RUSSIANS FEAR JAPAN WILL VIOLATE PLEDGE NEUTRALITY

Agents Say There is Every Indication of a Landing Being Effected on Chinese Side Gulf of Liao Tung—Would Have Bad Consequences for Other Powers.

St. Petersburg, March 21.—Although slow to believe that Japan deliberately contemplates a violation of her pledge to respect neutral Chinese territory, the reports received at the ministry of war are so specific that they compel consideration. The presence of disguised Japanese soldiers acting as spies along the Shan-Kwan road has been established and Russian agents say that there is every indication of an intended landing on the west coast of the gulf of Liao Tung. The information conveyed by these agents seems to coincide with other information indicating a complete change in the Japanese plan of campaign, or of entrance into a second stage practically involving the abandonment of further heavy landing of troops in Korea.

According to advices received by the government there are only about 70,000 Japanese troops in Korea at present. It is considered possible that the Japanese reckoned on a complete mobilization there much sooner, but that the difficulties met with in transporting troops from Japan and over the roads in Korea proved more serious than expected, and that the Japanese found themselves unable to deliver a frontal attack in Manchuria before the Russian troops arrived in sufficient force to check them. At any rate the latest advices indicate that the Japanese will not send many more soldiers into Korea. They may make a diversion at Possit Bay in the direction of Vladivostok, but their main objective henceforth will be in the gulf of Liao Tung. If the information received is correct, the Japanese have discovered that landing on the peninsula is too hard a nut to crack and have elected to land on the Chinese side, where there will be no army to repel them. The only two points feasible for landing are Chin Wan Tao and Tien Kau Cheng, which are connected by rail, respectively, with Chan-Kwan and Kau Kiau on the Pekin railroad. A landing at either place would give the Japanese possession of a splendid strategic line by which to strike the Russian flank and if desired, to hold Pekin in subjection. The Russians have little faith in the Chinese generals Ma and Mu, who might disregard orders from Pekin and join forces with the Japanese. The Russian military authorities have felt themselves compelled to consider the foregoing possibility and to take the necessary precautions. The international complications which might arise out of a Japanese landing on neutral Chinese territory, have also received careful consideration, for although it is specifically declared that it is not believed Japan would dare to violate the agreement made in response to Secretary Hay's note, as well as in Japan's other public professions, there is reason to affirm that the Russian line of conduct in such a contingency has already been decided upon principle. The assurances obtained from Pekin require that the Chinese authorities should oppose with their army such a step on the part of the Japanese.

A high Russian official said to the Associated Press: "It would have worse consequences for other powers than Russia if Japan should enter neutral territory, for such a step would be obviously for the purpose of inviting China into the fight. If Japan could be successful in this there would be an uprising against foreigners which would be tenfold greater than the Boxer affair. The mere possibility is pregnant with all sorts of dangers, but we can hardly believe that Japan will venture to violate the neutrality of China as she did that of Korea." It is learned that the Russian military attaché at Pekin is now at Newchwang watching the movements of the Chinese troops.

The Cough is Your Warning

That the Lungs are in danger—Guard Them by Using Dr. Chase's Syrup of Linseed and Turpentine.

The usual course of a cold is from head to throat and thence along the bronchial tubes to the lungs.

FISHING AND GAME LAWS OF P. E. ISLAND.

The Dominion and Provincial Parliaments have passed laws to prevent the wanton destruction of fish and game, and for the establishment of close seasons.

The Dominion Trout-Fishing regulations are as follows:—

"In the Provinces of Nova Scotia, New Brunswick and Prince Edward Island, no one shall fish for, catch, kill, buy, sell or possess any speckled trout, salmon trout, gray trout, white trout, lake trout, winnash, toad, land-locked salmon, or any other kind of trout from the first day of October to the 31st day of March in each year, both days inclusive."

There are no other Government restrictions, but on some streams parties hold fishing leases. Further information can be obtained from the resident Fishery Officers.

An Act passed by the Provincial Legislature in 1870 for the protection of game and fur-bearing animals, together with an amendment in 1898, provides as follows:—

"None of the birds or animals hereinafter mentioned shall be taken or killed or attempted to be taken or killed within the periods hereinafter mentioned: 1. Partridge between the 1st day of December and the 1st day of October. 2. Woodcock and Snipe between the 1st day of January and the 20th day of August. 3. Water fowl which are known as wild duck between the 1st day of March and the 10th day of September. 4. Hares or rabbits between the 1st day of March and the 1st day of September. 5. Muskrat, martin or other between the 1st day of May and the 1st day of November." The same shall not be had in possession or offered for sale during the periods in which they are so protected. No eggs shall be had in possession nor shall wood-cock be killed before sunrise or after sunset. The penalty for breaches of the Act is a fine not exceeding \$25 nor less than \$5 for each bird, animal or egg.

An Act to protect wild fowl, passed in 1884, prohibits the killing of any kind of wild fowl between sunset and sunrise, and the penalty for infraction of the same is \$50.

WAS IN A CRITICAL CONDITION.

System was Run Down.

FELT DROWSY AND MISERABLE.

Burdock Blood Bitters

BUILT UP THE SYSTEM AND ADDED TEN POUNDS IN WEIGHT.

Mr. Ed. J. Harris, Newbridge, Ont., in poor health, but has now become core to full health and vigor. Here is what he writes us: "Last spring I was in a very critical condition, my system was run down. I felt drowsy and miserable, and thought I would surely die if I did not get something to build me up. After reading one of your almanacs I decided to try Burdock Blood Bitters, and before I had taken two bottles I had gained ten pounds in weight, and am now in perfect health, and I can certainly recommend Burdock Blood Bitters to build up the system."
