WEEKLY LETTER FROM J.C. MACKINTOSH & COMPANY.

Investment Securities, offices: Montreal, Halifax, St. John, New Glasgow, Fredericton. Nov. 16th, 1911.

Market Review. The local market has shown considerable irregularity. For some weeks past most of the standard issues have shown big gains, and the failure of the insiders to give the same attention to their specialties as they had has resulted in a reaction which has effected practically the whole list. As is usual at such a time, traders who may have taken on more stock than usual, in anticipation of a quick advance, were forced to curtail their commitments, and this quickly occasioned somewhat lower prices. The market, however, seems to have taken such realizing very well, and while, under ordinary conditions, many prices seem fairly high at the present time, still money is so easy that there has been absolutely no curtailment of loans. This in turn, has not occasioned any forced liquidation, but towards the end of the month some of the Canadian companies will be drawing in some of their money, and this might have the result of prices gradually working lower.

The Wall Street Market has also been subjected to a re-action, which seemed only natural in view of the fact that the market had had a steady advance of from ten to fifteen points. The general situation there seems considerably improved and opinion is more optimistic. One menace of the situation, however, lies in the re-assembling of the United States Congress next month. Attempts will then be made to drastically reduce the tariff, and any such attempt will likely be reflected in the market. The better opinion, however, is that very little legislation of such a character will meet with the sanction of either the Senate or the President.

Set Back In Rio Common. Rio Common which had been a speculative favor for some months past, owing to the confidence of the Toronto interests that the dividend would be increased at an early date, received a setback by the report from London that the Company would issue $5,000,000 additional stock and that the entire amount had been underwritten by a syndicate at 105. It is presumed that the stock would first be offered to shareholders at 105, and the portion of it which will not be taken up will be immediately transferred to the syndicate. London interests evidently knew of the stock issue much ahead of the Canadian holders, because for some days past there was considerable selling of the stock here for London account. With the stock selling at the prices that it is, there is nothing specially attrative to the shareholders in taking up the new stock at 105, but, on the other hand, it is presumed that if a London syndicate were willing to pay that price for it they must have intimation on the part of the directors, that the dividend on the stock will be increased in the not distant future, and this would result in the value of their holdings being advanced.

Ottawa Power Consolidation. Without showing any activity Ottawa Power has again climbed up to the 150 mark. It is known that the insiders have practically completed their plans for the proposed consolidation of the different public utility companies in the City of Ottawa, but they are evidently waiting to see just how the plans in connection with the Montreal Street Railway are received before launching their own onto the market. The plans which are being considered will result in exchange of securities to the present shareholders, and any additional financing that will be done will be arranged in London.

Richelieu Acts Disappointingly. Since the dividend on Richelieu was increased from six to eight per cent. the stock has acted in a disappointing manner. The way the price has declined would seem to indicate that the insiders are not giving it as much attention as they did some time ago, evidently with a view of shaking out a lot of the weak holders, who naturally climbed aboard in anticipation of the dividend increase. It may be remembered that the same interests which are identified with Richelieu also left Toronto Railway alone after the big bonus, was declared but afterward took the stock in hand and moved it up very quickly. It may be that they have similar plans in connection with Richelieu, but before doing so want to get the stock in a better position from a market standpoint.

During the past few days there have been reports that the Niagara Navigation Company, which plys between Toronto and Niagara Falls, would shortly enter the navigation consolidation.

Headaches Over the Eyes Mean Frontal Catarrh

Apt to Get into the Ears Causing Deafness, or to Reach the Lungs and End in Consumption.

You Can Cure Catarrh in Any Stage by Breathing the Healing Balsamic Fumes of Catarrhozone, and Here is Proof.

Mr. Uric Berault, a young gentleman who has lived for years in Sweetburg, Que., inherited catarrh from his mother. The disease spread though his system till he was a physical wreck.

"As a child," said Mr. Berault, "I was prone to an ulceration of the mucous lining of the throat and nasal passages.

"I grew pale and emaciated, lost all desire for food, and got into such dreadful condition that my friends said that catarrh was fairly eating me up.

"Every organ of my body seemed effected, and the doctor said it was he first stage of consumption. He advised Catarrhozone and I unhaled it ten minutes at a time every few hours, and was rewarded in a few days by a wonderful improvement.

"Catarrhozone pleased me and the doctor so well that I used it continually, and took Ferrozone Tablets after each meal to build up my strength. In about three weeks I was quite recovered, and the doctor says no remedy but Catarrhozone could work such a miracle.

"Everyone in town knows I was just about dead with catarrh, and my cure is an evidence of what Catarrhozone can do. It is a pleasure to recommend Catarrhozone."

Two month's treatment, large size, price $1, and guaranteed, Small size, 50c., all reliable dealers or the Catarrhozone Co., Buffalo, N. Y., and Kingston, Ont. Beware of dangerous substitutes and imitations for Catarrhozone."

THE CRISIS IN CHINA DECISION DEMANDED.

PEKING, Nov. 20—Demands for the throne's abdication are crowding upon Premier Yuan Shi Kai, who will be forced to make a decision within a week.

It seems to be a case of fight or ask the Court to depart from the capital.

Every suggestion for abdication is accomplished by promises of protection and ample pension. It is stated that the Premier has ordered a renewed attack upon Han Yang and Wu Chang. If this is true, it signifies his choice.

IT WAS STONE IN THE BLADDER

GIN PILLS PASSED IT

"Five years ago, I was taken down with what the doctors called Inflammation of the Bladder—intense pains in the back and loins, and difficulty in urinating, and the attacks, which became more frequent, amounted to unbearable agony. I became so weak that I could not walk across the floor.

My wife read in the papers about GIN PILLS and sent for a box. From the very first, I felt that GIN PILLS were doing me good. The pain was relieved at once, and the attacks were less frequent.

In six weeks, the Stone in the Bladder came away. When I recall how I suffered and how now I am healthy and able to work, I cannot express myself strongly enough when I speak of what GIN PILLS have done for me". JOHN HERMAN, Hamilton, Ont.

HELENA WYMAN GOES ON ROCK

BLOCK ISLAND, R.I., Nov. 19—Smashed by heavy seas during the gale early today, the three-masted barge Helena Wyman was wrecked about 12 miles south-west of this island. It is feared that five men comprising the crew of the Wyman were drowned, as life saving stations in this vicinity have no record of them.

Laden with coal, the Helen Wyman was bound for Boston from a southern port with the barge Shenandoah in tow of the tug John S. Scully, of New York. During the heavy gale in the morning the barges broke adrift.

The Shenandoah was later picked up by the scully and anchored just outside Newport harbor.
