NOT only satisfy the craving for sweets—they are full of nourishment.

THE COWAN COMPANY, LTD. TORONTO, CANADA

A Most Pleasing SURPRISE

STARR HOCKEY SKATES

Manufactured by the Starr Mfg. Co., Ltd., Dartmouth, N.S., Branch, 122½ Wellington Street West, Toronto

The accuracy of the McClary thermometer makes good baking—a certainty—also adds a lot of satisfaction to the work. You can scarcely afford to overlook the several exclusive features of the Sask-alta when buying your new range. Ask your dealer to explain them.

Sask-alta ranges are sold everywhere by good dealers who back up our guarantee on this splendid range—McClary's

McClary's Sask-alta Range

LONDON TORONTO MONTREAL WINNIPEG VANCOUVER ST. JOHN HAMILTON CALGARY SASKATOON EDMONTON

SUPREME COURT.—In Saturday's issue of the Royal Gazette, it is notified that the High Court of the Supreme Court of Justice, Court of Appeal, and general jail delivery for Queen's County will be opened at the Charlottetown Court House on January 13th, at 10 a.m.

TOBACCO COMPANY.—Letters Patent have been granted to Messrs. James G. Gass, teacher; James E. Trainor, tobacconist; George Morrison, tobacco manufacturer; James Monaghan and William Trainor, tobacco twistors—all of Charlottetown, to engage in the manufacture of tobacco under the name of "George Morrison Company," with a total capital stock of \$5,000, divided into fifty shares of \$100 each.

SCHOONER LOST.—A despatch received by the collector of customs here from the wife of Capt. John Mullens, of Glace Bay, of schooner Ada, and a letter to the Dalhousie Lumber Company from Summerside, would warrant the belief that the vessel is lost, says a Dalhousie exchange. The Ada sailed from Dalhousie on Oct. 30 for Summerside P. E. I. with a cargo of shingles purchased from the Dalhousie Lumber Company by Schurman Co., of Summerside. The information in the letter received is that shingles in quantities have been picked up off Magdalen Islands. The schooner Ada had a crew of four men, tonnage 78 and belonged to Sackville, N. B.

RIFLE SHOOTING.—As long as the mild weather holds out the rifle men of the city are determined not to desert the range, and on Saturday afternoon, the weather being favorable, a few of the more enthusiastic of the shooters went out to Kensington range and had an enjoyable shoot at the usual ranges, 200, 500 and 600 yards, and there was some good scoring. Following were the scores made:—Lieut. G. E. Ritchie, 98 points; W. S. Louson, 98 points; Professor Barlow, 96 points; G. M. Moore, 90 points. Although there was a tie between Mr. Ritchie and Mr. Louson, the former's score at 600 yards was the better and so he counted out Mr. Louson for first place. Mr. Louson's score included a possible at the 300 yards—excellent shooting. There is some talk of a "goose shoot" this week among some of these shots. Evidently Capt. Stanley's medal for the man making a hundred points over the three ranges is the great draw, and until the weather proves unfavorable no doubt there will be determined effort made to capture the prize before the season comes to an end.

KARAKULE SHEEP.—That the raising of Karakule—sheep for the production of Persian Lamb fur is to be conducted in this province on an organized and extensive basis is evidenced by the fact that a company is in course of formation for this purpose and application has already been made to the Government for its incorporation by Letters Patent. The name of the company is to be "The Doctor C. C. Young Karakule Sheep Co., Ltd." In its published objects however, its activities will not be confined to the raising of Karakule sheep, but will include the breeding of cattle, horses, sheep and live stock in general, and also the breeding of foxes and other fur-bearing animals as well as general agricultural, farming and dairy operations. The capital stock of the company is to be \$150,000, divided into 1,500 shares of the value of \$100 each, the chief place of business is to be situated in the city. The provisional directors are named as follows: Dr. C. C. Young, of Belton, Texas, U. S. A.; Mr. W. H. Tidmarsh, manufacturer's agent, of Charlottetown; Mr. William W. Owen, farmer of Keplochott, and Mr. Albert C. Saunders, barrister-at-law, of Summerside.

GIRL SUFFERED TERRIBLY
 At Regular Intervals—Says Lydia E. Pinkham's Vegetable Compound completely cured her.

