LORD STRATHCONA'S REPORT ON CANADA'S BUSINESS DONE WITH GREAT BRITAIN

Dominion Climbing to the Front in Supplying the Old Country—His Advice as to Wood Pulp—Auditor-General's Report Issued—Big, But Worth all the Space, He Says.

OTTAWA, March 11.—Lord Strathcona's in his annual report to the trade and commerce department entertains no hope that restrictions on the free entry of Canadian cattle into the United Kingdom will be removed, notwithstanding the agitation to that end, principally in Scotland.

Improved markets for imported meat are anticipated in the near future and the high commissioner urges that greater attention be paid to this branch of export from Canada than at present. He points out that the killed meat imported from the United States in 1902 was equal to 342,000 head of cattle.

It is noted with satisfaction that Canada is now the second largest shipper of wheat to the United Kingdom, although last year's shipments did not amount to more than 10 per cent of the whole importations. But Canadian grain is very well spoken of. There is a gratifying increase in the quantity of flour imported from the dominion and it now occupies the second place in the returns, after the United States.

In reference to the discrimination of Germany against Canadian grain the high commissioner sees no means of getting over the difficulty until negotiations can be opened up with Germany by which Canadian imports may be placed on a better footing than they now enjoy.

Lord Strathcona secured from Right Hon. Mr. Chamberlain prior to his departure for South Africa a promise that Canadian products would not be overlooked in the purchase of cattle and supplies for restocking the Boer farms.

After referring to butter and cheese exports Lord Strathcona says: "The wood pulp importations from Canada seem to be increasing. The feeling prevails that an

effort should be made by Canada to prevent the exportation of the raw material and to encourage the industry in the dominion the matter being largely in the hands of Canada, as competition from other sources is decreasing year by year.

GENERAL NEWS OF THE CAPITAL.

OTTAWA, March 11.—The annual report of the auditor general of Canada was issued today. The volume is larger than ever. Mr. McDougall, referring to the size of the report asks if it would not be considered by the owner of a business a rather economical use of space which gave all the information connected with a \$100,000 annual business on four pages of print, that is about the amount of space taken up in the report, every \$100,000 involved covering from three to four pages.

The cost of opening this information to the public in the report is placed at \$102. The following extract in the report refers to the Martineau affair: "A defalcation just reported in one of the departments would seem to cast a doubt on the great confidence which 21 years of uninterrupted success has inspired with regard to the letter of credit system. But although the results of the defalcation in that case are not yet reported, I am quite satisfied that the recurrence of defalcations of that kind will be prevented."

Abundus Martineau, formerly of the militia department, pleaded guilty today to the three charges of forgery and three charges of uttering forged notes and will spend the next seven years in the penitentiary.

On each charge of forgery he was sentenced to seven years and four years on each charge of uttering. The terms will run concurrently. The prisoner made restitution of \$150,000, out of the \$75,000.

COLDS SETTLE

ON THE KIDNEYS.

Hence the Backaches, Rheumatism Pains and Lumbago.

DR. CHASE'S

KIDNEY-LIVER PILLS.

Prompt to Relieve and of Lasting Benefit.

It is not only the lungs that suffer during the cold, damp season. The kidneys are almost equally susceptible to sudden changes of temperature, and many a serious case of kidney disease has its beginning with a cold, which settles on the kidneys.

Persons working out of doors are most likely to be victims of such trouble, and suffer from headaches, lumbago, rheumatism and crippled, aching limbs, but anyone is liable to set in a draught or expose his back to a current of cold air.

Cold settling on the kidneys causes congestion, a clogging of the filtering organs, and consequent derangement of the whole digestive and excretory systems. The liver fails to work, the bowels become constipated, and the stomach gets upset.

Because of their diet and combined action on these organs, Dr. Chase's Kidney-Liver Pills are of most prompt and most lasting benefit for such derangements. They are positive in their effects, and are backed by the experience and integrity of Dr. Chase, the famous receipt book author.

Mrs. J. Larter, 122 Cross Street, Charlottetown, P. E. I., and whose husband is a contractor, states: "I had suffered a great deal with pains in the small of my back, my digestion was bad and I was frequently troubled with spells of racking headache. I have been entirely cured of these distressing symptoms by the use of Dr. Chase's Kidney-Liver Pills and find that my general health is greatly improved since I have been using this preparation."

"I can also testify to the merit of Dr. Chase's Syrup of Linseed and Turpentine, as I was cured of a severe attack of bronchitis by the use of this remedy."

Dr. Chase's Kidney-Liver Pills. One pill a dose; 25 cents a box; at all dealers, or Edmondson, Bates & Co. Toronto.

