Propose Evacuation

(Continued from Page 1)

Compromise Urged.—LONDON, Aug. 15.—The Germans returned to their hotel where direct cables to Berlin carried the news of the unfavorable turn in the conference to the members of the German Cabinet. After a brief German cabinet meeting, negotiated by the cables which were exchanged directly with Wilhelmstrasse, chancellor Marx, and foreign minister Stresemann returned to Downing street 2.30 mean-while Prime Minister MacDonald, of Great Britain, saw M. Herriot, and urged upon him that he accept a compromise on the time limit for the evacuation of the Ruhr.

Delegates Anxious.—The anxiety which was felt for the success of the conference during this last minute gathering was reflected in the expressions and in the general deportment of the allied, German and U. S. representatives as they arrived and departed from Downing street. On his return to his hotel after the morning conference, M. Herriot said: "The Allies are with us and we are in complete control of the situation."

German Cabinet Meets.—BERLIN, Aug. 15.—President Ebert presided at an extraordinary session of the Cabinet convoked at 7.30 o'clock this morning to discuss the situation which has arisen in London because of the failure of the French and German delegates to arrive at an agreement on the time limit for the military evacuation of the Ruhr.

Further Particulars Of Drowning In Mill River.—The body of the late Aubin Gallant who was drowned at Bloomfield in the evening of Saturday, Aug. 9th was found Tuesday floating on the surface of Mill River at a higher point in the stream than the scene of the accident. Ever since the occurrence of the fatality dozens of fishermen from Alberton and Cascumpee had been aiding the residents in their long unsuccessful search for the body of the deceased.

PERSONALS.—Among the visitors to the city are Mrs. S. T. Doyle and daughter Miss Eda Rundstrom of Everett, Mass., while in the city they are the guests of Mrs. Bruce, 55 Douglas Street.

"The C. B. C's. Get There"

Owing to the wonderful success of its graduates in getting employment, the Charlottetown Business College is already assured of a splendid attendance during the term to open September 2nd.

The Typewriting record of the C. B. C. is SEVENTY FOUR net words per minute on a fifteen minute test, made according to the "International Typewriting Contest Rules." The first student to beat this record wins a very handsome prize.

Monthly Tests will be given during the term for the various prizes offered by the Underwood, Remington and L. C. Smith Typewriter Companies. Call or write for particulars.

PITMANIC SHORTHAND, the acknowledged reliable system of Phonetic writing, is made a SPECIALTY at the C. B. C. No divided attention. Having selected the BEST, it is TAUGHT, and with great SUCCESS.

Upon enquiry, it is surprising to learn what a very large percentage of our prosperous young men and women returning home for their vacation were graduated from the Charlottetown Business College, and they are proud to say so.

Actual Business from the START is what YOU want; not playing with it.

For full information, call at the College, or write, L. B. MILLER, Principal.

THAT CAR OF YOURS

BY HARRY E. PORTER

This is a series of articles pertaining to maintenance and repair of your Automobile. We will be glad to answer through this column, questions regarding your car or its mechanism.

Send your inquiries to "Automobiles," The Guardian Publishing Co., Ltd., Charlottetown.

As its name implies, this transmission operates in the same way as does the planets, both revolving and rotating at the same time.

It is a little difficult to explain without diagrams, but different from the planets it works on the line of least resistance. It comprises three drums, one drum containing a disc clutch controlled by a spring and yoke as in an ordinary disc clutch; a centre drum connected through a shaft on to three triple gears mounted on the fly wheel; the forward drum shaft in conjunction with the centre drum shaft contains three gears which mesh into the triple gears on the fly wheel; three bands are installed that contract by the pressure of the pedals.

The forward one operating on reverse; the centre one for low speed and the rear for brake. This type of transmission having but two speeds.

By pressing low speed pedal the clutch is disengaged and the centre drum prevented from turning. The line of least resistance then, is the operation of the triple gears turning the shaft connected with the main drive shaft at a low ratio which forms low gear.

Reverse operates in the same manner as low, except that the set-up of the gears on the reverse drum causes the triple gears to turn them in a reverse direction.

Common troubles—Bands worn; high speed clutch out of adjustment. The former remedied by new bands, the latter by adjustment on the three control dogs.

Ques.—What is a "growler?" A.K.F., S'Side.

Ans.—Other than the man who pays his repair bill, a growler is an electro magnet wound to take 110 volts, used for the purpose of ascertaining shorts in generator and starter armatures.

Now 75, Has Spent 58 Years In Prison.—(Continued) It was obvious that as soon as he came out of jail he was back again for another crime. It would be a waste of time to read the long list of convictions.

Questions Form Of Russian Pact (Canadian Press). LONDON, Aug. 15.—The form of the Anglo-Russian treaty, which mentioned the British and Russian Governments only and omits the King's name, has evoked the questionings of Sir Francis Bell, Attorney-general of New Zealand, an expert on constitutional law. According to the Morning Post's Wellington correspondent, he declares in an interview that he considered it a grave step towards disintegration of the Empire. If one part of the Empire could enter treaties through its plenipotentiaries, ignoring His Majesty, what could prevent other parts from doing the same he asked.