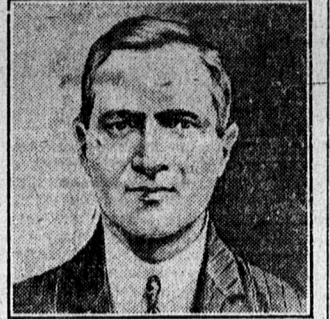

Adrian, Texas.—"I take pleasure in adding my testimonial to the great list and hope that it will be of interest to suffering women. For four years I suffered untold agonies at regular intervals. Such pains and cramps, severe chills and sickness at stomach, then finally hemorrhages until I would be nearly blind. I had five doctors and none of them could do more than relieve me for a time. I saw your advertisement in a paper and decided to try Lydia E. Pinkham's Vegetable Compound. I took seven boxes of it and used two bottles of the Sanative Wash, and I am completely cured of my trouble. When I began taking the Compound I only weighed ninety-six pounds and now I weigh one hundred and twenty-six pounds. If anyone wishes to address me in person I will cheerfully answer all letters, as I cannot speak too highly of the Pinkham remedies."—Miss JESSIE MARSH, Adrian, Texas.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

PAIN NEARLY DROVE HIM MAD

Suffered Horribly Until He Turned To "Fruit-a-tives"

J. A. CORRIVEAU
 DRYSDALE, ONT., June 15th, 1913
 "I am a general storekeeper at the above address, and on account of the great good I have experienced from using 'Fruit-a-tives', I recommend them strongly to my customers. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrific pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain but I took 'Fruit-a-tives' steadily until I was cured. I have gained fifteen pounds since taking 'Fruit-a-tives' and I very truly believe they saved me from a disastrous illness."

J. A. CORRIVEAU.
 For Headaches, Neuralgia, Rheumatism and other diseases arising from an impure condition of the blood, "Fruit-a-tives" is invaluable and infallible.
 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

SUDDEN DEATH.—Heart Disease brought the life of Ernest Webster, of Midgell, in this Province, to a very sudden termination and under sad circumstances on Friday evening. The unexpected demise of the deceased is all the more regrettable on account of the fact that he was a young man, being barely in his twenties. The son of Mr. Oliver Webster, who survives him, Ernest was adopted by his uncle, Mr. Judson Webster, of Midgell. He was well apparently up to the day of his death. That day he worked on the farm as usual, and in the evening partook of his supper evidently as well as ever. After supper he went out to the stable to feed the horses, but made rather a long stay, and his uncle, after he had been gone twenty minutes and had not returned, went out to see what could have happened to the young man. He found his nephew lying dead at the stable door. Mr. Webster was summoned immediately, as well as the coroner. The doctor made an examination of the body and reported that death was due to heart disease, and upon their report the coroner decided that it was unnecessary to hold an inquest. The deceased was a nephew of Mrs. R. H. Jenkins, his mother being Mrs. Jenkins' sister.

As the result of an accident he met with a few weeks previous, Mr. Herbert Campbell of Amherst, son of Mr. A. B. Campbell, Vice-President of West Kent School, had his right leg amputated on Wednesday last. About the first of the month, the young man fell from a ladder while engaged at his work in the International Engineering Works at Amherst and sustained a compound fracture of the right leg. The fracture was of such a nature as to make it almost impossible to set, but all that medical skill could accomplish was done. Later complications set in, and the doctors considered it necessary, in order to save the young man's life, to remove the limb. Latest accounts state that he is improving satisfactorily in the hospital there. Mr. Campbell left the Island about six or seven years ago, and this summer he spent some three months with his parents here. He is a robust young man of splendid physique, and his acquaintances on the Island will learn of his accident and its result with the deepest regret. He is a skilled mechanic and a young man of the best character, and the loss of his limb may necessitate his leaving his occupation. It is to be sincerely hoped that he will in time regain his wonted strength and vigor.

Following upon the formation several weeks ago of an association to promote the breeding of pure bred cattle, for beef purposes, in this Island, a meeting was held on Saturday at the office of the Commissioner of Agriculture, Charlottetown, at which two similar associations were formed, namely, "The Sheep Breeders Association of P. E. I." and "The Swine Breeders Association of P. E. I." The objects of the Associations as stated in the rules formed and passed for their conduct are as follows: To encourage the breeding and improvement of sheep and swine; by co-operating with the departments of agriculture, Local and Federal, to instruct the farmers in the breeding and improvement of sheep and swine; by keeping a record of pure bred sheep and swine of the several breeds owned by each of its members; by encouraging the exclusive use of pure bred rams and boars; by encouraging the importation of pure bred sheep and swine. For membership of these associations it is provided that on payment of an annual fee of \$1 any owner or breeder of pure bred sheep or swine or any owner or breeder who breeds to pure bred rams or boars exclusively may become a member of the associations.

