BRITISH JOURNALIST SENT TO PRISON IN JAPAN.

TOKIO, July 15.—Andrew M. Pooley, an English journalist, was yesterday sentenced to two years' imprisonment and a fine of \$100 on a charge of receiving stolen documents in connection with the recent Japanese naval maneuvers involving officers in the receipt of illicit commissions for influencing the allotment of contracts.

Pooley received the documents from Carl Richter, an employee of a German arms dealer from who had stolen them, and was alleged to have used them for blackmailing purposes. The other two prisoners were V. Herriman, Tokio representative of the German armament firm, being sentenced to one year in jail and George Blundell, also connected with English journalism, to ten months' imprisonment. The sentences on these two men were, however, suspended for three years.

SHOOTING MATCHES

The last shoot of the Civilian Rifle Club in connection with the Canadian Rifle League, will take place on Monday next, along with the Fourth Regiment Club's League match at Kensington range, beginning at 2 p. m. The Civilian Club will have a spoon shoot on Saturday next at 2 p. m., open to all members in first and Tyro classes, at the 200, 500, and 600 yds. ranges.

A closely contested rifle match was shot at Kensington range yesterday afternoon, the competing teams being representative of the York Rifle Club and the Civilian Rifle Club. The match was won by the Charlottetown club by the close margin of five points.

The weather was excellent and the conditions not particularly difficult. The match was very interesting. On the side of the victors the handsome individual performance of G. R. Beer, who added another century score to his growing list, was the outstanding feature, and was a large factor in his club's victory. The York team's scoring was more even than that of the city team.

At the 200 yds. both teams made the same total, 307 pts. At 500 yds. the Charlottetown team gained a lead of nine points, making 311 to the others' 302 pts. But at the 600 yards the York team reversed the table to a certain extent, scoring 283 pts., at that range to the Civilian Club team's 279.

A team of the Summerside Rifle Club was also to have taken part in the match, but arriving late on the range, and then not being able to get together anything more than a scratch team, largely composed of young shots, they did not shoot in the match, but contented themselves with some practice. One of the best shots in the Island, made 99 pts over the three ranges.

Following are the details of the scores:—

Table with 2 columns: Name and Score. Includes G. R. Beer (100 pts), R. V. Longworth (95), Major Weeks (93), Capt. Duck (90), G. Moore (89), E. G. Love (89), G. H. Hutcheson (89), W. S. Louison (88), J. C. Milford (83), C. W. Patterson (81). Total 897.

Table with 2 columns: Name and Score. Includes C. H. Henderson (95), G. H. Jones (95), J. M. Crockett (92), Major Crockett (91), B. Crockett (90), B. R. Brown (90), V. Crockett (87), Dr. McDonald (85), A. Jackson (83), C. Mellett (83). Total 892.

BASEBALL

In the baseball match played at the C. A. A. grounds yesterday, the Charlottetown team decisively defeated the Summerside team by the score of 13-2. The game was top one-sided to be interesting, the city boys getting six runs in the first innings and three in the second. Summerside got two, their full score, in the third.

The western team's battery was Geoffrey's, pitcher, and R. Morrison, catcher. For Charlottetown McGeoffrey and Campbell both pitched.

the former 5 innings and the latter 4 innings, while Saunders was behind the bat. Mr. Samuel Murphy umpired efficiently. The game started about 6.45 p. m. and ended at 7.30.

INVESTIGATION AT SUMMERSIDE

(Continued from page one.)

were made in prohibition cases which were heard in January.

The witness was cross-examined at some length by Mr. Martin on the question of the adjournments.

Mr. Morse, of Summerside, Rev. W. D. Wilson, Field Secretary of the Temperance Alliance, and Rev. Mr. Armstrong, of Summerside, all gave evidence as regards the improper language alleged to have been used in court, and also as regards the administration of oaths, which they stated, in effect, was not conducted with becoming dignity and seriousness. They were all cross-examined by Mr. Martin. This closed the case for the prosecution.

Mr. Strong was the first witness called for the defense. The purport of his evidence in regard to the adjournments was that there was adequate reason for those adjournments. In the matter of the "language," witness stated that he asked Mr. Wilson "Didn't you tell me to make that settlement?" to which Mr. Wilson replied flatly "No, I did not."

