GUARD THOSE YOU LOVE. GIVE TO CONQUER CANCER.

NOTICE
Re
CANCER
Campaign
Contributions

Owing to the unfavourable weather on the final day of the Cancer Campaign it was not possible to canvass some citizens.

Any person who has not been called on, and wishes to contribute, may leave their money with the treasurer of the Cancer Fund, Mr. E. Ford, manager of the Bank of Montreal, or with the City Chairman, Lt.-Col. Leo F. MacDonald, at D.V.A. headquarters.

GUARD THOSE YOU LOVE. GIVE TO CONQUER CANCER.

THE KIRK PULPIT

Preaching yesterday morning, the minister, the Rev. T. H. B. Somers, said: "Then what of our part in the forgiveness that only God can provide in His uttermost pain? There is a needed response on our part. Only God can forgive, yet only we can accept the forgiveness. Here is the gift, and we cannot live without it; but the gift is not ours unless we open hand and heart. The sun is ours—if we lift our eyelids. The sun, all the lights in the sky, is turned to night by our tiny act when we close our eyes. So I plead with you to receive the forgiveness of the Cross. What does that receiving require of us? That we look at the Cross, a Japanese proverb says, 'Forgiving the unrepentant is like drawing pictures on water.' So it is! And we shall still be unrepentant unless we look at the Cross, and keep on looking. This is what 'n' does: it slays Christ."

They weak self-love and gully His Pilate and His Judas were: Jesus, our Lord, is crucified."

"The Cross, if we will keep our eyes fixed on it, will bring penitence. Then God's forgiveness will be written, not in water, but in our deepest soul."

Then our definite act is required—our act of receiving God's mercy. That speaks the broken pride. For we would much rather "work out our own salvation" by vigor of mind, by resolve of will, we would like to prove ourselves. If we could! But we must come as children, as selfish children, as blood-stained children, as broken children at last, to the Father Who has gathered all our miseries into His eternal Heart. Have you ever really accepted God's grace?

"A broken heart, a fount of tears, Ask, and they will not be denied. A broken heart love's cradle is: Jesus, our Lord, is crucified!"

"Be it known unto you therefore, men and brethren, that through this Man is preached unto you the forgiveness of sins. You have looked on the Cross, and are penitent. Now open your hand and heart—with broken pride. "He that humbly himself shall be lifted up" by God's grace. Live now for Him, with but one motto in all your living, and but one power: "For His sake, Who loved me, and gave Himself for me."

Refutes Charge Re Moonshining In Summerside

Mr. Morley M. Bell

Charges that moonshining activities persisted in Summerside despite the amendment to the Prohibition Act were refuted in the Legislature on April 24 by Mr. Morley M. Bell, Liberal, Fifth District of Prince, in speaking in the Budget debate.

Mr. Bell said he emphatically denied this charge so far as Summerside was concerned. Last Monday he discussed it with the Mounted Police of Summerside, and they told him that moonshining had been practically eliminated. "I know from my own observation that this is the case in Summerside," he added. "Up to a few years ago moonshining was rampant and this condition applied throughout the whole County."

"I do not for a moment contend that the Act is everything that could be hoped for. At the same time I do not think that anyone in this Province would want to go back to the situation that prevailed previous to this amendment. I trust therefore that the Government and successive Governments will continue to make necessary amendments from time to time to improve the situation."

Compares Liquor Sales

"Some members of the Opposition charged the Government was making too many sales. The estimated sales for the past year amounted to \$1,700,000. That is for an eleven-month period, which would be about \$1,500,000 for the twelve months. If you will compare that with the liquor bill for the whole of Canada, you will see that it is very much below the average. It was about \$460,000,000 last year. On our basis of population, which is 1/85th of Canada, our total liquor sales would amount to approximately \$3,500,000. As a matter of fact it was less than two million dollars, which is just approximately half the average for the whole of Canada. So I think our record is very good in that connection."

"Some one suggested that the sales will be higher next year. I do not think so. Every Province is estimating for a decrease of approximately 10 per cent in liquor profits next year, and we will likely share in the decline along with the rest of Canada."

In reforestation, he noted, the Premier had announced that some work was being done; but Mr. Bell did not think this was sufficient. A regular system should be adopted for the whole of the Island, and for this purpose the Province should acquire a considerable amount of land. He illustrated the successful growing of walnut trees in Ontario as an example of what can be done through well-directed Government policies.

Complimentary

Mr. Bell sympathized with the Premier in the hard work of preparing the Government's submission of fiscal claims at Ottawa and complimented him on his achievements as a farmer and breeder. He also complimented the leader and members of the Opposition on performing their duty well.

When the people become aware of the implications of the tax agreement they will recognize it as very far-reaching, he said. Although all the proposals have not been adopted, there was no doubt that the financial needs of the Province were emphasized throughout the negotiations.

