GERMAN MENACE AGAIN ALARMING

Mr. Balfour Declares the Danger Great. Says the Struggle With Germany is Inevitable. Everything Depends on a Strong Navy.

Special to The Guardian. LONDON, January 5—The German menace is again the dominant note politically. Mr Balfour's serious charges are the talk of the nation. At Hanley the former Prime Minister declared on diplomatic authority that the experiences of the past four years had convinced the Germans that the day was quickly approaching when the British Empire would go down before them. He charged the Ministers with keeping the nation in the dark about the astonishing acceleration of German ship-building. "They know it. They have told us nothing. They took no steps to remedy it.

"Our naval supremacy in our own seas, is threatened within the near future. "Everything depends upon the navy. We exist only on sufferance unless the navy is supreme. "Consult statesmen, diplomatists and the lesser powers. "You will find absolute unanimity of opinion that the struggle between this country and Germany is inevitable. "It is their opinion we are predestined to succumb in some great contest, the occasion for which nobody can foresee, to the country which is alive to its responsibility, which talks little and does much. "Remember, absolutely the only way to secure peace is that you be sure of victory if war takes place.

NO NEW PEERS MADE THIS TIME

LONDON, Jan 4—Contrary to custom no list of political honors will mark the coming of the new year. It was expected that the Premier would have raised to the peerage some of his staunch supporters. In view, however, of the present attitude of the radicals toward the Upper House it is considered that it would be inconsistent to add to its number.

ANOTHER VICTIM FOR YOUNG VILLIAN

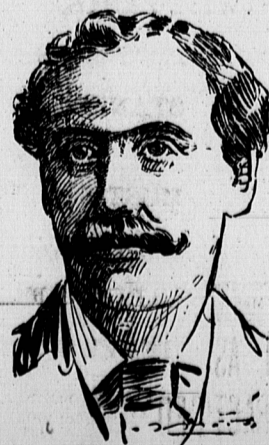

WESTCHESTER, Pa, Jan 4—John W. Babb, a special policeman, was shot and instantly killed today by Jos Carnathan, aged 16, whom he tried to arrest. The boy escaped from the House of Refuge, to which he had been committed on a charge of attempting to kill his parents by putting ground glass into their food.

ACCUSES GOVERNMENT OF NEGLIGENCE.

LONDON, Jan 5—At Hanwell, yesterday, Mr Balfour accused the government of neglecting the Navy and added some remarkable utterances in connection with the British relations with Germany. He said that when the Unionists retired four years ago, they left the next Government with an overwhelming strength in battleships and ample naval stores. The government had since been living on these, and the position is now altogether different.

SEVENTY-SIX IN PERIL AT SEA

Sixteen Fishing Boats Blown Off Shore. Crew May Have Perished

Special to The Guardian. HALIFAX, January 5—Despatches from Canso, state that sixteen boats with 76 fishermen are missing from Canso. They were fishing yesterday when a blizzard struck. They were blown off shore and are now on the sea in open boats with the mercury below zero. It is not believed they could make any harbor. The Dominion Government is sending steamers to search for the missing boats, one leaving Canso and another Halifax. The men were haddock fishing. The night was one of the coldest in years and the gravest fears are entertained for them. They could not live another night in such weather.

SCORE HURT IN TENEMENT FIRE

NEW YORK, Jan 4—More than a score of persons were injured, five of them possibly fatally, in a fire which swept a big double tenement on Belmont avenue, East New York, today. Six of the injured were firemen who were overcome by smoke and were hurt in making daring rescues of imperilled people in the blazing structure. Some of the dwellers escaped to the adjoining buildings, but when the firemen reached the scene the fire-capes and the upper windows were crowded with panic-stricken people threatening to jump. All were rescued by ladders except one woman who jumped from a second-story window and was badly injured. In one room a family of five foreigners was found unconscious. Firemen penetrated the burning room and carried them to the fire escape and down the ladders. All five of the injured persons are in a hospital in a serious condition. Three of the firemen fell unconscious when they reached the street with their burdens. Three other firemen were overcome after rescuing imperilled tenants from the roof and upper stories. A dozen persons were taken to hospitals, suffering from smoke inhalation and burns.

