The Biggest Sensation in the Phonograph World, "THE BRUNSWICK"

\$395.00

\$175.00

Musical Experts of international fame now acknowledge The "Brunswick" as the PEER of all phonographs. Even the most casual hearing of the "Brunswick" gives instant and conclusive evidence of its tone superiority. Your ear immediately detects the difference.

It is therefore expediency on your part when you buy, to buy the best. Make every comparison—look out all the details. Try and find—if you can—an equal to the "Brunswick Tone." You are bound to end your search at a "Brunswick" store, where every opportunity will be given to decide for yourself.

Here are FIVE REASONS Why YOU WANT a

"BRUNSWICK"

the only phonograph equipped with the All-Record,
 All-Needle Ultona

1.—Adjustable Weight. To play all records correctly, and without risk of injury, it is necessary to have the exact pressure required by different different makes of records. The sliding weight adjustment of the exclusive Brunswick Ultona is the only practical solution of the problem. By shifting this back or forward—a touch with the finger does it—the precise weight for each type of record is obtained.

2.—Diamond Point. Certain records—The Edison for example—require a diamond point located near the centre of the diaphragm. On the exclusive Brunswick Ultona the diamond point is always ready for instant use.

3.—Permanent Jewel Point. The Ultona also has in a fixed position the sapphire ball for all permanent jewel point records, of which the Brunswick and Pathe Records are typical.

4.—Steel or Fibre Needles. Then there are the steel or fibre needle type records such as Victor and Columbia. The Ultona provides a needle holder in exact position for these. Nothin to take off or put on—a separate and permanent place for each needle. A mere twist of the wrist adjusts it instantly to any make of record you desire to play.

5.—When you add to the Ultona that other exclusive Brunswick feature, the all-wood oval horn, plus superfine cabinet work, the Brunswick "All Phonographs in One" clearly offers you the utmost value in phonographs.

Let Your Ears be the Judge. Hear this Remarkable Instrument before you Decide.
