Mr. J. J. McQuaid, station agent at Alberton, was in Summerside Friday on business.

Mr. G. G. Bennett, who has been with the Bank of Nova Scotia at Alberton for the past few weeks, left for Halifax, where he will continue his work. Miss Helen Oulton, of the same Bank, has been transferred to the Charlottetown branch. Miss Oulton left Alberton Friday morning.

Mr. Thomas Maynes of the Provincial Bank at Tignish, left for Sackville yesterday morning to resume his work in the same branch at Sackville. Mr. Maynes had many friends in Alberton and they were very sorry to hear of his departure.

The Hall Manufacturing Co., Summerside, had a carload of horse meat arrive in Alberton on 13th and sold it out to the different ranchers the following day. Mr. Stephen Pond had charge of the load. When in town Mr. Pond stopped at the Albion Terrace Hotel.

Reports from the station ticket office show that the week-end of excursions was well taken advantage of by the people who were probably wanting to do Christmas shopping and spend a day in the Capital. The Wolverine-Abbie hockey match proved a major attraction and many who wanted to see these games found the expense lessened a great deal. The revenue derived from these week-end excursions are pleasing the railway company, and it is wondered by many why we could not have one each week. If we could it would be most convenient to our western people.

Some of those who went on the excursion from Alberton on Friday were: Mrs. Perley Pridnam, Mrs. George Oliver and Mrs. Russell Platts.—A.

FAMOUS OPERAS WILL BE FILMED

LONDON, Dec. 18—Gilbert and Sullivan operas will, in all probability, be filmed in Hollywood in color.

Negotiations are on foot between the D'Oyly Carte interests, which own the operas, and Radio Pictures A large sum has been offered for the rights by J. Hay Whitney, a young millionaire, who sponsors films which Radio Pictures handle.

For many years Rupert D'Oyly Carte has refused to sell the film rights, partly because of the alterations proposed, and partly on account of possible loss of revenue from the steadily lucrative theatrical tours, which have lasted over 40 years.

Radio Pictures is now anxious to make the operas in the correct tradition. As the chief London company is touring the United States for the first time, it is proposed to utilize the actors and actresses in the screen versions.

The new Technicolor process, an advance on all others, makes their filming in color possible, and this is Mr. Whitney's ambition.

Short silent films of Gilbert and Sullivan were made many years ago, but litigation prevented their exhibition.

Connell was charged with assault and battery and with possession of a gun.

WHEN KINDLY SCOT DEEDED BIRTHDAY

(By The Canadian Press)

OTTAWA, Dec. 18—The Journal says editorially: "A whimsey may make history—the fancy of a moment spread gladness down the years—an impulse idly acted upon have pleasant repercussions long after the one who obeyed it is forgotten.

"The man who gave to children everywhere that tribute to youth, 'The Child's Garden of Verses,' once made an individual present to a little girl. It was of a nature until then unknown—the deed to a day. To make a birthdayless youngster happy he presented her with all right to his own—Nov. 13th—on condition that it be celebrated—each time it dawned—by the wearing of the raiment, eating rich meats, and receiving compliments and gifts.' It not only made its recipient glad—it has caused many an adult to pause for a moment, consider, smile, and understand.

"It was in Samoa way back in the early 90's that the kindly Scotsman recognized a minor tragedy of childhood—that of being born on Dec. 25. Realized that in such a case the rejoicings of the Christmas season must do double duty—that when packages were lifted from a candle-lit tree, or drawn from a bulging Santa-filled stocking the contents had to last 365 days except when Leap Year coming once in four made it longer by giving February one day more. Ever since she received the deed to her new birthday the donee has lived up to the conditions, and having the power of appointment, she is passing on her prized posession to a little girl in England to have and to hold—the occasion to be one of ceremonies and celebrations.

"Robert Louis Stevenson isn't a best seller any more. But people unfamiliar with his books know what he gave to a child having no birthday of her own. As the years march on the donor will still live in many memories because of his kindly act."

"I'm strong for Life Insurance"

"YES, siree, if it weren't for Life Insurance there wouldn't be much of a Christmas in a lot of homes I know," declared Santa Claus in a radio message from his North Pole headquarters.

"Think of the many children who have lost their Daddies," suggested Santa Claus. "Goodness knows, they deserve to have the happiest Christmas possible, but I find it is a mighty hard job to remember them all, year after year.

"Of course, there is always a happy Christmas wherever Dad wisely left some Life Insurance money. Then I am able to make sure that his family get turkey, plum pudding and a tree-full of gifts.

"That's why I'm strong for Life Insurance. It helps to make every Christmas happy for everyone."
