Trains are run by Atlantic Standard Time

D. POTTINGER, Gen. Mgr. Can. Govt. Rys. Moncton, N.B.

G. A. SHARP, Superintendent. Charlottetown, Oct. 5, 1903

Boils were so painful could not sleep at night.

APPEARED ON NECK, LEGS AND ARMS.

Burdock Blood Bitters

CURED THEM.

It is well-known to all that bad blood is the direct cause of all skin diseases and it is necessary for the blood to be cleansed before the eruptions will disappear. For this purpose there is nothing to equal Burdock Blood Bitters as the thousands of testimonials we have on hand will testify.

Mr. Willard Thompson, McNeill's Mills, P.E.I., writes us as follows: "I wish to state to you what Burdock Blood Bitters has done for me. Some time ago my blood got out of order and many boils appeared on my neck, legs and arms. They were so painful that I could not sleep at night. After having tried many different remedies without any success, I finally decided, on the advice of a friend, to use Burdock Blood Bitters. Before I had quite used two bottles the boils had completely disappeared, and I wish to emphasize the fact that I think Burdock Blood Bitters the best blood purifier on the market to-day."

Solid Boots

Our reputation for keeping solid leather boots, is well backed up this fall by a complete stock of good, reliable, waterproof boots. We know just what the

Working-Man wants

and we assure you perfect satisfaction if you buy some of CROSBY'S, REDDING and other makes we keep.

You will be benefitted by a talk with us on boots.

All Prices $1.45 up.

READY FOR BUSINESS.

A Ring From Secretary Shaw's Office and the Response Thereto.

One day recently when Secretary Shaw was dictating a letter the door leading into his office suddenly swung open, and there stood a man with a 44 caliber Colt's revolver in his hand. The weapon was about a foot long and was loaded with cartridges the size of a man's thumb. The man's finger was on the trigger, and he seemed ready for business. A friend of the secretary was sitting in the office, and it seemed to him that there soon would be "something doing."

But there was no shooting. The secretary looked curiously at the intruder, and the next instant the latter was apologizing.

"Did you ring?" he asked.

"No," replied the secretary.

"The signal went off downstairs, and I thought you rang. Excuse me, sir."

"All right," said Mr. Shaw. And the man with the gun retired. He was a member of the treasury watch. Accidentally the alarm connecting the captain's room and the secretary's desk was sounded, and he had hastened upstairs to defend Mr. Shaw against a possible assailant.

There is a pearl button at the end of an electric wire at the secretary's elbow, and if he needs assistance against assault a slight pressure will bring the treasury guard to his aid. This contrivance was installed three years ago, after Frank H. Morris of Cleveland, the war department auditor, was assassinated in his office by a disgruntled clerk. Lyman J. Gage was then the head of the treasury, and Frank A. Vanderlip was an assistant secretary. Threats were uttered against both of them, and they immediately prepared for any contingency. Each was given a big revolver, which reposed on a little shelf upon the lid of his desk, and then the desks were connected by electric wire with the office of the captain of the guard. But no one ever offered to molest either official, and their successors likewise have been free from annoyance.—Cleveland Leader.

A New Literature.

A new literature is in process of development. You often hear an intelligent man or woman say, "I always look in the back first." If you carefully seek the reason for this you will discover that in the pages and pages of advertising in the back of the magazines is to be found, not only much that is instructive, but much that is interesting and suggestive in a purely literary way. The modern advertisement is worth looking at, whether it is the sounding proclamation of some big corporation, with facts and figures both weighty and impressive, or the light, eye catching notice of some simple trade or contrivance. All forms of literary composition find place in the advertising pages—history, story, verse. Many advertisements measure up to the test of good literature. In truth, there is often an uncommon amount of character in them. A word here or a phrase there is often singularly vivid as "local color," and behind many an advertisement it is possible to see a vigorous personality.—Booklover's Magazine.

Counterfeit Art.

The archæologist who was chosen some time ago to determine the authenticity of the tiara of Soitapharnes, a supposedly precious relic of the Louvre collection, reported that the tiara was not authentic and that it was executed by a Russian artist of the name of Roukhomorsky. The French government paid $40,000 for the tiara and would probably be willing at present to sell it at a large discount.

While nobody over here is likely to wish the French government any special harm, it must be more or less gratifying to some of the Americans who have paid big prices for spurious works of art to be able to smile at the expense of people who are supposed to know all about art and relics and such things. It is claimed by experts that not more than about one in ten of the Raphaels scattered through Europe is genuine, and if it is so with the Raphaels the probabilities are that a very large percentage of the so called examples of the other masters are counterfeit.—Chicago Record-Herald.

Radium In the Sun.

W. E. Wilson of Daramara, taking the observation that one grain of radium can supply 100 calories per hour, has computed the proportion of radium in the sun which would be required to account for its output of energy. Langley calculated that the sun is producing energy at the rate of 828,000,000 calories per square centimeter per hour, and, taking this figure, it would require but 3.6 grams (about fifty-four grains) of radium per cubic meter (39.37 inches) of the sun's volume to account for the entire energy given out by the latter. Mr. Wilson suggests that possibly at the enormous solar temperature radium may be capable of even more energetic action, and, if so, the 3.6 grams per cubic meter might be reduced to a still smaller amount.

Colored Rain.

The curious phenomenon of colored rain, which occurs in various parts of the world, has at last been explained. In some cases the coloring matter is found to be nothing but the pollen dust shaken out of flowers on certain trees at such times as a strong wind was blowing over them. Fir trees and cypress trees when grouped together in large forests at certain seasons of the year give off enormous quantities of pollen, and this vegetable dust is often carried many miles through the atmosphere by the wind and frequently falls to the earth in a shower of rain. The microscope clearly reveals the origin of such colored rain, which has on more than one occasion puzzled and mystified the inexperienced.

Could scarcely get up or down without help.

Had a severe pain in the small of the back.

Was treated in the Hotel Dieu, Kingston, but not cured.

Kidney trouble was the trouble.

Doan's Kidney Pills

Cured Mr. George Graves, Pitts Ferry, Ont., of a very bad case of kidney trouble.

He tells about the cure in the following words: "I cannot recommend Doan's Kidney Pills too highly. I never took anything that did me so much good. I had a severe pain in the small of my back and could scarcely get up or down without help. I could hardly urinate, but when I did the pain was terrible. I was in the Hotel Dieu, Kingston, last winter and when I came out I was some better but not cured. It was then I saw Doan's Kidney Pills advertised. Since taking them I have been completely cured and have not had any trouble with my kidneys since."

Doan's Kidney Pills, 50 cts. per box or 3 for $1.25, all dealers or

THE DOAN KIDNEY PILL CO., TORONTO, ONT.
