## The Rise is Due to American Financing of Cotton Mills

(Canadian Press)  
BERLIN, Oct. 29.—The rise of money rates in Paris and London causes apprehension here of another general advance in bank rates of England, France, and Germany owing to the troubled political horizon.

Exchange on London here is rising sharply and is already above the gold export point, due chiefly to American financing of cotton mills.

Several provincial failures are reported and others likely to follow.

### SANE GIRL GO TO JOHNSON'S.

CHICAGO, Oct. 29.—Jack Johnson, heavy weight champion, was denounced in the pulpits yesterday as the foe of law and order and many ministers prayed that the negro pugilist might be placed behind the bars for the general good. The most sensational utterance was made by the Rev. Judson B. Thomas, pastor of the First Baptist Church of Austin, to his congregation.

Where Jack Johnson swung from a lamp post and his body riddled with bullets, it would be light punishment for his sins, said the Rev. Mr. Thomas.

The Federal Grand Jury investigation of Johnson and his alleged violation of the Mann white slave act was resumed today with Yank Kenny, the champion's former sparring partner, as the chief witness. Kenny was called to tell the girls taken to the champion's training quarters at Cedar Lake, Ind. More than 100 other witnesses were ready to testify to white girls going to Johnson's training quarters.

### ENCIRCLING WORLD ON STRANGE WAGNER.

LONDON, Oct. 29.—Among arrivals by the President Lincoln was Charles Meyer, of New York, who it is said is carrying out a curious vagary by which he will make a trip around the world without smiling or speaking an unnecessary word. According to his fellow passengers, Mr. Meyer easily won out on the first stage of the journey, nobody seeing him smile, while the only time he was heard to speak was when some one occupied his deck chair, when certainly no unnecessary words were used.

### DOMINION MEDICAL BOARD.

OTTAWA, Oct. 29.—Hon. Dr. Roche, secretary of state, has summoned the first meeting to organize the new Dominion Medical Council, under the terms of the Canada Medical Act, to be held in Ottawa on the morning of Thursday, November 7. There have been representatives appointed from every provincial medical council and also all of the Canadian universities. There are also three homeopathic representatives, while three are yet to be appointed by order-in-council.

Dr. Roddick, ex-M. P. for St. Antoine, Montreal, is the father of the bill, which is designed to have one central medical council, so that a doctor can practice in any province of the Dominion. This organization meeting will elect officers and draft rules and regulations in regard to the examinations, etc.

The Quebec province representatives are Dr. L. P. Normand, Three Rivers and Dr. Arthur Simard, Quebec city. In the universities, Dr. Francis J. Shephard, dean of the medical faculty of McGill, represents McGill; Dr. E. P. Laecheville, dean of the medical faculty of Laval, Montreal, represents Laval, and Dr. Brochu represents Laval, Quebec.

### THE LASH FOR A TORONTO WIFE-BEATER.

TORONTO, Oct. 29.—Ten days in jail with ten lashes to be administered at the end of the fifth day of the sentence was the punishment meted out by Magistrate Denison this morning to Edward Bennett, who confessed to throwing a plate at his wife, and otherwise abusing her. This is the second time Bennett has been in court on a wife-beating charge and as his wife had no means of support, if he was sent down for a long term, the magistrate and assistant crown attorney Hughes decided on this means of punishing him and at the same time letting him out so as to be able to support his wife.

# S. S. CONVENTION HELD AT SUMMERSIDE

(Special by Phone.)  
SUMMERSIDE, Oct. 29.—The annual convention of the P. E. Island Branch of the Sunday School Association which is being held in the Methodist Church here, was called to order by the President, Rev. Robert Murray, of O'Leary, at 10.30 promptly this morning. There was an opening attendance of about seventy-five delegates and workers. Foremost among these workers are the general secretary, Rev. W. A. Ross, J. G. Jardine, secretary of the Provincial Association, and Mrs. Mary Foster Bryner, International Elementary Superintendent. The chief item on the morning program was a conference on Elementary Work, read by Mrs. Bryner. Her report, her personal mastery of her work, her charm as a speaker and her forceful personality combine to make her an ideal leader for such a conference. She said that the Elementary department of the Sunday School work covered the period of early childhood from birth to entrance upon the teens. This is divided into four periods—The cradle-roll from birth to three years—The beginner from three to six years—The period from six to twelve years—The period from twelve years to the character-builder, as made of the character of each period as indicating the line of teaching and treatment. A number of the school representatives have the cradle-roll. But one school,