Among those present at the meetings were the Commissioner of Agriculture (Hon. Murdoch McKinnon) and the Secretary of Agriculture (Prof. Theodore Ross), to whose efforts in fact the formation of these organizations was principally if not entirely due. Office-bearers were elected as follows: Of the Sheep Breeding Association—Messrs. George Boswell, French Fort (President); Michael Keenan, Georgetown (Vice-President for King's); J. M. Laird, Kelvin (Vice-President for Prince); C. B. Clay, Bridgetown; Ernest Land, Mt. Herbert; and Rev. F. C. Gauthier, Esq., Minister of the Swine Association: Messrs. Peter Brodie, York, (President); George Calbeck, Summerside (Vice-President); Alliston McDonald, Georgetown, (Vice-President for King's); Daniel Stewart, Alliston; Ernest Ings, Hazelbrook; J. J. McNally, Summerside.

The Secretary-Treasurer in each case, as provided by the rules, is the Secretary of Agriculture.

With regard to the Sheep Association, the question of damage done to sheep by dogs was also considered and those present were all of the opinion that something should be done to rid the country of dogs. Some suggested that the dog tax should be very much increased and the money collected from that source be paid as compensation to owners who had sheep killed. The objection however was raised that a great deal of damage was done through the sheep being simply scared by dogs and no estimate of this damage could be made and that therefore such a suggestion would be unfair. It was decided to refer the matter for consideration at a future meeting of the Association.

TUESDAY.
THE LADY LAURIER.—The Government buoy boat, Lady Laurier, which has been busy lifting in the western part of the Island, returned on Saturday night with the West Cape and Point du Chene buoys, and left again yesterday morning to complete her work in that locality.

CENTRAL CHRISTIAN CHURCH.—Rev. A. J. McLeod, Denmark, N. S., who preached two eloquent and instructive sermons at the Central Christian Church, on Sunday last, is no stranger in this city. It will be remembered he held some special meetings for the Y. M. C. A., of this city a few years ago and his reputation as a preacher was then well established. Mr. McLeod is preaching for this congregation with a view to forming a pastorate, and will preach again next Sunday, the 30th, inst., at both morning and evening services to which a cordial invitation is extended to all to attend and hear this clever and eloquent preacher.

JUST WATCH.—A short while ago it was reported in the Guardian that Mr. J. A. Messervy had been unfortunate enough to lose a valuable gold watch—quite an historic article and a family heirloom of which the gentleman was justifiably proud. Having heard of his sad loss, some of Mr. Messervy's bosom friends in the western part of the Island convened a meeting among them at which they all readily and wholeheartedly contributed on the spot to a handsome sum for the purchase of a substitute for the lost relic. Yesterday, therefore, the gentleman was not a little surprised when he received a neat and significantly pretty jewel-box by post. No one is aware of the contents of that box, but judging by the blissful smile which now adorns Mr. Messervy's hitherto gloomy countenance, it can reasonably be assumed that he has reconciled his conscience so far as the departed heirloom is concerned.

MONEY VALUABLE.—That money is of value in the Western Provinces is evident from the advertisements which appear daily in the Western papers of which the following are samples:—"Want to borrow on first class inside city property \$1500.00, will pay 9 per cent." Advertiser wants to borrow money on first class property. Will pay from 12 to 20 per cent." Some local people who have money invested in western lands state that they are receiving 10 per cent. on notes along with first class security on property. Even at these high figures the people on Prince Edward Island are not sending their money abroad but investing it at home, expecting even much higher returns. Owing to the stringency of the money market bankers do not care to lend for speculative purposes, but the man who is doing a good legitimate business can get all the accommodation he needs. The people who complain are the people who are living beyond their means or those who endeavour to take chances with other peoples' money.

A. W. PERRY IN TANGLE.—There was a good hour of excitement near the Plant line wharf in Halifax on Sunday morning when the steamer A. W. Perry's anchor fouled the mud-hook of the tern schooner Advent, tied up at Bissett's wharf. It was only by the tightest squeeze that a disastrous collision was averted. The Perry was backing out of the pier beginning her run to Boston about nine o'clock, but as she added precaution to avoid danger, the anchor was thrown out while the engines were started full speed astern. But the steamer's anchor hooked onto the anchor of the docked schooner Advent, when it made bottom and with the A. W. Perry's propeller churning her sternward the Advent was drawn into the harbor. Three stern hawsers were snapped by the strain and two of the anchor piles were torn out of Bissett's wharf. The bow lines of the Advent, however, and prevented the Advent from colliding with the fish laden schooner Greenwood, which was berthed at Jones' wharf. Had this owner or breeder of pure bred sheep or swine or any owner or breeder who breeds to pure bred rams or boars exclusively may become a member of the associations. Among those present at the meet-

TOO MANY CHILDREN
 are pale and frail—backward in studies—with pinched faces and poor blood—their minds and bodies are actually starved because their regular food does not nourish.