ANNOUNCEMENTS

Of Concerts, Socials, Entertainments etc., with admission fee, silver collection, or of a money making nature, 5 cents a line (of 6 words) for first insertion, and 2 1/2 cents a line for each continuation. Churches and charitable institutions half rates. Minimum price 15 cents. Black type announcements double rates. Births, Marriages and Deaths FREE but verses with deaths 2 1/2 cents rate as above.

THE GUARDIAN.

LIBERTY FOR 110 PRISONERS.

TORONTO, March 15.—One hundred and ten prisoners will be set free from the Central Prison in April, one hundred of whom will be discharged and ten let go on ticket-of-leave.

It is the largest discharge of prisoners in the Central Prison's history. There are now 395 prisoners confined.

BRIGHT'S DISEASE

Is the deadliest and most painful malady to which mankind is subject. Dodd's Kidney Pills will cure any case of Bright's Disease. They have never failed in one single case. They are the only remedy that ever has cured it, and they are the only remedy that can. There are imitations of Dodd's Kidney Pills—box and name—but imitations are dangerous. The original and only genuine cure for Bright's Disease is

DODD'S KIDNEY PILLS

Dodd's Kidney Pills are fifty cents a box at all druggists.

LUKE S. WILSON, GARRET BARRY

CANADIAN STEEL & COAL COMPANY, LIMITED, INCORPORATED.

Preference Stock.

The stock is preferred both as to Capital and Dividends.

The shares are entitled to cumulative preferential dividends, from the net earnings of the Company, at the rate of 7 per cent per annum, payable half-yearly on the first days of April and October.

The total issue of Preferred Stock is only \$1,000,000.00, the whole of which is now offered and part of which is already underwritten.

Subscriptions for 10,000 Shares of \$100 each of the 7 per cent. AND COAL COMPANY, Limited, will now be received at par, that is, \$100 for each \$100 share.

\$5.00 on application, \$5.00 on allotment, \$20.00 on first January, 1903, \$20.00 on first July, 1903, \$20.00 on first March, 1903, \$20.00 on first April, 1903.

The whole of the instalments remaining unpaid at any time may be prepaid, at time of allotment.

Forms of application and copies of Prospectus may be obtained on request. Notice of allotment will be sent promptly by ordinary letter.

It is intended to apply to the Stock Exchanges in New York, Boston, Montreal and Toronto for the listing of the Stock of the Company.

The CANADIAN STEEL AND COAL COMPANY Limited, was organized to mine and manufacture iron and coal coke and steel in Canada, at Atlantic tide water.

The raw materials for these manufacturers are: COAL, IRON, LIMESTONE.

The Company has acquired by purchase, immense iron deposits on the North Shore of the Gulf of St. Lawrence about 350 miles from Sydney. The deposits are estimated to contain 20,000,000 tons of ore, above sea level with probably as much more below that line. The iron can be handled for \$1.00 per ton, or less. Quantities of this ore have been shipped to Great Britain and United States where it has given great satisfaction, and we can sell large quantities of O. B. at the properties, netting us a profit of \$2.00 per ton. This ore makes the finest steel.

When in full operation, the output is expected to be about as follows:

1. IRON—200,000 tons iron ore shipped direct from property, showing net profit of \$2.00 per ton, total \$400,000.00

2. COAL—200,000 tons fine iron ore shipped in briquettes, showing net profit of \$4.00 per ton, total \$800,000.00

3. COAL—600,000 tons coal, showing net profit, at least, \$1.00 per ton, total \$600,000.00

4. AIDS—Government bounties (averaged) added to above per year for 5 years \$2,000,000.00

Total yearly revenue \$2,200,000.00

Less Fixed Charges \$200,000.00

Net Revenue \$2,000,000.00

Equivalent to yearly dividends of 30 per cent, or 15 per cent, half-yearly on total capitalization.

If the capitalization was increased to \$20,000,000.00 this estimate would still show a dividend-earning capacity of 10 per cent, per annum.

The capitalization of the Dominion Coal Co. is \$20,000,000.00, and is paying 8 per cent, guaranteed dividends on this enormous sum.

The capitalization of the Dominion Iron and Steel Company is on which it is believed 8 per cent dividends will be earned.

The capitalization of the Canadian Steel and Coal Company is only \$5,000,000.00, and it is reasonable to expect much larger dividends.

Within the last few months Dominion Coal shares common rose in market value from \$40 to \$144 per share, and Dominion Iron and Steel Company's shares common rose over \$30 per share in market value.

With such low capitalization The Canadian Steel and Coal Co's shares would show tremendous profits; and it is confidently believed they will.

Address all communications originating in United States, to the Canadian Steel and Coal Company, 63-65 Wall Street, New York City.

And all communications originating in Canada or elsewhere, to the Canadian Steel and Coal Company, 351-2-3 4 Temple Building Montreal, P. O. Box 1014.