P. E. I. POULTRY SHOW OPENED

A Splendid Display of Fowls in the Y. M. C. A. Hall Yesterday. The Entry List is Bigger Than Previous Year. Formal Opening Last Night.

Yesterday afternoon in the Y. M. C. A. the P. E. Island Poultry Association opened its second annual show of poultry and pet stock. The entry list was much better than in the first show and this shows that the interest of exhibitors has been aroused to a much greater extent than heretofore. Owing to the storm of the two preceding days quite a number of fowls entered did not reach the city in time for exhibition yesterday. These are expected today however. A number of those interested in the prize-winning qualities of Provincial poultry gathered together last night in the Y. M. C. A. Hall on the occasion of the formal opening of the Second Annual Winter Show of the Association.

On the platform were Lieut-Governor MacKinnon, Premier Hazard, Hon John Richards, Commissioner of Agriculture and L. H. D. Foster, a Director of the Association. Mr Foster, who occupied the chair in the course of a few introductory remarks first called on Lieut Governor MacKinnon. His Honor congratulated the Association on the large number of entries, on the perceptible improvement in the quality of these over last year's show and on the success of the Association in working up the interest in poultry matters to such an extent as they did, and in such a short time. He quoted an instance of the remarkable development of the poultry industry in the United States, the fact that in recent years the money value of all eggs marketed exceeded the value of their gold and silver mines.

His Honor pointed out that the value of eggs in this province at the last census was estimated to have been about \$325,000, when that of dressed poultry is added, the total is estimated at least to be \$500,000—this exceeding the value of either the cheese or butter industries. In this connection, it was pointed out by His Honor that the poultry industry could be made to reach one million dollars. It would in His Honor's opinion, be a decided advantage to the poultry industry to have farmers schools established throughout the Island, also to have a series of lectures or addresses delivered before the farmers by one well acquainted with the subject. His Honor closed his address by stating that the Poultry Association merited the greatest support and sympathy in their good work, and expressed the wish that this show might have all the success it deserved. Premier Hazard was next called upon. He referred to the fact that Mr Gilbert of Ottawa would be present today and would doubtless impart much useful information concerning the poultry industry and its possibilities. He believed that it would be a decided advantage to the Association if it would refrain from exhibiting at the County Exhibitions and reserve all the funds for one great show to be held in the fall, when the poultry was in the best condition. Mr Hazard heartily commended the efforts of the Association to stimulate interest in poultry matters generally. Hon John Richards, Commissioner of Agriculture, on being called upon wished to add his word of praise to the good work of the Poultry Association, and on the excellence of the display of birds submitted for the spectators' inspection and admiration. He emphasized the necessity for cleanliness and ventilation in the housing of poultry. He believed that nothing would raise the quality and standard of Provincial poultry more surely than the frequent shows such as the Association is promoting. The show will be continued today when progress will be made in judging the exhibits and placing the

FRIENDSHIP

A blessed thing it is for any man or woman to have a friend; one human soul we can trust utterly, who knows the best and worst of us, and loves us in spite of our faults; who will speak the honest truth to us while the world flatters us to our face and laughs at us behind our back, who will give us counsel and reproof in the day of prosperity and encourage us in the day of difficulty and sorrow, when the world leaves us to fight our battles as we can.—C. Kingsley.
There are individuals whose very presence is a benediction. There is that about them which inspires fresh courage and new hope in many a disheartened soul. The atmosphere they bring is that of faith and spiritual uplift. To be one of these faith-inspirers is the greatest blessing of life. O the comfort, the inexpressible comfort, of feeling safe with a person, having neither to weigh thoughts nor measure words, but pour them right out, chaff and grain together, knowing that a faithful hand will take and sift them, keep what is worth keeping, and then with the breath of kindness blow the rest away.
