HOW TO GET RELIEF FROM CATARRH

If you have catarrh, catarrhal deafness, or head noises, go to your druggist and get 1 oz. of Parmit (double strength), take this home add to it hot water and just a little sugar as directed in each package. Take 1 tablespoonful 4 times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat.

It is easy to make, tastes pleasant and costs little. Every one who has catarrh should give this treatment a trial. You will probably find it just what you need.

ELLIS'

Say and have proven with their own stock that they have the Island's greatest Condition Powders. It gives horses a good appetite, glossy coat, loose hide and healthy appearance which helps the sale of your stock. Its effect on Cattle, Pigs, Sheep and Poultry is marvellous.

Besides Ellis' Stock Food and remedies, we carry the following: Royal Purple, Pratts, International, Dr. Daniels, Columbian, Granger, Woodbury's and Pendleton's.

Come to our store for information regarding your horses.

GASOLINE TO BE CHEAPER AND NO RESTRICTION IN USE

ST. JOHN, Mar. 9.—Automobile owners and others who have occasion to use a large quantity of gasoline will be glad to learn that it is most probable that there may be a decrease in the price of gasoline in the near future, and also that there is not any likelihood of action being taken in regard to the restriction in the use of gasoline.

The secretary of the New Brunswick Automobile Association is in receipt of a letter from the secretary of the Canadian Automobile Association in which that official gives some views of the question, which should prove of great interest to car owners and others. In part he says:

In view of rumors which have been prevalent with regard to a gasoline shortage and restrictions being placed on the use of gasoline in Canada by motorists, while in Ottawa, I interviewed the authorities in this regard. I discussed the subject with Assistant Fuel Controller Peterson. Mr. Peterson advised me that the fuel controller has at present no jurisdiction over gasoline. This jurisdiction could be obtained if desired, but there was no present intention of asking for it. There were a number of good reasons why gasoline imports should not be interfered with and there was little likelihood that any action what ever concerning the use of gasoline would be taken.

These official statements should be reassuring to the members of the New Brunswick Automobile Association and motorists of Canada in general, particularly when coupled with the statements made by Mr. C. Bedford president of the Petroleum War Service Committee of the United States, that there is today a large excess production of gasoline incident to the preparation of fuel oil, and that gasoline should be used freely though not wastefully, as otherwise storage capacities would be exhausted.

Car owners will not only be happy to know that there is to be no restriction to the use of gasoline, but will be pleased to believe that the price of the gas will be decreased.

No man should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Cure.

DRUNKENNESS IMPOSSIBLE IN THE TRENCHES

TORONTO, Mar. 11.—Lieut.-Col. V. N. Harvey, D. S. O., late in command of the 54th Battalion, C. I., writes to The Telegram from Ottawa as follows:

"I notice a statement made by one of the Army Medical Corps to the effect that he had heard that 50 per cent of the soldiers in the line in France were drunk on Christmas Day, and if the Germans had attacked they could have broken through.

"This is a gross libel on any of the troops in France, be they English or Canadian. Having spent fifteen months in France in the fighting area with my battalion, I can only recall four instances of men in my battalion being drunk, and this was certainly not in the line. My battalion was a western one, recruited from men accustomed to drink and drink heavily before enlistment but the discipline was such that before leaving France there was practically no drunkenness, in spite of the opportunities in the various bars in England. On arrival in France opportunities were far less, and in the line there were none.

"My battalion spent Christmas, 1916, in the line, and outside the rum issued nothing of an intoxicating nature was available, and on the issue of rum, as it was administered to all battalions, it is impossible for a man to get drunk.

"Conditions behind the lines are such that the men are unable to get anything but very light wines and certainly no drunkenness prevails. "I am extremely proud of the record of my battalion, covered by the period above mentioned, but would like you to understand that, although the standard was a high one, we were no exception to the rule, and my remarks apply equally to any battalion in France today.

"There seems to be a certain number of people who delight in belittling men who have given up everything to fight for the cause of justice. I for one would be glad to see a stop put to it."

