For 1930 Butter Lower Prices

Official Market Report Contradicts Liberal Propaganda And Shows Effect Of Heavy New Zealand Importations This Year.

The following current report of butter and cheese market conditions, issued by the Dairywomen's Association of Nova Scotia, is in direct contradiction to a statement published in yesterday's issue of the local Liberal organ, that the trade policy of the Mackenzie King Government has resulted in increasing the price of butter 4 1/2 cents a pound or an average of 38 1/2 cents net to our farmers for the present year.

Week's Review: There is nothing new to report on local market conditions. Judging by retail butter prices in many cases, the consumer is not getting the advantage of low prices.

The Montreal and Toronto markets were abnormally low at the beginning and during the greater part of last week, but trading became more active at the end of the week. The markets opened this week with more interest and slight advances in prices. The reports on the condition of the butter market are much more optimistic.

The market is behaving much the same as in 1928 and 1929, prices beginning to pick up after the first week in February, but 1929 prices were about 5 cents higher than 1928 and at present.

While the nominal term of Judge Stewart's retirement fell due yesterday, it is understood that he will carry on until a successor is appointed. This position is on all fours with that of the Governorship, which became vacant in September last and which is being retained by Governor Hearst until the Liberal party agrees upon a successor. It is understood that in the latter case Mr. H. R. Jenkins, M. P., will receive the appointment on the dissolution of Parliament and that his successor as federal candidate for Queens County will be Dr. Cyrus MacMillan. In 1912 he was elected with the late Dr. Jenkins as representative for Charlottetown in the Legislature. In 1914 a couple of years later, a vacancy occurring in the Queen's County Court Judgeship through the death of Judge Hector MacDonald, Judge Stewart received his appointment. As he himself confessed in his retiring address on the Bench, the position is largely a sinecure there being comparatively fewer duties to be discharged in the Court than in former years.

WEDDING BELLS.—A very pretty wedding took place at the manse 31 Hampstead Road, Brookline, Mass., on Feb. 5th, when Susanna Margaret, daughter of Mr. and Mrs. Frederick Coles, Milton, P. E. I., became the wife of Mr. James Morrow, Brookline, Mass. Rev. Philip Clifford officiating, the double ring service being used. They were attended by Miss Annie Coles, sister of the bride Haverhill, Mass., and Mr. Frank Dennis, Boston. The bride wore her travelling costume of green crepe trimmed with beige lace and silk, her coat matching, trimmed with maroon fur, her hat straw and felt, two tons of green. The bridesmaid wore a gown of dahlia crepe with crystal trimmings. The groom's gift to the bride was a wrist watch. The bride is a graduate nurse of the Gale Hospital, Haverhill, Mass. Mr. Morrow is one of Boston's popular young men, being manager of a large department store there. Mr. and Mrs. Morrow left by motor for New York where they will spend their honeymoon. On their return they will reside at 35 Oakland Road, Brookline, Mass. Their many friends both here and in America wish them many years of happy wedded bliss.

STEALING SKATES AND BOOTS was the charge laid against two lads in their teens at the Police Court yesterday morning. Last Thursday Mr. John McAleer, janitor of the Arena Rink, reported to the police that two pairs of skates and boots had been stolen. Police Officer Dominic Doyle, who was detailed to the case, picked up a number of clues, located the lads and forced them to surrender the articles stolen. One had sold his loot to another lad, but the other had the goods in his home. The case was remanded till this morning.

OFFENDER FINED.—Wednesday Mr. T. T. Trenholm of the C. N. R. Investigating Department took into custody a young man about 24 years of age, a resident of Hunter River, charged with creating a disturbance and using foul language on the recent hockey special to Summerside. He appeared before Magistrate D. Edgar Shaw yesterday morning and was fined \$10 as well as receiving a severe reprimand from His Honor. This offender received only a minimum fine but for others who wish to kick up a row on any C. N. R. trains it may be well for them to note that they will be more severely dealt with.

MORE POTATOES.—The United States Department of Agriculture makes report on acreage which growers intend to plant in 1930. These indicate a total potato area of 3,370,000 acres, nearly 6 per cent larger than the area harvested in 1928. If the intended acreage for 1930 is planted and a yield in line with the trend in recent years is secured, the total production in the United States would be around 421,000,000 bushels, which would be about the quantity produced in 1924 when the December 1 farm price was 62.5c per bushel compared with 131.4c per bushel on December 1, 1923.

SCHOOL SUPPLY CRITICIZED.—The current issue of the College Times says: "Many students, are complaining of the poor service obtainable at the Government School Supply. Their complaints are most certainly not without justification, for, as regards supplies for P. W. C. students the situation is most unsatisfactory. This is by no means a new evil. For years it has been found that there is always an insufficiency in the stock of many of the books used at the College. After the announcement of the current book list, there is usually a general rush to the school supply, and too often it is only those who drive automobiles and bicycles, or those who are unusually rapid walkers, who arrive in time to purchase the books they require. There was a shortage in several of the lines of Third Year books this term, and as a result, several students have been compelled to do without the needed books for several weeks, much to the detriment of their studies. We have no doubt that a similar situation exists or existed in other years."

Retirement of Judge Stewart from City Ct.

Much Political Interest In Appointment of Successor.

While the nominal term of Judge Stewart's retirement fell due yesterday, it is understood that he will carry on until a successor is appointed. This position is on all fours with that of the Governorship, which became vacant in September last and which is being retained by Governor Hearst until the Liberal party agrees upon a successor. As he himself confessed in his retiring address on the Bench, the position is largely a sinecure there being comparatively fewer duties to be discharged in the Court than in former years.

THE question of a successor to Judge Stewart is now interesting politicians. In the running now are Messrs J. J. Johnston, C. G. Duffy, and D. Edgar Shaw. It is understood that Premier Saunders has intimated that it is not his intention to accept the position in the event of it being offered to him.
