ONCE A GREAT POWER Poland was a great European power from the 14th to the 17th centuries.

The increased attention now paid to the alcoholic, (the compulsive drinker who "cannot live without alcohol" yet is dying because of it) seems to be withdrawing attention from one who needs it even more—the so-called "moderate drinker." He is the drinker who, in this machine age, drinks "moderately" and takes charge of the machine, whether it is on four wheels, bolted to the factory floor, or flying through the air. This is the class which provides probably the vast bulk of alcohol-caused accidents the hit-run driving on the road, and one fourth of the "fatals" reported in automobile accident statistics. It is the class from which comes the army of mental cases requiring private or public hospitalization. It is the class that furnishes criminals innumerable. It is the class adorned by "men of distinction." It is well, indeed, to help the alcoholic, but would it not be far better to spotlight the risks involved in what is euphemistically named "moderate drinking."—Forward.

NO TOBACCO, NO LIQUOR, NO MOVIES FOR MISS AMERICA

Miss Barbara Joe Walker from Memphis, Tennessee, whose beauty and talent won her the title "Miss America" in the annual beauty contest at Atlantic City, New Jersey, has turned down offers for Hollywood screen tests. "I do not care much for movies, very few people are successful at it, and I do not care to wait around in Hollywood for years trying to be successful," she was quoted as saying in an Associated Press dispatch of Sept. 5. "I do not like to see women smoking. I do not think that any one can drink moderately," she is also reported as saying. She has announced that she will go ahead with her plans to teach school, using the \$5,000 scholarship award which goes with the winning of the title.

BIRMINGHAM UNDER REPEAL

"There are some 7,000 or 8,000 readers of this paper in the city of Birmingham and Jefferson County alone. They will remember that in 1917 the city jail (South-side jail) of Birmingham was closed and the City Commission offered the jail to the city for a hospital. The jail at Enslay was also closed. But now, with approximately 20,000 drunks annually arrested in Birmingham,
