

THURSDAY

ISLANDER DEAD.—Mr. S. Hall Clark of Summerside received a telegram from Cleveland Monday evening announcing the death, which occurred suddenly that day, of his brother, Mr. J. B. L. Clark. Mr. Clark was well known in Summerside and the news of his death will be received with deepest regret by his many friends here. Messrs. S. H. Clark, Summerside, and J. W. Clark, Linkletter, are brothers.—Journal.

L. O. L. SUPPER.—The Orange Supper which was held in Wood Island Orange Hall, January 28th was a decided success. Although the night was stormy there was a full attendance among the Orangemen. The supper came about twelve o'clock. Mr. Cook's best while, while the young folks whiled away the time in dancing. Messrs. MacDonald and MacPhee being the violinists. The Orangemen of the Lodge are to be congratulated on the way they have fixed their hall also for the nice time provided on their first anniversary.

TRAINOR—BURKE WEDDING.—A St. John Exchange says a very pretty wedding was solemnized Monday morning, Jan. 26th, when Rev. Edward Scully, C. S. R., who was celebrated in Nantuxet, Mass., united in marriage, Miss Catherine Myrtle Burke, and Mr. Patrick Albert Trainor, both of this city. Mr. and Mrs. Fred Buckley acted as witnesses. The bride wore a very becoming suit of brown with sea furs and carried a pearl rosary. Following the ceremony a wedding breakfast was served to the invited guests at the home of the bride's aunt, Mrs. T. Reid, 161 Bridge St., Mr. and Mrs. Trainor were the recipients of a large number of beautiful presents including cheques, silver, etc. They will reside at 17 Clarendon Street, City, where they will be at home to their friends after Feb. 2nd.—Mrs. Trainor formerly belonged to Hope River. P. E. I., where her many friends wish her and her husband many, many years of wedded bliss.

KEEPING FOXES ON P. E. I.—The last issue of the Black Fox Magazine, New York contains the following: We are advised that some few ranchers on P. E. Island believe that it is a mistake to allow their breeding foxes to leave the island. They are talking about placing an embargo on the shipment of live animals to the United States. We are glad to know that only a limited number of American ranchers are back of this movement, because we feel convinced that if such an action was taken the Islanders themselves and the industry there would in the end be the better for it. The principal things that have made the industry on P. E. Island as good as it is today has been the spread of it through the United States. It has been the American demand for foxes that has caused the industry on the Island. We are advised that anything is done to check this on the sale of pelts a great amount of money will be lost to the Island ranchers. It is too late now to keep the industry confined to the Island, as thousands of foxes from the best Island strains are on American ranches. As it is, it will only be a few years at most before these present American ranchers will be keen competitors of the Island. From our way of looking at it, instead of trying to do anything to restrict or retard the business in selling foxes to Americans, the Island ranchers should be on the lookout to prevent such a thing occurring. We believe a great mistake would be made if any embargo was placed on the sale of breeding foxes from P. E. Island to any other country. In fact, nothing should be done in any way to check the spread of the industry in any part of the world.

PAINFUL ACCIDENT.—Mr. T. F. Croken of Kinkora had the misfortune of having his leg badly sprained by catching his foot in a moving belt last Monday while working in the factory of A. Mounaghan & Son, Kinkora.

LEBLANC—RICHARD.—Rev. A. P. Allen, acting rector, married Camille LeBlanc and Marie Richard at the Cathedral this morning, at 7 o'clock, and also celebrated the Mass. The groom hails from Prince Edward Island and the bride is a former resident of Richibucto Village, Geo. LeBlanc and Madeline Scardia were the witnesses.—St. John Globe, 2nd.

DIGGING MUSSEL MUD.—It is expected that the work of mussel mud raising which had been suspended during the cold weather of the last few weeks will again be resumed in a few days. Many orders for car loads of mud are being placed with the request that they be held until weather conditions are more favorable for unloading it off the cars. Several diggers are being fitted up and will likely be placed ready for work within a short time.—ii.

DEATH REGRETTED.—The death of Mr. George Robertson, which occurred Tuesday night at his residence in Montague. He had reached the age of 85 years. The funeral service will be held at the house at seven o'clock Thursday evening and the remains will leave the following morning by train to Midlet station. Mr. Robertson was a native of P. E. I. and was a member of the St. Paul's R.C. Church of Marshfield.