Witness thereupon told him he was a damned liar. Mr. Wilson threatened to throw him down the stairs and witness told him "Go ahead," when somebody intervened. The Court had been adjourned ten minutes when this occurred. With regard to Mr. Wright's administration of the oath, witness thought that this was conducted in a very proper manner, with all due dignity and solemnity.

Witness was cross-examined by Mr. Bentley. Stipendiary Wright gave evidence. He said that on the 8th January, when the cases were first called they were being heard in the Police Court. There was too much noise outside, however, owing to the tramping of people into and out of the building and he adjourned the Court to the flat above. Witness spoke of the adjournments, giving a full explanation as to why they were made.

With regard to the statement made that Mr. Strong had called Mr. Wilson a damned liar, witness did not hear of this till the following day. He was not in the Court at the time it was said, or he was he certainly did not hear the remark. The document of which, it was alleged, he refused to compel delivery, said Mr. Wright, was a certificate that the defendant had put in to justify said and he put his initials on it to identify it—all the exhibits he intimated and he presumed he had intimated this one, although he would not be sure. It was never formally tendered in evidence, however.

Mr. Wyatt asked him for it at the adjournment and he gave it to him and he refused to give it back on the ground that it was never put in evidence and was his property. Witness was asked to order Mr. Wyatt to produce it, but he said he had no authority to do so. With regard to the administration of oaths, witness stated that it was the invariable practice with him to make all witnesses stand and in proper manner receive the oath.

Witness having been cross-examined by Mr. Bentley, Mr. Martin declared his case closed.

Pending the arguments, His Honor adjourned the Court sine die.

FORMALIN AND THE WART DISEASE OF POTATOES.

The British Board of Agriculture has received a communication from Professor Erikson of the Central Botanic Experimental Station, Stockholm, relative to a successful experiment in killing the contagious matter in soil infected with wart disease of potatoes. The Professor wishes to bring the method adopted by him to the notice of potato growers, especially in England. He experimented by treating the soil with a solution of formalin, and he found that soil intentionally infected would then produce clean tubers while soil not so treated produced tubers more or less infected with the disease. In his opinion, it has been proved by his experiment that a dilute solution of formalin, 1 to 100, is capable of killing the infective matter in soil contaminated with the disease, and he proposes that experiments should be arranged in England to test the remedy.

Hall, Vice-President. Edward W. Manson, Secretary Treasurer. THE DIRECTORS of The Willow Hill Silver Black Fox Company Limited have recently decided to enlarge their ranching facilities and to add other young foxes to their present stock of breeders and for this purpose have had their authorized capital stock increased. This will give the investor a chance to place his money in a fox ranch that has a record behind it. The foxes of the Company consist of five pairs of proven breeders and five pairs of young foxes, the product of our own ranch, except in so far as it is necessary to introduce new blood. All of which will be capitalized at \$23,000 per pair or \$230,000 in all. This will include the plant and all necessary equipment for the proper ranching and caring of foxes in captivity and which has been constructed in accordance with the most modern methods and at a considerable expense to the present owners. Of the five pairs of breeding foxes above mentioned, one pair and the first purchased by the present owners is 4 years of age and has already produced 24 young and has raised 100 p. c. of this number. Another pair the female of which is the progeny of the first litter of the above pair has produced and raised 15 young in three years; a third pair the male of which is the progeny of same litter has sired 12 young during the same time, all of which were raised to maturity. The Company has met with exceptional and continued success since its organization in the year 1911, having raised 7 young from 1 pair in that year; 11 young in the year 1912, and 16 young in the year 1913 and of these 16 young 80 p. c. of them raised young during the present year. There are 19 young in the ranch of the present year's production, all are healthy and doing exceptionally well. The Company has paid in dividends to its shareholders since organization in 1911, over \$100,000, and has foxes in its ranch valued at \$287,000. Application for stock in the Company may be made to the Secretary or to any of the Directors on the Application Form attached to the Prospectus or any form to the like effect, 20 p. c. of subscriptions must accompany each application and the balance on or before the 15th day of August next, 1914. 3482-7-16Mtuesthur&sat3i