Mr. Bell cited the official report in this connection. Fiscal need, he said, continues to be the predominant factor at the present time. He quoted a resolution by the City Council referring to the agreement as having been "most satisfactorily arranged" and expressing thanks to the Government for increased grants. He quoted divergent views on the agreement from the Halifax press.

The leader of the Opposition had referred to a debt of \$44,000,000 in Saskatchewan being wiped off by the Dominion Government, but this had accrued over nine years of disastrous drought, for which the people of Saskatchewan were not responsible.

With regard to failure to rebate the 3 cents gasoline tax, Mr. Bell said he did not think it could be contended that our farmers and fishermen do not use the roads. Every person should bear a fair share of the costs of road maintenance. At present the farmer and fisherman receives a rebate on the 10 cents tax.

More emphasis, Mr. Bell believed, should be placed on manufacturing production within the Province. Last year this production amounted to \$10,713,000, with Charlottetown producing \$4,067,000 and Summerside \$1,800,000.

He was pleased to note that the estimates for the Department of

Scene of Queenston Heights in 1897 (from John Ross Robertson collection)—that's when Grape Nuts was born!

50 years of Breakfast Enjoyment

MILLIONS OF PEOPLE, over the last 50 years, have enjoyed their breakfasts more, because of Grape-Nuts. That malty, nut-sweet flavor in every crunchy, golden kernel is so good!

And Grape-Nuts are so good for you. The fine food values of two grains—not just one. And the digestibility that comes from double-baking. Have you had Grape-Nuts lately? Get some from your grocer. Remember, there are 14 to 16 servings in the new red-white-and-blue Grape-Nuts package. Compare that with other cereals.

Post's Registered Trade-Mark

A Product of General Foods

Agriculture have been greatly increased, and hoped the Department would take advantage of it and spend the greater part. Some basis should be worked out whereby a certain percentage should be paid out to each of the producing parts of the Province.

At least 5 percent of the total income of the Province should be spent on agriculture, Mr. Bell believed. That would bring the total expenditure in this department to \$250,000.

The tourist industry could be developed to be equal to if not greater than agriculture. The estimated expenditure is only approximately \$25,000. In addition, however, a certain amount is to be appropriated for the financing of tourist accommodations. That was a step in the right direction, but the amount is too small, Mr. Bell said. "I still maintain that the Government should not only invest and loan a certain amount of money, but they should spend a great deal in promoting this industry."

He suggested that the Minister should acquire the land adjacent to the hotel, for parking space, toilet accommodation, etc. This would encourage private capital and people would go to these resorts in increasing numbers. Nova Scotia has established a revolving fund such as this Government is setting up, and is increasing the fund this year.

Mr. Bell commended the increase in teachers' salaries as an encouragement to education, which he said has been fifty years behind the times in this Province. In California, the people voted to tax themselves an additional fifty million dollars for teachers' salary increases.

When the higher grades are brought together from different sections into the proposed regional high schools, there will be more competition, Mr. Bell predicted. He cited his own experience twenty years ago in Truro, where for a few years there was a consolidated school which proved very beneficial.

He agreed with the leader of the Opposition that hospital grants are not high enough; nevertheless the increase as this year would be welcomed. He thanked the Government for the grant to the Prince County Hospital, and for the \$100 per capita grant for municipal purposes.

He commended the activities in soil analysis, but suggested the survey should go further to de-

termine whether or not the soil is adapted to raising other crops successfully in this Province.

Reverting to the tourist business, he suggested that this Government urge the Dominion Government to allow double depreciation on new tourist accommodation.

He had no doubt that this Province would share with Canada in the development that will take place in future years, and that it will come into its own as one of the finest Provinces in the Dominion.

THE BAPTIST CHURCH

Dr. A. D. MacKenzie conducted the service of Morning Worship at the Charlottetown Baptist Church Sunday with sermon "The Body of Christ." In the epistle to the Ephesians are the words "and hath put all things under his feet and gave him to be head over all things to the church which is his body." Parting from his disciples Jesus left the assurance: "Lo I am with you always." For thirty-three years he was present in human body, the self expression of the spirit. The church which is his body is the medium through which his spirit finds expression. As he went about doing good the spirit was the motor and the body was essential. "Lord save us, we perish," cried the disciples, they were rescued by the body motivated by the spirit.

In the body he suffered on the cross, he was able to enter into the suffering of men because of the body. It is the part of the Church, which is his body, to go on in the work which he began but not bound by the limits of one body, one place. Through the church he brings new eyes, sharper senses of perception, wider range of vision and to the church Christ says, "Give Ye Them To Eat." Through the ages the church, his body has ministered, served, suffered to answer the tragic needs of the world and in this mission sustained by his presence, "Lo I am with you always." In this Communion service today we say "He comes to me, he who gave Himself on the cross, His blood poured out for man, "come," says Jesus, "to me today in the bread and wine."

