**IN MEMORIAM**

**MISS BELLE BILLINGSLEY**

Friends in the city and throughout the province will learn with regret of the death of Miss Belle Billingsley which occurred at the Prince Edward Island Hospital on Tuesday.

Although not enjoying good health for some time she remained at her duties. On the advice of her physician she was removed to the hospital about ten days ago where despite tender nursing and the best medical attention she failed to recover.

The deceased was a daughter of the late Mr. and Mrs. Richard Billingsley, a distressing feature of her death is the fact that her mother passed away hardly two months ago.

Of a pleasing and agreeable disposition the deceased enjoyed a large circle of friends with whom she was extremely popular.

For many years she was a popular employee with Carter & Co. and for some time previous with Mr. W. A. Hutchinson, candy manufacturer.

There are left to cherish her memory a brother and two sisters Charles, Billingsley, Two Harbours, N.S.; Mrs. G. Leonard McKay, city and Miss Bessie Billingsley at home, Miss Grace Billingsley of the staff of the Bank of Montreal is a niece.

A short private service was held at the home at 1:30 Thursday afternoon after which the remains were removed to the Baptist Church where service was conducted at 2 o'clock by Rev. A. C. Vincent.

**REV. HUBERT ROBERT BAKER**

**VICTORIA, B. C., Oct. 12—Rev. Hubert Baker, 68, for many years a prominent Methodist minister in the Maritime Provinces, died today at his home here.**

Born January 1, 1866, at Athol, Nova Scotia, Mr. Baker was educated at the University of Mount Allison at Sackville, N. B., and was ordained a minister of the Methodist Church of New Brunswick and Prince Edward Island.

Among the prominent parsonates he held in the past were those at Moncton, Charlottetown, Saint John, Derby, N. B., Dorchester, N. B., and Richibucto, N. B. He came to Victoria 22 years ago as pastor of the Hampshire Road Methodist Church, his last change before retirement.

**Annual Meeting P.E.I. Temperance Federation**

The annual meeting of the Prince Edward Island Temperance Federation was held in the Y.M.C.A. Rooms, Charlottetown on Tuesday, September 28th and was opened with reading and prayer by Rev. L. B. Campbell.

Quite a large number of temperance workers were present from the various parts of the province. The very two sessions, morning and afternoon. The President, Rev. J. M. McLeod occupied the chair. The minutes of the last annual meeting were read by the Secretary, Rev. R. Hensley Stavert and were adopted as read.

Rev. J. M. McLeod the president, then delivered his address. In his address, Mr. McLeod reviewed the Temperance situation in the Province, and referred to the work of the various units in the Federation, viz., Sons of Temperance, W. C. T. U., Temperance Alliance and the Christianes. Among other things he said: "The forces of the liquor traffic are still at work, and have to be faced constantly and fearlessly. We must give the R. C. M. P. credit for considerable work, but much remains to be done. It is far easier to give credit than to construct, and bring about a 'dry area', but we feel that with so many officers, more should have been accomplished, and more could and would be accomplished, if we all cooperated more loyally."

Has there been any improvement under the R. C. M. P.? If so, then deserve our support and co-operation. If there is no improvement, and if things are getting worse, as some maintain, then we should have a change, for the business is too costly to maintain, if matters are not improved.

The Federation, to know, if those entrusted with the enforcement of the law, are doing their duty. We are up against the action of the brewers and liquor dealers, in their desperate effort to win the young over to the bad habit, this is what the brewers have said, according to press reports: "We want to get the beer-drinking habit instilled into thousands, almost millions of young men, who do not, at present, know the taste of beer."

port at the afternoon session.

In the earlier part of the afternoon session the committee appointed to deal with the matter of bringing in a resolution on the appointment of Field Organizer recommended that a further committee be appointed, that would undertake to secure the services of an organizer for a period of three months with a view to a longer term if necessary. It was agreed that this further committee should consist of the members of the central committee of last year, namely Rev. J. M. McLeod, Rev. H. D. Raymond, W. T. Huggan, G. H. Holliday and Mrs. W. A. Thompson together with the addition of Rev. A. F. Baker and Rev. J. W. A. Nicholson.