# A CURE THAT HAD A RELAPSE

PARIS, Oct. 30.—(Special)—A miner of Anyin had been the victim of a serious accident, which made it impossible for him to work. He received however, a small annuity from an insurance company. But one day he had the idea of making a pilgrimage to Lourdes and trying the miraculous efficacy of the waters there. When he left he pronounced himself cured. The cure was bruited about and reached the ears of the director of the insurance company, who obtained from the Courts judgment reducing the miner's annuity by 15 per cent. Unfortunately, immediately after the Court had given its decision, and possibly as a result of it, the miner had a relapse. Such at least is the story vouched for by an anti-Clerical paper.

NEW DOCK REACHES QUEBEC.

### MANITOBA HAS BIG SNOW STORM.

WINNIPEG, Oct. 28.—Thanksgiving day was notable in Manitoba for the first serious snow storm of the season, and which is likely to delay any threshing operations to finish off the crops. Up to midnight two inches had fallen at Winnipeg and at outside points three or more, with a likelihood of more, as a blizzard is probable.

### WHALE SHATTERS TWO STEEL RIBS.

SEATTLE, Wash., Oct. 28.—How a gigantic sperm whale broke two steel ribs of the steam whaler Tyee Jr., and disabled a dynamo and one engine when harpooned off Sitka Bay, Alaska, was told by the crew of the whaler which arrived from Baranof Island.

The battle with the whale began when Sigurd Bliek, a runner, formerly a lieutenant in the Norwegian navy and the champion whale gunnaryman of the Pacific, harpooned the big fellow. The whale dashed at the vessel with terrific speed. The whaler was struck amidships on the port side. The force of the collision increased the whale's fury and after a hard struggle Mr. Whal escaped.

As soon as the bow was struck Captain B. S. Shaw went below and examined the hull. He found that two steel ribs had been broken and the machinery put out of commission by the shock. Men of the crew regretted the loss of the whale, which was nearly ninety feet long, and worth \$1,200 more than the damage to the vessel.

During the six months' cruise of the Tyee Jr., sixty-one whales were hauled.

### SCORE DEFENCE OF EDWARD VII.

LONDON, Oct. 26.—All the newspapers give columns to a review of Edward Legge's book, which is published, King Edward in His True Colors, and which, while apparently intended to refute Sir Sidney Lee's memoir of the late King in the Dictionary of the National Biography, will succeed only, according to some of the reviewers, in presenting England's Peacemaker in an unfavorable light. The writer recalls the King's aversion to journalists and relates how when Prince of Wales he presented one youngster's familiar criticism of a bad shot at billiards by calling his carriage and practically ordering him from Marlborough House.

After berating the Fleet-Street grubs for publishing libellous statements about the King, Mr. Legge tells us the Kaiser was the source of constant irritation to his uncle, who generally managed it wound his nephew's boundless vanity by refusing to pander his desire for show by becoming his stalking horse at parades, naval inspections and side shows.

Mr. Legge charges that another cause of friction was the Emperor's unguarded and reckless criticisms of his uncle's private life, saying the Emperor was foolish enough in the presence of witnesses to contrast his own immaculate career with that of his uncle, all of which was faithfully carried to the King.

### PLANT DIVORCE CASE AGAIN OFF.

BOSTON, Oct. 28.—The divorce suit of Mrs. Caroline Plant, Boston society leader, against Thomas G. Plant, millionaire and founder, was postponed indefinitely to-day in the Suffolk County divorce court.

Today's indefinite postponement again gave rise to the reported reconciliation of the millionaire shoe manufacturer and his wife. None of the lawyers in the case would discuss it to-day. Friends of the couple point to the fact that Mrs. Plant's attachments on Mr. Plant's property have gradually been released, as proof of the reported reconciliation.

### PREST. FOGEL DENIES HE MADE STATEMENTS.

NEW YORK, Oct. 28.—A general denial of the charges brought by the National league against Horace Fogel, president of the league's Philadelphia club, in this city, on Oct. 17, are contained in a letter received from Fogel today by President Thomas J. Lynch. Mr. Fogel's letter expressed defiance of the right of the National league to try his case for alleged statements reflecting upon National league baseball, according to Mr. Lynch, who said the text of Mr. Fogel's reply would be made public on November 26, when the league will meet here to give the Philadelphia official a hearing.

