GETTING THE FARM HORSE READY FOR THE RUSH SEASON IN THE FIELDS

By W. W. Guardhouse.

"There is virtue in the horse; he is full of goodness; the whole landscape looks out of his bright eyes. I had rather have the care of horses than be the keeper of the great seal of the nation."—John Burroughs.

Too much care or attention cannot be given to the heavy horses at this time of the year. The care or lack of care at this period will be very evident when the first few days of seeding commence.

Lack of exercise is a very common complaint. You will say, "Why this animal won't get to me; exercise horses two hours every day." The work horses and those you purpose showing this Summer should have exercise without stint. Many farmers turn their horses out into the barnyard for a couple of hours each day but this is not sufficient.

During this period of the year often the shoes are neglected. In the shoes are "pulled off" and nothing more is done to the feet until they are re-shod in the Spring. This is very harmful.

Feeding. Upon feeding depends almost everything. Regularity is the primary requirement of successful feeding, in man or beast.

Warming the Engine Quickly. When warming up a cold engine in the garage, before taking the car out, the process may be considerably shortened by running with the spark as far retarded as possible.

CAULIFLOWER BUNCH OR THE SOIL MUST BE RICH OR CAULIFLOWER WON'T HEAD

Many home gardeners fail in growing cauliflower. Cauliflower will not head during a hot dry season unless given good care.

Breaking to Show. If you propose exhibiting your horse next Spring or Summer now is the "appointed" time to break him to lead or drive properly.

AFTER INFLUENZA THE GRIP, FEVERS AND OTHER POISONING PROSTRATING DISEASES

It is absolutely necessary that the blood be thoroughly cleansed, germs of disease destroyed or driven out, appetite restored and the kidneys and liver restored to perfect regular action.

HINTS TO HOUSE WIVES. Mix the salt and pepper and fold in a little paper when packing a lunch.

When sewing up sheets, don't sew in two until the seams are sewed over and over. To take spots from wash goods, rub them with the yolk of an egg before washing.

To mend china or glass melt some powdered alum in an old spoon. Before it hardens rub this over the pieces to be united, press them together and set them aside to dry. They will not come apart even if washed with hot water.

TO CLEAN DARK PAINT. To make shabby dark paint look like new, mix equal parts of linseed oil and vinegar together, then rub evenly over the wood-work with a soft rag and polish with a soft duster.

Pastry. If your pastry contains baking powder, it should be put into the oven immediately, but if it does not, it is improved by being set aside in a cool place for a few hours.

A Kitchen Towel Kink. A good-sized eyelet worked in opposite corners of a kitchen towel is much more satisfactory than a loop of tape to hang the towel by, or even a brass ring. It can't come off.

GROW ASPARAGUS IN THE HOME GARDEN. One of the most delicious of vegetables, yet the one that is most frequently found missing in the average garden is asparagus, and about the only reason that can be given for its absence is that it takes more than one season to reach the stage where it can be made use of as food.

PORK SHOULD BE WELL DONE. Pork is a tremendously important food in Canada, the amount being equal to all other meats, including poultry, and it is important that housewives should realize that danger may lurk in a piece of pork not properly cooked.

COSTLY ORCHIDS. Nearly all the orchids found in Burma can be grown with a little care and attention in private gardens. There is one exception, a sweet-smelling species called tazin by the Burmese, and which is usually brought to market in Christmas week in Rangoon.

HOME KEEPING HEARTS. Stay at home, my heart, and rest; Home-keeping hearts are happiest, For those that wander they know not where.

WEARY AND HOMESICK AND DISTRESSED They wander east, they wander west, And are baffled and beaten and blow about, By the winds of the wilderness of doubt;

THEN STAY AT HOME, MY HEART, AND REST; The bird is safest in its nest; O'er all that flutter their wings and fly, A hawk is fluttering in the sky; To stay at home is best.

WHAT HE DIDN'T KNOW. "Here, you!" cried the fur-coated gentleman to the porter at the suburban station. "Don't you think that truck is rather dangerous in that position?"

AS THE LIGHT MAN SAID TO THE TAPER. One night a man took a little taper out of a drawer and lighted it and began to ascend a long winding stair.

FOR THE YOUNG FOLKS. An amusing incident occurred at a living bridge tournament. A well-known woman who was impersonating the queen of hearts was accosted by a fellow performer whose accent suggested that her cradle had stood within the sound of Bow Falls.
