At Rotary

At the Rotary luncheon yesterday presided over by the President, J. J. Hornby, the speaker was Rotarian Gordon Ives, who gave an interesting talk on the automobile. He first traced the evolution of the modern machine from its humble beginnings and then told of the first horseless carriage built in 1889 by Winton. It was a four-wheel, one cylinder vehicle. The inventor and a companion made the 700 mile trip from Cleveland to New York in 47 hours, considered fast at that time; but in 1909 in a contest at Detroit Winton was beaten by Henry Ford. Mr. Ives gave some statistics showing the growth of the auto industry. In 1900 in Canada there was one bicycle and (practically no autos) to eight persons; in 1909 there was one auto to eight persons. Contrary to the belief that the auto has meant the elimination of the horse, in 1900 in Canada there were 1,377,493 horses, and in 1930 there were 3,295,000. The number of automobiles in Canada grew from nothing in 1900 to 1,193,889 in 1930, their estimated value being \$417,861,000. In 1913 the revenue from auto fees in Prince Edward Island was \$480. Last year with 7,693 cars the revenue was \$146,000. Figures were then given showing the increase of automobile manufacturing in Canada. Last year 153,000 units were turned out and the value of the output was \$90,671,678. Our exports amounted in value of \$3,000,000 more than our imports. In 1931 there was a slight drop in the volume of sales. In 1909 there was not a mile of paved highway in Canada. Today there are thousands of miles. Although it has been said that the auto tends to impoverish people, yet the deposits per capita in the savings banks increased from \$35,000,000 in 1900 to \$215,000,000 in 1930, not to speak of the millions being invested in war loans. In Prince Edward Island last year the tourist brought \$600 worth of hooked rugs through the Tourist Association. Mr. Ives in conclusion then spoke of the different lines of cars including the Austin, Marmon, Durant and Pontiac, which he handles in this city. The chairman referred to the race meet on Thanksgiving Day and heartily welcomed the following horsemen who were present as guests of the club: Col. D. A. MacKinnon, James Power, Ernest Murphy and Alton Burke. Other guests present were: Mr. Delaney of the Mandolin Islands, Rotarian Bryant, of Calais, Maine. The musical program included a vocal solo by Mrs. Roy Cudmore, who was encored. The chairman conveyed his thanks to all concerned for assistance given in connection with the races. The population of Santiago, Cuba, has more than doubled in the last 10 years.

WATERFRONT ACTIVITY

At the present time there is considerable activity down and about the waterfront. Repairs on the car ferry are proceeding rapidly. In this connection it is interesting to watch the welders at work. Ministers Accept Salary Cut

EDMONTON, Alta., Oct. 19.—Premier Brownlee stated the government of Alberta would ask members of the Legislature to accept a decrease in their sessional indemnity, which amounts to \$2,000. The cut, the Premier said, was asked for to aid the government in meeting financial burdens caused by increased unemployment relief expenditures. The amount of the reduction was not stated. The Premier Friday announced a plan whereby civil servants would contribute on a graduated basis a portion of their salaries for the unemployment relief fund. This scheme would affect all department ministers, deputy ministers and other members of the staffs. The ministers accepted the cut from Oct. 1. The other members' salary cuts will start Nov. 1, it is expected.
