

WILLIE WESTINGHOUSE TEACHES THE MINISTER TO SWIM

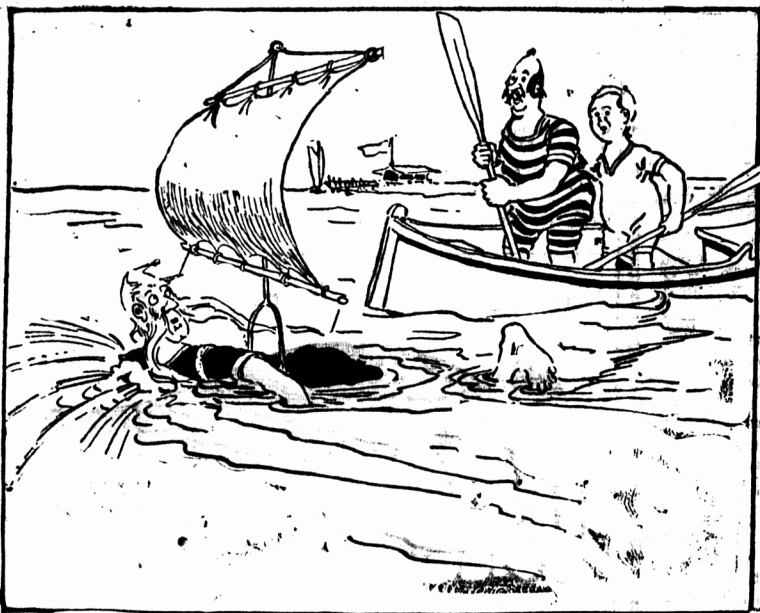

Dear Tommy: This is a device I invented to teach Papa to swim. You are wafted along the surface of the water and learn to strike out.

Papa, the Minister and I went out into the bay to try it.

Papa got along so nicely that the Minister wanted to try it.

By that time the wind had freshened, and there was trouble.

The Minister was blown along so fast we couldn't catch him.

He was rescued by a tugboat, but Papa got awfully angry about it.
Yours, Willie.
