."

And I was very, very rarely seen to smile.

I never spoke above a languid whisper though the effort seemed my intellect to rive.

And the rottenness of form was to sing or rave or storm.

Or to act in any way as though alive.

But I've marched ten miles this morning.

And I rose at four a. m., I was bawling "Tipperary"

With the very best of them.

ROSE GROWING.

The amateur will have equal success in growing roses, either in bush form or in tree form, if the proper care is given the plants. There is no particular advantage of one method over the other. The less used tree form is just another shape in which the plants can be grown. For the best effects it is well to plant roses in beds or borders with the bush formed plants at the front or about the border and the standards in the centre of the rear. The majority of roses grown in standard form are hybrid perpetuals and hybrid teas. A few teas are used, but they are not sufficiently hardy for general planting. The hardier varieties of hybrid teas are excellent because of their continuous blooming habits.

When climbing roses are worked on standard stocks of Rose rugosa or others, the best form is a drooping habit which is very effective in home ground decoration. Half-standard roses can be had now with the stems two to two and a half feet high. Instead of four feet or so, and these work in very nicely in the making of rose beds. These plants are less leggy in their appearance and can be used in many places where the full standards would be out of place. Which ever kind are used and plants should be kept tied to stout stakes to prevent them from going down.

FRENCH WILL BUY THE DACIA'S CARGO.

PARIS, March 20.—The French Foreign Office, it is understood, has decided to buy the cargo of cotton aboard the steamship Dacia, which was seized by a French cruiser and taken into Brest while on a voyage from the United States to Rotterdam. The cotton is valued at about \$750,000, and it has been proposed by the owners of the vessel that the French Government purchase the cargo.

The disposition of the ship must be left to a prize court, but the official pointed out, does not permit the transfer of a ship belonging to a hostile country to a neutral during war. The Dacia belonged formerly to the Hamburg-American line, but she changed her registry and became an American ship after the outbreak of hostilities.

Twitching of the Nerves Broken-down System

Now Entirely Cured—Never Used Any Medicine With Such Benefit as Dr. Chase's Nerve Food.

Headaches, sleeplessness and nervousness are often very disagreeable, but when your nervous system gets into such a condition that the nerves twitch and jerk, and you have peculiar nervous sensations come over you there is cause for grave alarm.

Everybody dreads the thought of paralysis or locomotor ataxia. Nothing is worse than helplessness. Sometimes it is helplessness of body, and at other times the mind is affected, which is far worse.

The writer of this letter did not know what to expect, but fortunately began the use of Dr. Chase's Nerve Food in time to head off danger, and writes that she was entirely cured of the old trouble. The last paragraph proves that the cure was lasting.

Mrs. John McKellar, 11 Barton street east, Hamilton, Ont., writes:—"I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep and suffered from twitching of the nerves and disagreeable nervous sensations. "I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact, I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way."

Under more recent date Mrs. McKellar writes confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits obtained from Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food 50c a box, 6 for \$2.50. At all dealers.
