Daily Selections FOR Guardian Readers

ONE OF THE MYSTERIES:—The earth, O Lord, is full of thy mercy: teach me thy statutes. Psalm 119:64.
PRAYER:—"God moves in a mysterious way His wonders to perform, He plants His footsteps in the sea, and rides upon the storm."

IF I HAD A BOY
If I had a boy, I would say to him, Son, Be fair and be square in the race you must run. Be grave if you lose and be meek if you win. Be better and nobler than I've ever been. Be honest and fearless in all that you do. And honor the name I have given to you.

If I had a boy, I would want him to know, I know in this life just about as we sow, And we get what we earn, be it little or great. Regardless of luck and regardless of fate. I would teach him and show him, the best that I could, That it pays to be honest and upright and good. I would make him a pal and a partner of mine. And show him the things in this world that are fine. I would show him the things that are wicked and bad; For I figure the knowledge should come from his Dad; I would walk with him, talk with him, play with him, too, And to all of my promises strive to be true.

We would grow up together and I'd be a boy And share in his trouble and share in his joy. We would work out problems together and then We would lay out our plan when we both would be men. And, oh, what a wonderful joy it would be, No pleasure in life could be greater to me.

SCOTT'S EMULSION

The Public Forum
This column is open for the discussion of questions of interest. The Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

NEIGHBOURLINESS.
Sir,—It is to be hoped that as a result of the visits of Premier KING and the Governor-General to Washington, the high-Protection fence which Uncle Sam has erected around his territory will be considerably lowered, and that Canada will not have to pay a high figure for such a neighborly act. To be friendly with one's neighbours is a Christian duty; but the high fence referred to is not neighbourly. It was long ago noted that a bad neighbor is as great a misfortune as a good one is a great blessing.

LOST CONFIDENCE.
Sir,—Members of our Liberal government and their supporters are learning that they cannot escape censure when they "play fast and loose" with the electors. Neither Conservatives nor Liberals, women or men, like to be "made fools of" and when it is about the enforcement of an important law, they are not likely to stand for it. Mr. Saunders and his followers succeeded in the election of cause the policy of the Conservatives was grossly misrepresented, and because promises were made by them, and on their behalf, which it now appears they did not intend to perform. Many Conservatives and many Liberals believe what was said by them and for them; and so they got their majority in the Legislature. Men and women in both parties were "fooled" as existing conditions prove; and the government has, it is evident, already lost—deservedly lost—the confidence of the electors by whose votes they obtained office.

ABNORMAL CHILDREN
Sir,—The suggestion of one of your correspondents that a special class for the teaching of abnormal children should be formed in Charlottetown seems to be practicable and advisable. By means of such a class, the backward child would probably, instead of becoming a social derelict and compelled to drift for a living, be trained to live a happy and as far as possible a life helpful to the family and community in which he or she may live. On the other hand, the normal children in the ordinary class would not have to lose half an hour a day while the teacher is vainly trying to bring the slow pupil up to the standard, and so would go forward at their normal pace. The parent too would find his backward child advancing and glad to go to school in view of advancement in study. Moreover the teacher would be relieved of the nervous strain and of the often unjust censure accompanying the fruitless attempt to have the abnormal pupil advance in study at a rate equal to that of the pupils who are normal. The suggestion is certainly worthy of the attention of our educational authorities.

You Can Stop Stomach Gas
"My stomach was full of gas; it was noisy before and after meals. Often I had considerable pain and distress. I found that twenty drops of Nerviline in sweetened water always brought quick relief. For cramps, diarrhoea, nausea, I have found Nerviline a perfect wonder. In our home it is used to prevent and overcome a host of minor ills. For the children's croupy colds, for sore throat, for muscular pain, lame back, rheumatism, Nerviline is a marvel." This was the experience of N. E. Normand, Chester P. O. Prince Interested In All Industries
LONDON, Eng., Dec. 6.—Few people have a wider knowledge of the workaday world than the Prince of Wales. His visit to Smithfield to watch the butchers at work, which afterwards at the dinner of the Butchers' Charitable Institution, is only one of many expeditions he has made often entirely on his own initiative, to discover how the world earns its livelihood and attends to the wants of others.
At Whitehaven recently he gained a first-hand knowledge of work at a coal mine. In Staffordshire he has watched the potters at work, in Cornwall the slate quarries, in Cumberland the shippard workers, in Northampton the leather workers and in London paper makers and printers.

THE GABBS
WE HAD A BIG DISCUSSION AT THE CLUB TODAY—ETHEL CLAIMED THAT THE AVERAGE WIFE IS UNHAPPY AND MOST OF THE WOMEN AGREE.
WE DECIDED, HOWEVER THAT THIS CONDITION CAN BE REMEDIED—IT'S THE MENTAL ATTITUDE OF THE AVERAGE WOMAN THAT CAUSES HER UNHAPPINESS.
WELL, IT'S LIKE THIS—A WOMAN'S HAPPINESS DEPENDS ON ONE SINGLE IDEA—IF SHE WANTS TO BE HAPPY SHE MUST KEEP THIS ONE PARTICULAR THOUGHT CONSTANTLY IN MIND—
WHAT THOUGHT IS THAT?
THAT THE OTHER MEN SHE COULD HAVE MARRIED MIGHT HAVE BEEN EVEN WORSE!
