FOUND—OVERSEAS BUTTON number 87014. Owner may have same by calling at Guardian and pay for ad.

Forest Fires In Cape Breton

Glace Bay Firemen Called Out To Save New Aberdeen School

SYDNEY, May 14.—Timely rain-fall, which began after midnight and continued for several hours this morning, has given Cape Breton temporary relief from the forest fires which were spreading rapidly in many parts of the island and menacing many settlements, remote farmsteads, and even the larger towns.

At New Waterford Friday night fires came so near that furniture was removed from houses on the outskirts of the town.

At McKay Corner, Glace Bay, several houses and barns suffered a scorching.

Ten trolley poles on the suburban lines of the Cape Breton Electric Railway burned Friday, causing a stoppage of traffic for some time.

New Aberdeen school was in danger, and the Glace Bay firemen were out all day fighting brush and forest fires on the outskirts of the town. The same was true of North Sydney, where a railway bridge belonging to the Scotia Company was partly destroyed.

Heavy fires were reported from Reserve, Port Morien and Dominion Number Six.

Jury Not Agreed In Steeves Case

Verdict Is Now Set Down for July 12th

HOPWELL CAPE, May 16.—After being out four hours the jury in the case of Galus Steeves charged with the murder of his wife Lucy Steeves, near Pine Glen on February 15th last, reported to the court Saturday afternoon that they could not agree on a verdict. The jurors were then discharged and after a formal motion by the Crown Chief Justice McKeown fixed on July 12th next as the date for a retrial of accused. Eight of the jury were for conviction for manslaughter, while the other four were for acquittal. None of the jurymen reported for finding the accused guilty of murder as charged in the indictment.

MEETING TONIGHT.—A meeting of the Kikare Club tonight at 8 o'clock in League of Cross Rooms. All members attend.

TO INSPECT CADETS.—Colonel Willis, Cadet Inspector, arrived in the city last night from Halifax and will inspect the city cadet corps today. He is registered at the Russ.

SECURES POSITION HERE.—Mr. J. H. Martin left today for Charlottetown P. E. I. where he has secured a good position. Mr. Martin was for some years a valued employee of the Eastern Railway Co. where he proved himself a highly competent mechanic. It is men of Mr. Martin's stamp that we regret to see leaving our town and we hope that industrial conditions may soon brighten up sufficiently to have men of his ability back to good old New Glasgow.

BACK FROM HALIFAX.—Hon. C. W. Crosby, Commissioner of Public Works and Mr. H. H. Shaw, Provincial Engineer, have returned from Halifax where they attended the Convention of the Good Roads Association. Speaking on their impressions of the convention they said that the most prominent note was sounded by Premier Oliver, who warned the delegates against the danger of building too extravagant a bridge about a condition similar to that of the railroads in addition to the Commissioner and the Engineer there were also present from the Island Messrs Creelman MacArthur, M. L. A., H. J. Phillips and P. G. Clark. Mr. Phillips being one of the contractors for this year. The Island representatives are all loud in their praise of the splendid hospitality extended them during their visit to Halifax.

Inspection at local headquarters will likely take place on June 16th and 17th. The inspection will consist of foot drill, rifle exercises, gun-drill, officers and N. C. O.'s questions and signalling.

The shooting competition will take place at Petawawa.

The combination of the above two will be the competition for the Governor General's cup.

Signalling classes for the artillery boys in connection with Major Keith Rogers' signalling company are being held every second night and the class is making excellent progress.

Fire Yesterday At Fredericton

A bad fire occurred yesterday at Fredericton, Lot 67, when the general store of Mr. J. A. Cutcliffe was burned to the ground. The fire, which broke out fiercely at 8:30 a. m. is supposed to have started from sparks from the flue. In spite of every effort made by Mr. Cutcliffe and neighbors to extinguish the flame the building and much valuable stock was destroyed. Some goods in the lower part of the building was all that could be saved.

Mr. Cutcliffe was at the station at the time waiting for the train when the fire broke out. The store, destroyed, was a large building and part was originally Mr. Cutcliffe's dwelling. After he removed into his fine new residence he had the whole of the building converted into a store.

There was \$6,000 insurance on the store and stock, mainly in companies represented by W. K. Rogers & Co. H. M. Davison and the Mutual Life Insurance Company of Summerside.

The value of the store and stock destroyed is between ten and twelve thousand dollars.

Drowned While Lobsrer Fishing

VICTIM WAS CAUGHT IN A TRAP LINE AND DRAGGED UNDER THE SEA

YARMOUTH, N. S., May 15.—Henry Boudreau, 45, of Lower Wedgeport was drowned on Friday last, while setting lobster traps on Jacko Ridge, off Mud Island, near here, according to word received in Yarmouth yesterday. It is supposed that Boudreau was entangled in a trap line and was dragged into the sea and down out of reach of his young son, Henry Jr., who was with him in a small motor boat unable to render any assistance. Boudreau is survived by a widow and several children.

