### Railway Situation Still Hopeful

LONDON, Jan. 12.—The summons of Sir Eric Geddes and Sir Robt. S. Home to Paris, to confer with Premier Lloyd George on the railway situation is regarded hopefully by the reviving delegation who point out that the Prime Minister has uniformly solved the labor menaces by making big concessions to the workers. The position in this instance is, however, different to the circumstances at other times, the men's own representatives having agreed that the original terms constituted a fair and honorable settlement. Mr. J. S. Thomas, Secretary of the national union of railwaymen, took the strongest stand during the delegates conference against rejection of the offer and threats to strike. The Mail says, that both he and president Cramp declared they would resign office rather than lead a strike on this issue, pointing out that the welfare of the railwaymen is bound up with the welfare of the community, and that a railway strike would ruin both. The position of Sir Eric Geddes, Minister of Transport, is understood to be willingness to adjust minor difficulties and anomalies, but a refusal to make large fresh concessions. His attitude however, is of the premier is actively interfering.

### COUNTERFEIT TEN DOLLAR BILLS ARE BEING PASSED

MONCTON, Jan. 10.—Evidence that counterfeit bills are in circulation in Moncton or the surrounding districts was brought to the attention of The Times last night by a Monctonian who had one of the shabby bills given him yesterday while doing business in a small town on the north line of railway.

The manner of counterfeiting used in this instance is very ingenious and cannot be detected easily though quite apparent when closely scrutinized. In this instance a Royal Bank of Canada ten dollar bill was used. It would appear that the method is to divide a genuine ten dollar bill into two pieces and by using a bogus half, make two ten dollar bills out of one. One part of the bill shown The Times last night is undoubtedly genuine, while the other portion is just as certainly bad. The dividing line is plainly discernible when held to the light. The placing of the red inked serial number on the bogus

half is poorly done and easily caught if glanced at sharply. Other markings of the counterfeit part are also plainly seen to be false. While the bill would be noticed quite easily if passed separately, if given among a number of others it might escape detection as it did in the case of the gentleman who was caught yesterday. In this connection it might also be said that the person from whom the bill was received was also "done" and had no idea that it was counterfeit. It was not until the citizen in question turned the money in at his office that the bad paper was discovered.

### WILL NOT PAY THE HIGH PRICES FOR FIREWATER

WINNIPEG, Jan. 10.—The expected inrush of liquor as a result of the lifting of the importation ban has not developed in Manitoba, owing to the high cost of imported fire water. Including express rates, the price is almost fifty per cent higher than for liquor purchased at the drug stores. It is stated.