SCHOOL WORK.—Report of Primary Department of Murray Harbor School for month of January. Grade IV—1, Thelma Penny; Grade III—3, John Brooks, Cecil Beck; 3, Lorne Stewart; Grade II—1, Ernest Weeks; 2, Simon Stewart; 3, Roland McPherson; Grade I Sr.—1, Ross White; 2, Elmer Brehaut; 3, Cyrene Chapman and Gertha White, equal. Grade Jr.—1, Roy Bell. Perfect attendance for half-year—Thelma Penny and Roy Bell. Grade IV had special examinations for reading to Principal's department. Thelma Penny making an average of 88. Pearl Weeks, 87. John Brooks, 82. Inman Herring, 76. Lulu Beck, 56. Cecil Dunn 50.

Something unique in the history of Charlottetown was the exhibition of Prince Edward Island War Memorials which was opened to the public on the main floor of the market building yesterday afternoon. The exhibit comprises a collection of 178 decidedly fine actual photographs of scenes in war scarred France—photos in every instance of the very ground in which the brave lads from Prince Edward Island fought and died.

The "Memorials" cover every phase of the war in which this Province was represented from the time of the sailing of the S. S. Cacouca with the first P. E. I. Artillery unit for garrison duty in Canada and Sydney the day after the war was declared, right up to the time of the entry of our victorious soldiers into Germany.

It is an altogether wonderful collection of photographs, many of them beautifully colored and works that will stand as historical gems of the greatest conflict the world has ever seen.

The memorials include splendid portraits of all the local units who went overseas and nobody should miss seeing them.

A descriptive catalogue of the entire collection of 178 pictures is furnished on receipt of 15 cents to all who attend.

Last evening the League of the Cross Band was present at the exhibition and furnished an excellent

programme of appropriate music for the occasion which was greatly enjoyed by the audience.

The last showing of this wonderful collection in Charlottetown will be made today, the exhibit closing at 6 p. m.

The collection will be shown all through the province from Tignish to Souris and everyone interested in the places where our boys covered themselves with glory should make it a point to see these splendid views.

The case of McLean vs. Leonard an action for trespass, came up before Chief Justice Matheson and Mr. Justice Hazard in the Supreme Court yesterday.

Mr. Donald McKinnon appeared for the plaintiff and Mr. J. J. Johnson K.C. for the defendant.

This case was tried before Mr. Justice Fitzgerald last Trinity Term when a verdict was given for the defendant.

The counsel for the plaintiff applied for a new trial.

Quite a number of arguments were put forth by both counsels after which the court adjourned until 11 o'clock today.

ACTION AGAINST THE CITY.—As reported in yesterday's Guardian the jury in the case of Louise C. Longworth vs. City of Charlottetown in respect of the destruction of trees on her property, gave a verdict for the defendant, in charging the jury at the conclusion of the hearing the Chief Justice set forth the grounds on which action had been brought stating that the plaintiff was not suing on account of justifiable acts on the part of the city, but for acting in excess of what was justifiable. His Lordship then cited the law bearing on this case as found in an act incorporating the City of Charlottetown. According to this act the City Council was given certain duties and the City Council had the exclusive power to prevent encroachment of the streets in any matter which they deemed necessary.

In reviewing the evidence of the plaintiff's witnesses His Lordship stated that they claimed that two of the trees on the Longworth property had been damaged but actual proof was confined to one tree, one large branch of which had been severed a short distance from the stem. There were two forks on this branch one of them extending from the Longworth property over the highway a distance of 19 feet. The jury would have to determine whether this was an obstruction or not. If they came to the conclusion that there was an obstruction according to the statute the city would be liable in removing it at the same time doing no more damage than was absolutely necessary in the performance of that act. Reference was then made to the evidence of Mr. George Tweedy and Mr. A. B. Warburton and other reputable officers who declared that in their opinion there was no obstruction as they had been passing there daily. On the other hand, Mr. P. A. Smith said that he was driving along the road his horse shied at a motor car and when he had to turn aside the tree knocked his hat off and occasioned other inconvenience. Mr. Ellis said that on several occasions when he was driving past he found the tree an obstruction. On one occasion it was loaded down with snow and he was unable to drive under it and had to pass around it. The City Surveyor is of the opinion that it is to be seen that the streets and roads are kept free from obstructions and it was his duty to have it cut even in a line with the boundary of the road not an inch inside that boundary. Assuming, said His Lordship, that it was an obstruction (this will depend on the finding of the jury) and the tree was cut the defendant was not responsible but it appears that the branch was cut not at the boundary line but some distance within.