THE LAUGH LINE

On the Sea

Wife (trying to comfort seasick hubby)—"Darling, has the moon come up yet?"

Husband (weak-voiced)—"I has 't I swallowed it."

He Has Used Them For Thirteen Years

WHY A. M. GUENTHER SAYS USE DODD'S KIDNEY PILLS.

He Says That Dodd's Kidney Pills Are All That Is Claimed For Them, and Also Recommends Dodd's Dyspepsia Tablets.

Dead Moose Lake, Sask., May 16th. (Special).—"I have used Dodd's Kidney Pills for thirteen years and have found them all that is claimed for them." Such is the tribute Mr. Anton M. Guenther, a well-known and respected resident here, pays to the old Canadian kidney remedy, Dodd's Kidney Pills.

All that is claimed for Dodd's Kidney Pills is that they are a kidney remedy. They heal and strengthen the kidneys. They are used to treat rheumatism, dropsy, backache, urinary troubles, diabetes, and heart disease, because all these ills are either of the kidneys or caused by diseased kidneys.

Mr. Guenther has also used Dodd's Dyspepsia Tablets and he says of them: "I can heartily recommend them to all sufferers from stomach trouble.

Great Enthusiasm in The Artillery

Island Gunners

News Notes of the Doings of Our The Prince Edward Island Heavy Brigade Artillery is rapidly filling up. Last night No. 3 Battery under command of Major H. L. Bethune had a very fine drill. This battery is practically full strength and the recruits were medically inspected and issued with uniforms. They are certainly a fine lot of boys and have a most enthusiastic set of officers and N. C. O.'s. Tonight at 7:30 No. 2 Battery, commanded by Major J. P. Hooper, M. C., will drill and will also issue uniforms. No. 2 are picking their men carefully and have a very fine battery. They are after twenty more real good physically fit young men and will then be complete. There is great interest shown in the drill, and looking increasing with each drill night.

The firing detachments from the batteries will leave for Petawawa on June 21st and will return on June 29th.

Authority has been given to organize a regimental band and that will be proceeded with at once.

Life Was just Burden To Him

QUEBEC MAN SAYS HE WAS IN BAD SHAPE—TANLAC OVERCOMES ALL HIS TROUBLES.

"One day I happened to mention my stomach trouble to a friend of mine, and he spoke right up and said: 'You take Tanlac, it made a new man out of me and I'll do the same thing for you.' Well, I took his advice, and sure enough it has done just what he said it would for I feel like a man made new."

The above statement was made by G. Noonan, well known millwright residing at 52 Joliette St., Quebec, recently.

"Over a year ago," said Mr. Noonan, "I commenced losing my appetite, and suffering from indigestion. I got so sick it was a great effort for me to continue with my work. Nothing I ate would agree with me, and my strength and energy left me rapidly. After every meal I had a dreadful pain in the pit of my stomach for hours, and was bloated all up with gas. My nerves kept me from sleeping scarcely any, and I had dizzy spells so often, and felt so bad all the time, that life was a perfect burden to me.

"Well, I think it was about the luckiest thing I ever did when I got Tanlac. My appetite is wonderful now, and everything agrees with me so well I've gained nearly ten pounds in weight and feel strong and full of energy all the time. I sleep soundly every night, and am doing my work with ease and pleasure, without the least fatigue. Tanlac certainly does the work."

Sun Spots Cause Of The Brilliant Aurora Display

WASHINGTON, May 16.—The unusually severe aurora borealis of last night was caused by an immense sun spot officials at the rival observatory said. The spot, which is 9,000 miles long and 21,000 wide was observed May 10 when it was photographed at the observatory and it was again photographed yesterday. Officials said it was visible to the naked eye today and could be readily seen through smoked glasses. It will not disappear, they added, until the eruption of internal gases which caused it subsides.

NEW YORK, May 15.—One of the severest electrical disturbances within the last thirty years arising from influence exerted by the aurora borealis or northern lights last night disrupted telegraph communication throughout the United States. For more than an hour before midnight, virtually every telegraph wire leading from New York was out of commission. Lines between New York and Chicago and those south of Washington were totally disorganized. The localities in the eastern states felt the effect of the phenomenon.

The disturbance began shortly after 6 p. m., affecting at that time chiefly the northern wires. It steadily grew worse until about 8 o'clock when the trouble spread to the entire eastern system.

At 11 p. m. leased wires of The Associated Press leading from New York were affected intermittently the interruption lasting until after midnight.

London Greatly Relieved

LONDON, May 16.—The news that the new German Cabinet had decided to accept the Allied terms and that it had been given the support of the Reichstag in that decision, which reached here too late for editorial comment in this morning's papers, will be received in London with great relief, if not with great surprise. The acceptance had been regarded here as inevitable, but as the hours of ultimatum slipped away without the difficulty of forming a new German Cabinet being overcome, there were fears that Germany's decision might go by default. At the same time there was a belief that Germany would rise to the occasion as she has done in other cities and find a man, probably at the eleventh hour, who would take on the responsibility of accepting the ultimatum.