A Power of Its Own—Dr. Thomas' Electric Oil has a subtle power of its own that other oils cannot pretend to, though there are many pretenders. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

FOUGHT TWO YEARS IN CZAR'S ARMY

HALIFAX, Mar. 11.—There is at present working in Halifax a young Russian named John Beck, who despite the fact that he is only seventeen years of age, had two years' service with the Russian Army as well as having been a prisoner of war in Germany for three months. Although unable to speak English he told a Morning Chronicle reporter the following story, through David Horwitz, the Russian Interpreter:

At the age of fifteen he had a quarrel with his father, whose home was in Riga, so he ran away from home and joined the Russian Army. He was attached to the infantry as a scout, and was on that part of the Eastern front near Riga. One day while he was bringing up the guard, the Germans captured them, and he was placed in an internment camp in Germany near the Russian border.

About three months afterwards on August 16th, escaping him, in company with two other prisoners to another camp, when the three escaped. They hid in the bushes until dark when they went to the border line between Germany and Russia, which was not far away. Finding only a small guard stationed here they had not much difficulty in crossing the border. After crossing the border the German guard noticed them and fired a number of shots. They took to their heels and they walked into Russia.

When he reached the Russian lines on account of not knowing the password, he was stopped by the guard and escorted to headquarters. Here he told his story, and was given a silver medal which he now wears with pride. He then returned to duty, and was with the army that defeated Dvinsk. For seven days and nights they were without bread, but had plenty of water. During this time he was wounded, and his father then applied for his discharge as he was under the age limit, which was twenty-one years then. On securing his discharge he went in the Russian Navy, being attached to a merchant ship, which was recently here. His father was also on this steamer and both remained behind when she sailed. His mother and little sister are at present in Russia. He is very proud of his medal and goes through the Russian drill very quickly. His three wounds are now healed, but have left marks which he will carry during his lifetime.

SPANISH STEAMERS ARE HELD UP IN ATLANTIC PORT

A GULF PORT, March 11.—Three Spanish steamers loaded with general cargo for European ports and which were granted special fuel licenses yesterday by the War Exports Board, after being held up for many weeks, still were at their piers tonight having been ordered by the Spanish Consul to remain in port.

The authorities said the consul refused to allow the vessels to sail unless it was agreed they return to Spain after discharging their cargoes in Europe. He claimed the sailors in the crews were under contract to be returned to Spain.

Federal officials said that before fuel licenses were granted the steamers owners promised to return the vessels to America immediately after delivering their cargoes.

NEW BRITISH COLUMBIA PREMIER

VICTORIA, March 10.—The swearing in of the new Premier of British Columbia, was carried out with promptitude, leaving the new administration successfully constituted for the despatch of the legislative business when the house re-assembled on Wednesday.

John Oliver, the new Premier of British Columbia, was born in Harrington, Derbyshire, on July 31, 1856. His parents came to Canada and settled in Ontario in 1870. At the age of 11 years John Oliver became a wage-earner in the iron mines of Derbyshire and at Marlboro, Wellington county, Ontario, he worked on the farm in the summer and in the woods in winter up to 1877.

About that time he secured employment with a C. P. R. survey party and in the same year took a homestead in Surrey municipality, British Columbia. In 1880 he acquired title to his present farm in East Delta, and over-coming drainage conditions has brought it to a high state of efficiency. In the course of his life at Delta he operated a threshing machine and a portable saw mill.

In 1900 he was elected to the legislature for Delta and after years in opposition took a place in Mr. Brewster's cabinet as minister of railways and agriculture.

HER DAUGHTER WAS SAVED FROM OPERATION

Mrs. Wells of Petersburg Tells How.

Petersburg, Va.—"For two years my daughter suffered from a weakness and pains in her right side; at times she was so bad she could not do any work. For two years she was attended by the best physicians here, and both agreed that she would have to be operated on. I suggested Lydia E. Pinkham's Vegetable Compound, and at first she refused to take it, but finally consented. From the very beginning it helped her, and now she is entirely well, and telling everybody how much good it has done her."

Mrs. W. D. WELLS, 226 North Adams Street, Petersburg, Va.

If every girl who suffers as Miss Wells did, or from irregularities, painful periods, backache, sideache, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years' experience is at your service.

MILLIONS DIE

Every year from Consumption, millions could have been saved if only common sense prevention had been used in the first stage.