Mr. John Hawkins, the city employee, who cut it said he sawed it piece by piece but that the end of it spaled and he went further and cut off the tree close to the trunk. He had no legal authority for this. The jury had to consider what if any was the extent of the damage caused by that act. They must take as a basis not the condition of the tree before any cutting was done but after the latter had been lopped off at the proper place. It was also stated in the evidence that there was one large branch about 25 feet long almost perpendicular but it was dead and kept from falling by interlocking with other branches. When anything is a menace, the city can remove it but the law states that the owner must first be notified unless the danger is imminent when it is a matter of emergency and it can be immediately removed. It will be for the jury to determine whether this is an emergency case. With regard to the branches which were taken away by the defendant and dumped in the city dump the jury must consider what value if any, they attached to these.

Minard's Liniment cures diphtheria

PUBLIC SHOULD TAKE EVERY PRECAUTION TO GUARD AGAINST "FLU"

Reports Show That Influenza Epidemic Is Gaining Headway In Many Sections of the Country.

KEEP SYSTEM IN BEST POSSIBLE CONDITION

Persons Weak and Run-down Are Earliest Victims. Fortify Against Attack By Taking Tonic.

According to late press reports issued by state and city health authorities, influenza is again becoming epidemic in many sections, and some alarm is now felt that it may become general over the entire country.

Owing to the lateness of the season it is not thought possible that the disease can become the great and terrifying scourge that it was last year, when it swept the entire country and claimed its victims by the hundreds of thousands.

Medical authorities agree that people who are weak and run-down are the earliest victims of influenza. If you find yourself tired (and nervous), weak, and losing flesh, or if you are in a generally run-down condition or catch cold easily, this warning should be heeded promptly. You are really in danger if exposed to the disease, because it is generally believed to be very contagious, and you are apt to fall an easy victim if you come in contact with the germs.

FRIDAY CREW LEAVE FOR HOME.—Captain Sears and the crew of the S. S. Canadian Sealer came in from Souris yesterday and left for their homes in Montreal and other parts of Canada.

BACK FROM HALIFAX.—Mr. J. H. Skinner the newly appointed jailer of King's County Jail, Georgetown, arrived in Charlottetown on Wednesday night from Halifax where he had been receiving treatment in the Military Hospital. Mr. Skinner is a returned soldier.

CAR FERRY.—The car ferry steamer made trips as follows yesterday: Left Borden at 9:02, arrived Tormentine at 10:06; left Borden 12:55, arrived Tormentine at 3:12; left at 3:13 arrived Borden at 4:30. The mail train arrived in Charlottetown at 7:30 p. m.

THE WAR MEMORIALS.—The War Memorials attracted quite a large number to the market building yesterday where the splendid pictures were viewed with a great deal of interest. The exhibit was brought to a close last evening at 6 o'clock. Many people have expressed the hope that the memorials will again be placed on view in the city as a great number were unable to find the necessary time to attend the exhibition. In presenting this unique collection of War Memorials in photographic form to the people of Prince Edward Island, the promoter endeavored, as far as possible, to fully cover the ground of the portions in which our people are most directly interested. All, or about all, of the units, Batteries, and Contingents that enlisted in the Province of Prince Edward Island, and left for overseas service, were presented.

In this connection were shown many of the towns and villages and other areas in Flanders and France, in which our soldiers were either engaged in battle, stopped or passed through. The destruction caused by the ravages and devastations of the awful Hun; places of historic interest and widespread fame were given in this collection. These places and scenes are all familiar to the boys of Prince Edward Island, who have seen active service at the front.

The collection was the greatest and most complete of the Island's part in the Great War that has ever been given to our people in pictorial form. Thus in this collection was presented to the people of this Province a pictorial history of the part taken by the Island boys in the great conflict and although the descriptive matter was necessarily short, the pictures themselves tell the story through the eye better perhaps than it could be told through the pen.

Mr. Stewart also our teacher, Miss McDonald of Charlottetown is very gratifying as those people all make excellent citizens.

Mr. Jas. H. Douglass of Stanhope and Mrs. Elisha Coffin now of Mt. Stewart recently spent some time visiting old friends in Savage, the steward of the latter son, Mr. P. L. Coffin.

The stork recently visited three homes of this neighborhood and distributed to each a bouncing baby girl.

Despite climatic conditions our mail service has been uninterrupted, and while flattery seldom meets with approval, yet the efforts of the couriers, Mr. Alex. McEachern and Mr. Wallace McIntyre certainly merit our approval.

ISLAND MILLER.—The Sydney Record of January 20 contains a lengthy article on the work being done by the Sydney Milling Company in their mill at Sydney. This mill which is one of the most up-to-date in the Dominion, (being run by electricity and fitted with the most modern machinery) is at present engaged grinding the cargo of wheat salvaged from the big Brazilian freighter "Joazeiro" which was stranded at Glace Bay last month. The foreman of this mill is Mr. Allan Campbell formerly of Long River in this Province who was for several years miller in Mr. W. G. Sutherland's mill at Montague.