A discussion over conditions in the province was carried on for some time. Among those taking part in the discussion were Messrs. Cecil Miller, George H. Barbour, D. N. McKay, Jas. G. McLeod, Ira McKay, Rev. H. D. Raymond, Rev. H. Pierce, Rev. J. W. A. Nicholson and Rev. A. F. Baker.

The importance of more Education along the line of the evils of intemperance was emphasized. It was felt by some that our clergymen could do a great deal toward the overcoming of the evils of the liquor traffic if they were only more active.

The question of the large amount of home-brewed that is being made throughout the province is quite a serious one. Some complained that it seemed to take the R. C. M. P. a long time to go a short distance in response to an emergency call. The chairman of the prohibition Commission arrived and was introduced to the meeting.

He spoke to some length about the medical scrips issued to doctors and the difficulty of dealing with the proper use of these. For some doctors the number issued has been reduced occasionally. Mr. Black was subjected to quite a number of questions.

One of these was why should doctors be allowed to issue scrips in blanks? It is felt that even this evil is being remedied to some extent.

The question as to where the final authority in the enforcement of the law rests was also raised by some present. It was agreed that among other things the committee of seven recently appointed should have powers to confer with the Minister of Revenue and find out the exact amount of intoxicating liquor being seized annually within the province and around its shores.

This following resolution was then moved by Rev. H. D. Raymond and seconded by Rev. Hensley Stavert and carried unanimously: That the committee of seven, and any representative appointed, be urged to take steps to organize the temperance sentiment of the whole province with a view to influencing by force of principles and position the Minister of the attitude of the laws.

The question of finances was taken up and discussed to some length by Mr. W. T. Huggan, the treasurer and others. It was held that the committee of seven, and any representative appointed, be urged to take steps to organize the temperance sentiment of the whole province with a view to influencing by force of principles and position the Minister of the attitude of the laws.

**P.E.I. Hospitals Are Approved**

THE AMERICAN COLLEGE OF SURGEONS GIVES APPROVAL TO 2,480 HOSPITALS IN THE UNITED STATES AND CANADA

Dr. Franklin H. Martin, founder and director general of the American College of Surgeons, in presenting today the seventeenth annual report of the Hospital Standardization movement of the College, stated:

"Hospital care in the United States and Canada, despite trying economic conditions of the last five years, has shown a most gratifying improvement in service. Hospitals approved by the American College of Surgeons have been successful in their determined efforts to provide efficient care for the sick and injured."

Dr. Martin explained that a hospital to obtain approval must comply with certain definite requirements laid down by the American College of Surgeons. These include particularly the maintenance of organized medical staffs of ethical, competent physicians; complete medical records; adequate laboratory and X-ray facilities; and a thorough review of the clinical work of the hospital each month so as to carefully check up the results of the professional activities within the hospital, analyze, and seek to improve them. It is the aim of the American College of Surgeons to assist the medical profession and hospitals in assuring to patients the best possible care.

Of 3,538 hospitals of 25 beds and over in the United States and Canada which were included in this year in the survey of the American College of Surgeons, 2,480 won a place on the approved list.

"Two significant facts of much importance to the public are revealed in this year's survey," says Dr. Martin. "The death rate in hospitals is even below that of last year, and the period of hospitalization has been shortened. Results have improved despite the fact that patients coming to hospitals today usually arrive in a more serious state, with a more advanced condition than in former years because of stringent economic conditions. More efficient medical and hospital services are evident also through a material reduction in the number of chronic or incurable patients."

"Medical and hospital service is making decided headway in its battle against disease, and is accomplishing truly wonderful achievements in its protection of the health and happiness of humankind."