Such children need **Scott's Emulsion** above everything else; it contains nature's rarest life-giving fats; it is essentially food value—blood-food and bone-food, free from wine, alcohol or harmful drug.

Scott's Emulsion often builds many times its weight in solid flesh—its medicinal, tonic and nutritive properties make all good food good.

IT IS NOT A PROP, BUT A FOUNDATION FOR STURDY GROWTH.

Every Druggist Has It. Avoid Substitutes.

A CREDITABLE JOB.—The painting of the interior of the D. G. S. Minto has been completed and the work reflects great credit on those who performed it, Messrs. F. McCorry and Sons. The painting has been exceptionally well done and the vessel presents a very smart appearance in consequence.

IN MOVING PICTURE.—Mr. J. E. B. McCready, Publicity Agent, Charlottetown received a telegram yesterday from a film company asking if the fox people of the province, were open to take a 1000 foot film illustrating the fox industry, for syndicate display throughout Canada and the United States. Mr. McCready is placing the matter before the proper authorities.

WOOLEN MILL PROJECT.—With respect to the proposal to establish a mill in Charlottetown for the manufacture of woollen underwear, a special meeting of the City Council last night further considered the question of making certain concessions to the promoters of the movement. Previously, the Council had decided to allow the woollen manufacturing company exemption from taxation for ten years up to a valuation of \$35,000 and to make them a grant of \$500 a year for five years. The use of concessions did not meet with the approval of the promoters, and in consequence of their dissatisfaction the Council last night considered the question of extending them. After discussion, they did so by removing the limit of \$35,000 and leaving the company the privilege of exemption from taxation altogether for ten years. The Mayor presided at the meeting, at which there was a full attendance of Councilors.

WEDNESDAY.
POLICE COURT.—At the Charlottetown Police Court this morning John Phalen and Albert Heron on charges of drunkenness were each fined \$5 or 10 days. James Lawlor and Joseph Peters on a charge of being drunk and disorderly were each fined \$10 or 30 days; while the cases of Ernest Crosbie and Richard Cahill for a similar offence were held over till this afternoon at 4 o'clock.

LOCAL HISTORY.—The history of Prince Edward Island is in many respects most interesting. It has never yet been adequately written up, because none of the local historians have ever had the advantage of access to those original documents that would furnish a complete record. As far as can be the Canadian Archives is aiming to make a complete collection of all materials bearing on the history of this as well as the other Maritime Provinces and its agents have been travelling throughout Great Britain and France in the interests of this history. The Archives is represented in the Maritime Provinces by Mr. W. C. Milner, who is now making another visit to the Island collecting local material.

WEDDING BELLS.—A very pretty wedding took place in St. Augustine Church at 8 o'clock, on Tuesday morning, Nov. 18th, when Mr. Joseph Gallant of South Rustico and Miss Nazarine Doiron were united in the holy bonds of matrimony. The ceremony was performed by Rev. Father Chaisson. The bride and the groom were attended by Miss Alvina Buote and Mr. Henry Martin. The bride was dressed in brown. After the ceremony, the bride and the groom accompanied by the maid and man of honor proceeded to the home of the bride where they sat down to a sumptuous breakfast. The bride and the groom were the recipients of many hearty congratulations and valuable gifts. The large number who received invitations responded unanimously to the call. Best wishes for prosperity are extended to the newly married couple.—R.

Have You Settled

Whether tea and coffee cause that nervous head ache, irritable heart, insomnia, or the dozen and one obscure aches and pains that are a part of the daily existence of many?

If you are absolutely sure that tea or coffee isn't the "drag," or if you are willing to put up with the discomforts, well and good—

But if steady health and comfort, and the power to "do things" appeal to you, quit tea and coffee and Try

POSTUM

The relief is likely to be so marked; the change so pleasant and easy, that Postum is sure to become the regular table drink instead of tea or coffee.

Postum is a pure food-drink made of wheat and a small percent of New Orleans molasses. It is absolutely free from the drug, "caffeine," found in tea and coffee, or any other injurious substance.

Postum now comes in two forms.

Regular Postum—must be well boiled.

Instant Postum—is a soluble powder. A teaspoonful dissolved in a cup of hot water, with the addition of cream and sugar, makes a delicious beverage instantly.

"There's a Reason" for Postum

Canadian Postum Cereal Co., Ltd., Windsor, Ont.