The Berlin correspondents of the London newspapers have been reporting the wavering of German public opinion to the final opinion that the only course open to Germany was compliance with the Allied demands, but they were not very hopeful that such a man might be found before the time limit imposed by the ultimatum had expired, especially as he would be faced with the tasks, among others, of enforcing the disarmament of the Bavarian Einwohnerwehr and bringing the war criminals to justice.

As soon as the news came through, however, that Wirth had succeeded in forming a Cabinet, there was little doubt here as to what Germany's answer to the Allies would be, if only he could secure the Reichstag's endorsement. It was already understood that Wirth was prepared to comply with the ultimatum and it was pointed out that several times in interviews he had expressed himself in favoring any way of making economic arrangements with the Allies.

(Special to the Guardian)

TORONTO, May 15.—Toronto had a Japanese visitor yesterday who calmly stated that Christianity and Buddhism were essentially the same. He is Mr. S. Maruyama, Secretary of the Tokyo Branch of the Young Men's Buddhist Association who is accompanying Professor R. Shimizu of Keio University, Tokyo, on a trip through Canada and the United States.

What He Feared.

A minister who guarded his morning study hour, very carefully told the new maid that in no circumstances were callers to be admitted—except, of course, he added, in a case of life and death.

Half an hour later the maid knocked at his door.

"A gentleman to see on, sir."

"Why, I thought I told you."

"Yes, I told him," she replied, "but he says it's a question of life and death."

So he went downstairs and found an insurance agent.

Canada's Emigration Policy Optimistic View From Dublin Castle

LONDON, ENG., May 16.—Not within the past twenty-five years has there been enforced such stringent restriction of emigration from the United Kingdom to Canada as is now being carried out by the Canadian immigration officials here. Instructions have been issued this week to immigration agents throughout Great Britain that applications from artisans and workmen desiring to go to Canada must be definitely rejected; that those from inexperienced men wishing to go on the land, and those from experienced married agricultural laborers, must be postponed until the Spring of 1922, and that the only class whose entry will be considered will be experienced unmarried farm workers desiring to go to Ontario, Manitoba or (in a limited number of cases) Quebec, British Columbia wishes no immigrants of any kind. The effect of this rigid enforcement of departmental policy will be perceptible in June, for which month the steamship companies have accepted no third-class bookings to Canada, though this month had seen a large exodus, and it had been expected that immigration from Britain to Canada would reach record figures this year.

In view of the Dominion's policy, as indicated, it is extremely doubtful how Hon. Mr. Meighen will at the June conference view the proposal on its agenda for joint British and Dominion loans to assist immigration other than that of ex-service men. Canada has so far consistently refused to pay new citizens to come to her. Other Dominions have not been so uncompromising in the past. New Zealand, however, which a few months ago announced that it would assist in the payment of prospective settlers' passages, so as to meet the competition of the shorter voyage to Canada, has now withdrawn its offer, and is permitting no immigration of any sort.

PRINCE EDWARD ISLAND

O! Prince Edward, loveliest Island,
Where nature lends her gentlest,
Freshest breezes,
Where summer blossoms loveliest
Tints are found,
And shney waters wash the
Shores around.
O! tourists, here a haven ye shall
find
Far from the city's roar and dismal
grim;
Where the weary soul and tired
limbs at rest
A place of peaceful happiness and
of blissful rest.
Where sights that please the eye
are found in number,
From morn, thro' busy day, till
midnight slumber.
The northern shore where cooling
breezes fan the dusky earth.
There in the morn rolls in the
foam capped surge
Curling in o'er sand and air the
sea-worn rocks,
Where sea birds rise and fly away
in flocks,
The fishers crest the morning
waves to thrall
The finny deep wherein the fishes
dwell,
And turn to their little homes up-
on the lea
Where night lowers her velvety
curtain o'er the sea.
Such scenes as these the Northern
shores unfold
The weary eye and tired brain to
mould
The Southern bird where shining
waters play
In its pleasant nooks, and idly lap
the waves,
Affords a sight more lovely to the
mind
Than all the artful beauties man
can find,
The curling creeks that find their
way thro' dills,
Arrive at last to the ocean's rest-
less swells
Where nature creates her warm-
est breath the while.
Before it taps the pebbles of our
beautiful "isle."
And from the steamer's deck the
eye is shown
Many a fertile meadow and pleas-
ant home,
The green fields sloping gently to
the waters edge,
Then when the gathering shadows
commence to creep
And you stand on the dusky
beach by the lolling deep,
As the golden hues in the west
are waning away,
And the purple sea at the close of
a sultry day
Above in the blue the stars steal
one by one
To gaze on the crimson hues of
the dying sun,
You are carried away to fairy land
It seems,
To a land of blooming flowers and
beautiful dreams.