WHO HAS A JOB FOR A SOLDIER? The Employment Office, Charlottetown has applications for fifteen carpenters, twelve who seek positions as clerical workers twenty under the heading of printers, barbers, plumbers, cooks, about 75 laborers, five waiters, four motor mechanics, three tobacconists, three telegraphers, fifteen railway employees, and twelve marine workers. There is a great dearth of work at present in this Province and the great majority of the applicants are men from overseas. Citizens at any time requiring a man for any kind of work whatever even if only for a day need only telephone the Employment office here and they will have no trouble in securing suitable help. All classes of applicants may be seen at any time at this office from highly trained professional men to the everyday laborer. The office at present has a total of 150 unplaced applicants.

SUCCESSFUL SHORT COURSES.—One of the most successful agricultural short courses held since the series began was that at Rollo Bay, which began Monday evening and closed Wednesday evening. All the meetings were well attended averaging from 80 to 150 each session. The course was opened by Mrs. W. Boulter and F. C. Mr. Anderson of the Department of Agriculture and while dairying was the chief feature emphasized a strong plea was made by Mr. Boulter for improved conditions in the rural schools and the giving of a more practical education to the boys and girls remaining on the farm. On Tuesday afternoon the work of the Poultry Division was clearly outlined by Mr. A. Curran who gave much valuable information with regard to the industry. He was followed by Mr. Thompson of the Sheep and Goat Division, Ottawa, who outlined the method of preparing and shipping wool to the grading stations and showed the great advantage to the producer from cooperative marketing. In the evening these gentlemen used slides to illustrate their addresses as did Mr. Anderson of Campbellford, Ont., who spoke on the horse industry and who on Wednesday afternoon gave a practical judging demonstration. Most of the time on Wednesday afternoon and evening was taken up by Mr. Shaw of the Department who dealt with the duty type of cow and the care and feeding of sheep and swine, and by Mr. Peppin, Plant Pathologist, Experimental Farm, who spoke on the benefits of spraying and of the potato industry in general. These same speakers are conducting the same course at Estabro, which of

BUELL-McCALLUM.—The home of Mr. and Mrs. James Robertson New Glasgow, was the scene of a happy event on Tuesday evening, Jan. 13th, says the Pictou Advocate, when the Rev. Mr. Johnston of Presbyterian Church, united in the holy bonds of matrimony, Miss Florence McCallum of Pictou, to Mr. Chester Buell of Abney, P. E. I. The bride looked charming in a dress of battleship grey taffeta as she entered the parlor and took her place under an arch of spruce and holly berries. The bridesmaid was Miss Edna McCallum of Pictou, sister of the bride, who wore a dress of cream taffeta. The groom was supported by Mr. Lawson Malcolm of New Glasgow. After the ceremony tea was served to a large number of friends. Mr. and Mrs. Buell left Wednesday on the afternoon train for St. John, N. B., on a short honeymoon trip. They will reside at Pictou for the present.

That venerable gentleman, Mr. J. Frost, so popular in the early winter, as an experienced builder of race courses and ice bridges, now inflicts his presence with displeasure to all. And his persistent intrusions into dwelling, cellars and barns, are being keenly resented. The recent fall of snow coupled with severe frost has been detrimental to the securing of fuel and, as a consequence, the supply is, in some cases, running low.

As regards social amusements and educational societies, Savage stands prominently in the front rank. And, while she has a well conducted weekly "Whist Club" for those enjoying single bliss, she also has a debating society, known as "The Savage Harbor Debating Club," the members of which extend a cordial invitation to all.

Mr. Harry McKay of Bangor is spending the winter with his brother Evert who resides on the property formerly owned by Mr. Elisha Coffin. This and the fact that we have in our midst Mr. and Mrs. George Clark and family of

Old Dutch

keeps your taps clean and bright. Use it also for scouring nickel stove trimmings, stained cutlery and cooking utensils of all descriptions. Old Dutch cleans everything throughout the house. Try it on anything hard to clean.

ENCOURAGING.—Murray Harbor, Methodist Circuit has nearly one half of its special objective for Forward Movement in sight already. Several have promised most encouraging amounts. The pastor is one of the number.

YOUNG GIRL'S DEATH.—The death occurred in the Charlottetown Hospital yesterday of Miss Dorothy Malone, of Kelly's Cross, aged 17 years. Her death was due to spinal meningitis. The body was sent home yesterday for interment.