"Following is the list of hospitals in the Atlantic which are complying with the requirements for approval and have been accorded a place on the Approved List of the American College of Surgeons. The asterisk (\*) indicates provisionally approved. (\*) that hospitals so designated have accepted the minimum requirements and are endeavoring to carry them out, but for lack of time or other acceptable reasons have not been able to do so in every detail."

only take a still deeper interest in this work. The following resolution was in due course moved by Mr. S. M. Martin and seconded by Rev. J. W. A. Nicholson and unanimously carried: "That in view of the powerful influence exerted by the government in this province in the advancement of every good cause that the co-operation of all clergymen be requested in support of the work of a lecturer and temperance organizer now proposed for operation in this provincial field."

The nominating committee brought in their report. The officers named for the incoming year were as follows:  
President, Rev. J. M. McLeod (re-elected).  
Vice President (Prince Co.), Allison Profit.  
Vice President (Queens Co.), George H. Barbour.  
Vice President (Kings Co.), S. M. Martin.  
Secretary, Rev. R. Hensley Stavert (re-elected).  
Treasurer, Mr. W. T. Huggan (re-elected).

The report was adopted as read. Before closing it was suggested that the committee of seven should meet soon, to deal with the various problems presented.

The meeting was then adjourned and was closed with the benediction by the president Rev. J. M. McLeod.

**HORSE BREEDING TO BE ADVANCED**

HALIFAX, Oct. 11—(C.P.)—The agricultural departments of the Nova Scotia and Dominion governments have worked out a scheme to encourage the breeding of horses in this province.

Hon. J. A. McDonald, Minister of Agriculture in the Nova Scotia government, has been appointed head of the horse breeding policy declared "Nova Scotia sends every year no less than \$125,000 to central and western Canada for horses. This is a heavy annual drain which can be largely eliminated because these horses should be raised in the province."

"What is needed," Hon. Mr. McDonald continued, "is a good class of breeding stallions, in which the province is at the present time, signally deficient."

But under the new policy the departments plan to pay maximum bonuses of \$300 for class "A" stallions and \$200 for class "B" stallions to parties purchasing these horses to be used for public service in this Province.

**Suggests Plan To Rid Sports Of Partly Pro**

(By Elmer Dulmage, Canadian Press Staff Writer)

TORONTO, Oct. 12—(C.P.)—What amateur sport needs is an amateur athlete with a better reputation and a cleaner conscience, Alberta's venerable chairman of the Athletic Union of Canada do something about it.

The answer to that old problem of "veiled professionalism," the state of affairs that has given the amateur a not-so-good reputation, might be to designate as a "non-professional" the athlete who is not allowed to leave work without being paid his time. The "non-professional" would have all the rights of the amateur except that of holding an amateur card.

Judge Jackson explained his idea during a recent eastern trip. He won't be at the next A.A.U. of C. meeting here in November but he hopes his "non-professional" a forthright performer who doesn't have to take cash when nobody is looking, will get a hearing.

Amateurs who now accept money for broken time are outlawed by amateur authorities—if they are caught. "Yet they are not amateurs only because of force of circumstances, and they do not wish to be or cannot be, professionals," explained the judge. "They are probably as good amateurs as heart as any of those who pay their way. They are uniformed in not being amateur gentlemen."

"In other words they have to work for a living. While they are not amateurs, they should not be put into the professional ranks, and, therefore, kept out of amateur sports."

Amateur sport, the judge said, has no use for the "semi-pro." He can, if he is good enough, get into professional sport. "We must, however, keep the youth who through no fault of his own, has to work for broken time. He is not an amateur, neither is he a pro. He is a 'non-professional,' so why not designate him as such?"

The business of pushing amateur sport would be comparatively simple if his plan were adopted, Judge Jackson believed. He might recommend a general tightening up of laws but that is all that would be necessary.

Get rid of that fellow who wants to play sport for money. Get him to admit he's a professional. Keep the fellow who has to work for a living—who can't afford to leave his job unless sport can repay him for his time away. He's not what we call an amateur. He's a "non-professional." That's the Jackson remedy.

