S. S. ASSOCIATION RALLY

A rally of the York district, S. S. Association was held in the Covehead Methodist Church, on March 27. The 2.30 p. m. session was presided over by Mr. James Matthew the President. After the devotional part of the service reports were called for and responded to from the Dunstaffnage, York, Covehead, Presbyterian, Covehead Methodist, and Union Sunday Schools. Minutes of the annual convention held at Brackley last October were read, followed by an address from Rev. Mr. Wilson. He said, 1st, get the children; 2nd, appoint teachers; 3rd, keep at the lesson when teaching. Never convey to the child's mind that the God of the Scripture is different from the God of today. Later a short discussion on the taking of the temperance pledge in the Sunday Schools followed, showing its sacredness. Then a talk on some of the difficulties of teaching, suggestive helps and better methods of Sunday School work was taken up by the different delegates present. Parents have not the Sunday School work at heart is the reason that some children do not attend Sunday School. "Press Onward," was the encouraging advice given by the President in his closing remarks. Session closed with Doxology and Benediction to meet at 7.30 in the evening. Evening session and a crowded church. Singing and prayer by Rev. Mr. Wilson. President read the 19th Psalm. Miss Boyver then read an excellent paper, followed by an address from Mr. James Essery, in which he said he was thankful for godly parents, a godly training and a godly heritage—for a S. S. teacher and going always to the Sunday School. He said that Dr. Henderson Senr. always asked a blessing on the good old book every time he read its pages. A boy sorry for attending the S. S. was yet to be found. Train the young, put forth great efforts—recruits for King George are needed, but more needed are recruits for Christ. Future workers are to come from the Sunday School. In order to receive the "Well done" we must do well. Singing. Then an address by Mr. B. C. Harry, who said that everybody in S.

S. work should have something to say about the S. S. work which has such a great influence—an influence derived only from the milk of the word and the study of the same, by which knowledge we are enabled to impart the truth. He also spoke of the influence of the Sunday School as an educator—something not to be despised. A spiritual education is before any other it is an inducement to moral living, it has an influence to overcome when tempted. In it we find an abiding home—a resting place. The teachings given by Jesus to his disciples and other he compared to a Sunday School.

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if cross, sick, feverish, Constipated.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. It's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them. If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Notes From Provincial Seed Fair

The number of entries at the Provincial Seed Fair held at Summerside on March 27th and 28th was not as large as usual. In the class open to members of the Canadian Seed Growers Association the exhibit was very small. One good sample of White Fife wheat was shown. In Banner oats, which is always a strong class, there were three entries of fair quality. The small exhibit in this class is accounted for by the lateness of the spring and the hot windy weather before harvest which caused the grain to ripen too rapidly. In the class for competitors in the standing Fields of Grain competition, the adverse conditions of the past year were again in evidence in the amount of grain entered and also in the quality. Some very good exhibits of Banner oats were shown, but the average was below the standard. Wheat entries were small in number and the grain was not as well filled as usual. There was a good exhibit of barley and the quality was up to the average

Both two-rowed and six-rowed samples were well-matured and showed a high percentage of purity. A two-rowed barley, C. E. S. number 80, is giving splendid results through the province. While the potato exhibit was not so large as usual yet the quality was good. Most of the samples were free from disease, uniform and true to type. The timothy seed was a splendid lot, clean, bright in color and practically free from weed seeds. A few of the samples were slightly hulled. There was a large entry of beans. Both white and colored varieties were of excellent quality and well ripened. Scarcely any signs of disease injury could be formed in any of the samples. The excellent exhibit of root seeds clearly showed that these seeds could be successfully grown in this province. There was a large entry of turnip, mangel, carrot and cabbage seed. Every sample was well ripened, uniform in size and color and indications of high vitality. Several samples of turnip seed grown in this province last year have been submitted to the Seed Branch, Ottawa, and have germinated 98% to 100 percent. The exhibit of handcraft was good. Splendid samples of weaving, knitting

and spinning were shown both of woolen and linen goods. A special feature in the women's section was the exhibit of war time cooking. This exhibit attracted the attention of many visitors and amply demonstrated the possibilities in substituting other foods for wheat, beef, and bacon. Each exhibit of cooking had the recipe attached. Many took advantage of the opportunity to copy the recipe for their own use. A well attended meeting was held in the afternoon of the 27th, when addresses were given by the Commissioner of Agriculture, Hon. Mr. McKinnon, Mr. J. L. Tennant, Agricultural Representative for Prince County, and Miss Hazel Sterns, Supervisor of Women's Institute. The officers of the fair are president, Rev. P. C. Gauthier, St. Louis; Secretary, Mr. John Grady, Summerside; directors, Horace Wright, Bedeque; R. Agnew, Wilmot; D. B. MacDonald, North Bedeque; Jesse A. Donald, Kensington; Rev. J. J. MacDonald, Kinkora, C. McLellan, Arlington; W. H. McGregor, Central Lot 16; T. Ross, Bedeque; J. J. McNally, Summerside; Fulton Simpson, Belmont; Thos. Waugh, Wilmot; J. E. Murphy, Augustine Cove; Alex. McFarlane, Fernwood.