SUCCESSFUL CANDIDATE.—Among successful candidates in a general competitive examination held at Ottawa for positions in Grade B Clerks, 2nd Division Civil Service appears the name of Mr. Charles E. Boreham, a former well-known Charlottetown boy who was for a number of years in the employ of the Rogers Hardware Co., Ltd.

DIED IN BOSTON.—Mrs. Etha Carr, nee Murray Harbor received a telegram announcing the death of her sister Mrs. Allen Rafuse, Boston, Mass., on Feb. 3. She leaves to mourn a husband, two sons, also her mother Mrs. S. Cann of Pleasant Valley, and a sister, Mrs. Simon Fraser of Roxbury, Mass., and a brother Rev. S. James Cann of Marlboro, Mass.

MR. ROBERT MESSERVY INTERVIEWED.—The Toronto Daily Star of Feb. 3 says. Rather in the public eye at present owing to his chivalrous defense of his late opponent, Liman Von Sanders, the German general who commanded the Turks at Gallipoli, General Ian Hamilton is tremendously popular with all the troops who have served under him or who have come into contact with him at any of his numerous entertainments which he held every week in London after his return from Gallipoli. Mr. Robert Messervy, lately a lieutenant in the R. G. A. and now living at 21 Grenville street, gave to the Star many instances of his courtesy and kind consideration to Colonials who were totally unknown to him before the war. He made it a practice to hold an entertainment in his home every Thursday afternoon, the best professional talent always being present. At these little intimate affairs, there would often be as many as 250 men from the various London hospitals present, all of them friendless imperial or colonial troops. Mr. Messervy is very proud of the autographed photo which Sir Ian gave him, and treasures the numerous letters he has at various times received from his distinguished correspondents.

DIED YESTERDAY.—The death occurred yesterday at Summerside, Lot 65, of Mr. James Doyle, a well known resident of that place and who for many years taught school. The funeral takes place today to Vernon River Church.

A meeting of fox men was held at Summerside Wednesday at which the organization of an association for Prince County was the main question dealt with.

Before the business was taken up Hon. A. E. Arsenault spoke of the Fur Farming Convention to be held in Montreal on February 18th, and 19th, at which it was desirable that there should be a large representation from the Island. Special transportation arrangements are being made and Pullman cars will be put on at Tormentine. Those desirous of going should notify him ten days in advance.

Rev. Dr. Gauthier spoke eloquently on co-operation among fox men and against sectionalism and provincialism.

Rev. W. H. Harding who occupied the chair declared in favor of a Prince County organization pointing out that there were 401 ranches located in Prince County and 165 in Kings and Queens. Of these 75 were in the neighborhood of Summerside 37 in the vicinity of Tignish and 54 around Charlottetown. Prince County therefore should be the leading state after the war to a name for the association and it was finally decided on motion of Mr. LeRoy Holman to call it the Prince Fox Breeders Association and to insert the name "County" or "Edward Island" after the word Prince should it be decided to maintain it as a county organization or expand it into a provincial organization.

A. E. McLean, M.L.A., spoke of the relation of the present association and the old provincial association stating that the latter was existing but not living and emphasizing the value of a system of registration. Mr. Arsenault spoke in favor of a provincial organization. It was decided that the first annual meeting of the Prince Association should be held on the first Wednesday in February and thereafter on the first Wednesday in July. The membership fee was placed at \$5.00. The following directors were then appointed:—

- Tignish.—Rev. Dr. Gauthier, P. N. Evans.
B.I.—Alberton.—B. I. Raynor, J. E. O'H.
Leary.—V. H. Dennis.
Conway.—Joshua Henderson.
Eliorsie.—Charles Sheldon.
Tyne Valley.—Edgar Mulligan.
Wellington.—H. A. Darby.
Summerside.—Rev. W. H. Harding.
Pater Clark, E. W. Manson.
Summerside.—George Brown.
Bedouque.—Thomas Moyce.
Tracy.—Frank Lag.

Money Saved is Money Gained

Did you ever think how much money you could save by having a

KNITTING MACHINE

To knit socks, mitts, underwear etc., for your family and for your neighbors.

At the present price of wool there is more money saved in having a KNITTING MACHINE than in a sewing machine.

Every woman knows the quality and price of hosiery at the present time.

One man writes us his son 14 years old paid for his machine in six months by doing work for his neighbors.

We are offering a special inducement to the first machine bought in any school district from us.

REMEMBER you can buy any make of knitting machine, hand power, made in Canada at the same from us as at the factory.