**MUSEUM GETS OLD SPINNING WHEEL**

HALIFAX, Oct. 11—(C.P.)—A high spinning wheel, nearly a century old, is one of the most recent acquisitions of the Provincial Museum, occupying a place of honor beside the other relics of the past generations.

The wheel, which was manufactured by hand by John Mosher, of Newport, R.I., was presented as a gift to Mrs. Thomas Wollaver, also of Newport, on her wedding in 1838. The machine is operated by hand by a wheel pin which is also in the possession of the museum.

He—I hope my visits are not disagreeable to you.  
She—(politely)—Not at all.  
He—I have sometimes thought that I worried you.  
She—Oh, no! No matter how gloomy I feel when you call, I am always happy when you go.

**Reaction In Italy**

(By John Lloyd, Associated Press Foreign Staff)

ROME, Oct. 11—Italy's official press tonight was clearly ready to repudiate the assassination of King Alexander of Yugoslavia, no matter who his assassin was, as Benito Mussolini closely watched developments in Yugoslavia growing out of the tragedy.

"Riots at Lubljana and Sarajevo directed at Italy caused no great growing concern here," and the press regarded with profound repugnance and disapproval the deed at Marseille.

Although Italy has openly sympathized with Croatia, Yugoslavia's northern quarter, in its differences with Belgrade, the tone of official press utterances indicated clearly that condemnation of the assassination would not be spared even though the killing was plotted by Croatia.

If it should be true that accomplices of the assassin were born on territory now Italian, as despatches from France indicated today, Italy nevertheless will disclaim responsibility for the tragedy.

The cities of Zara and Gorizia given on passports of two men jailed in France as their birthplaces, formed part of the Austro-Hungarian Empire at the time the prisoners were born, the Foreign Office pointed out today.

Furthermore, names given by the men were Slavic and the Czechoslovakian consul-general at Trieste denied the passports were issued there, as they appeared to have been.

A close check was being kept by the Foreign Office as to whether more displays of anti-Italianism followed today's demonstrations.

There was no official confirmation here for reports of anti-Italian demonstrations at Belgrade and Zagreb, but reported unrest among Yugoslavs themselves was watched carefully for fear death of the dictator-king might lead to civil warfare.

The Foreign Office was inclined to give little importance to the Italian incident, which, it said, an Italian stenographer attached to the Italian consulate was shot at but was protected by Yugoslav police and not injured.

Reports from Trieste that the consul himself was attacked were denied. The Foreign Office said the attack occurred on the street some distance from the consulate and police assistance was immediate.

Czech passports found on two men arrested in France today as suspected accomplices of King Alexander's assassin were forwarded to the Czechoslovakian consul at Trieste said.

Authorities at Gorizia where one of the men claimed to have been born said he was not known nor registered there.

The Italian Foreign Office also called attention to the fact that the two men arrested in France were not born in Italy, even though the information on their passports was true. Gorizia and Sara, the cities their documents indicated as their birthplaces, were both on Austrian territory at the time they were born, it was pointed out.

**VETERAN MARINER ENDS SEA CAREER**

HEBRON, N.S., Oct. 2—(C.P.)—Captain Wilfred Wyman sailed the seven seas for 53 years and travelled more than 1,000,000 miles of sea lanes in wind-jammers and steam-driven craft but now the time has come to settle down and he has picked a cottage near here, within hearing of the surf-beat of the Atlantic ocean.

The 65-year-old seaman, who has maintained the finest traditions of a long family of sea captains, climbed from his first position as cabin boy to master of his own schooner. He was only 13 when he signed on a four-master sailing out of Yarmouth, N.S.

**LARGE RETURNS FROM PULPWOOD**

BADDECK, N.S., Oct. 11—(C.P.)—Farmers who own woodlots in Inverness and Victoria counties are reaping rich harvests this fall, having cut more than 8,000 cords of pulp-wood for which they will receive \$40,000.

Throughout the summer months gangs of men have been busy in the forests felling trees, which are hauled to tidewater after having the bark stripped off them.