Let us, in our own lives make in the body a richer contribution to His purpose, accept a deeper consecration to his cause. The Communion of the Lord's Supper was

observed at this service. The morning anthem was "Near to the Heart of God" (MacAfee), with solo taken by Mrs. Treaby. Dr. MacKenzie's sermon at Evening Worship was "Finding a Pearl." The evening anthem Turner's "Sun of My Soul."

The flowers on the communion table were placed in memory of Lemuel Burns, by his parents, Mr. and Mrs. Athol Burns.

The music of the day was in charge of Miss Helen Stewart. A. T. C. M., organist and director of choir.

MT. HERBERT Y. P. U.

Mr. Herbert Y.P.U. held their closing meeting of the season Tuesday evening, April 29th at the Protestant Orphanage. The meeting opened with the business period conducted by the president, Winston Wood. A great many matters were discussed. It was decided to hold National Night Programme as a church service on May 18th, rehearsal the Friday night preceding. It is hoped that at least one member be sent as delegate to Maritime Conference at Sackville, N. B., in July. Another item was that one meeting a month be held from May-September until regular meetings in the fall, outdoor activities, special recreation evenings to be planned by the executive.

Ralph Raynor, Fellowship Convener led the worship and meditation. The hymns sung were request favorites of the group and Carl Hamm read Psalm 46. A very amusing games period was directed by Miriam Raynor and Doreen MacLure. The meeting closed with the benediction pronounced by our minister, Rev. E. R. MacVicar.

Output Of Refined Petroleum Products Up

OTTAWA, May 4 (CP)—Continuing previous advances, Canada's output of refined petroleum products during February totalled 4,812,402 barrels compared with 4,006,161 barrels in February last year, the Dominion Bureau of Statistics reported today.

Total gain over last year's figure was due mainly to substantial increases in production of motor gasoline, light fuel oil, kerosene and stove oil, which were partly offset by declines in heavy fuel oil, aviation gasoline, tractor distillate and naphtha specialties.

ACID INDIGESTION at the Lunch Counter...

TWO RENNIES give instant aid

You never know when you may get an attack of acid indigestion. It comes at the most awkward times—at the lunch counter for instance; but you can have quick, comforting relief if you carry a few RENNIES in your vest pocket or handbag.

Digestif RENNIES are pleasant-tasting tablets. You dissolve them in your mouth like candies. Their soothing antacid ingredients mingle with the saliva of your mouth and drip gently into your stomach, thus starting at once to help neutralise excess acid and helping to relieve the miserable feelings of acid indigestion, upset stomach and heartburn.

Each RENNIES tablet is individually wrapped in hygienic waxed paper. Carry a few in your pocket or handbag. Easy to take—anytime, anywhere. At all Drug Stores—25c and 75c. If RENNIES don't relieve your indigestion, it's high time you saw your doctor.

DIGESTIF

RENNIES Easy to take... anytime, anywhere

Toronto Has New Morning Newspaper

TORONTO, May 4 (CP) — Toronto's new morning newspaper, The Daily Tribune, came out Friday with its first issue. Publication was scheduled to start May 1, but press trouble brought about

a one-day delay. The paper was formerly a weekly, the Canadian Tribune.

LONDON (CP) — Londoners left 277,000 articles in buses and subway trains last year 34,000 umbrellas, 8,000 bunches of keys, 51,000 pairs of gloves and 20,000 single gloves.

Bracken Has No Plans if Neepawa Eliminated

OTTAWA, May 4 (CP) — John Bracken, Progressive Conservative leader, said in an interview today he has no definite plans as to what he will do if his constituency in Manitoba is eliminated under a redistribution bill that will come before the Commons later this session.

A Manitoba sub-committee in a preliminary report recommended that the existing constituencies of Neepawa and Portage la Prairie be joined into one riding and that the MacDonald seat be joined with Lisgar. A new seat would be created in the city of Winnipeg.

Under the redistribution, which will increase Commons representation from 246 to 255, Manitoba will lose one of its 17 seats.

In a small mortuary in Texas City, Tex., bodies wrapped in blankets are placed atop wooden boxes and tagged for possible identification. The grim work of identification of the 650 or more dead from the chemical plant explosion is one of the authorities' principal problems.

DOROTHY DIX SAYS—

(Continued from Page 2)

With one, You certainly must be devoid not only of all conscience, but of all sense of decency if you find amusement in traducing innocent people.

If you have not the strength of character to stop it, you will be justified in cutting off your tongue if it is the only way you can break what you call a "bad habit."

DEAR MISS DIX: We are four girls who would like you to settle an argument between us about this question: Are all men the same, or are there exceptions to every rule?
FOUR WORKING GIRLS.

ANSWER: Your own observation should have taught you that men differ from each other as the stars differ in glory. No two men in the world are every exactly alike in looks, character and disposition, and when a woman marries one she never knows what she is getting.

Architect's sketch of proposed International Aviation Building on the site of the Central Station, Canadian National Railways, Montreal. The elevation is from the new University Street side.