One of the charges brought against Fogel is that in an article published under his signature, he stated the National league race for 1912 was crooked and that President Lynch was certain umpires were working in the interest of the New York club, and that further it was fixed for the New York club to win the pennant. In his letter of reply today, Mr. Fogel denies he ever made such statements.

How does Mr. Fogel explain the fact that such statements appear under his signature? Mr. Lynch asked. He does not attempt to explain that at all, he replied.

He merely makes a general denial of that and other charges, and then declares the National league has no jurisdiction in the matter of trying him for his alleged statements.

### MANY POISONED IN EVERETT.

BOSTON, Oct. 28.—Everett physicians and officials of the Everett Y. M. C. A. to-day made an investigation to determine who or what was to blame for the death of a prominent woman church worker and the illness of a score of other persons after they had eaten supper at the Everett Y. M. C. A.

The physicians were generally agreed to-day in their diagnosis of ptomaine poisoning. As a result, fifty or more persons who partook of the same meal were anxious to-day, fearing they would also become ill.

An effort was made to trace the ptomaines to some item in the bill of fare. This was made difficult, as the various dishes on the tables were all donated by the women. None of the victims to-day would tell just which dish they thought caused the poisoning.

The supper was given by church workers. The woman who died was Mrs. Sarah L. Malone, Everett. She died at the Whidden Memorial Hospital. Dr. A. H. Warren, who was summoned after she became ill, thinks the supper aggravated a chronic internal disorder from which she suffered.

Mr. Jackson has been led to his decision because of the fact that this habit has become so firmly rooted at the school that it greatly interferes with the studies.

The by-election in Hochelaga, which Mr. Coderre has vacated by acceptance of office, will take place at once. The writ was issued today for nomination on Nov. 12 and is returnable on Nov. 25.

### RESULTS OF THE FOOTBALL GAME.

MONTREAL, Oct. 29.—Roughriders tightened up their grip on the Inter-Provincial Championships yesterday afternoon, when they defeated the Montreal team for the second time in three days. The result of the match was almost a foregone conclusion and puts Montreal in last place, having lost four matches without a single victory. The Argonauts, the only team the Rough Riders now having to meet to finish out their season, will be greatly weakened by the loss of Binkley, and without him they can hardly look for victory over the Capital players. The teams will meet for the first time in Ottawa next Saturday and will play back at Toronto the following Saturday. Montreal have two games left to play, they being with Hamilton. The Westmont team was beaten again yesterday by Brockville, which makes it look like the championship of this union as well as in the Inter-Provincial. They have won four games and lost none. Montreal's second team is the runner up with two victories and two losses. The standing of the Inter-Provincial is:

Clubs	Won	Lost
Ottawa	4	0
Argonauts	3	1
Hamilton	1	3
Montreal	0	4

### BECKER REGAINS HIS NERVE.

NEW YORK, Oct. 29.—Lieut. Charles Becker, who has shown signs of a hysterical collapse during the past two days, has regained his nerve to-day and was the same collected, quiet man that he was before he heard himself pronounced guilty of murder in the first degree.

His bitterness of yesterday had disappeared and he had so far recovered his grip that he was ashamed of himself. "I am sorry," he said, "that I was impelled by impetuosity to issue statements in contradiction to the orders of my counsel John F. McIntyre. I have nothing else to say."

Becker to-morrow will face an ordeal just as trying as was his task of listening to the verdict when he is arraigned at ten thirty o'clock for sentence.

In one of his statements yesterday Becker declared that when he was asked if he knew of any good reason why sentence should not be passed upon him he would tell the whole story which he had planned to tell on the witness stand in his own defence. Becker's change of attitude makes it almost certain now that he will make no such address to the court. If he should he will speak against the strongest advice of his counsel. Mr. McIntyre said that he deeply regretted the statements Becker had given out. They were contrary to his orders and that their tenacity was to make harder the work of his lawyers in preparing his case for appeal.

Jack Rose, Sam Schepps, Harry Vallon and "Brigie" Webber, the four informers and chief witnesses in the Becker case, are likely to spend this year, possibly the next two or three years in jail. District attorney Whitman has decided that they must be kept under lock and key until the Becker case is closed. Mr. Whitman will need all four men if Becker should get a new trial, and as it will take a year or more to settle whether or not the former Lieut. is to be tried again, Mr. Whitman does not intend to risk losing his star witnesses by permitting them now to go about their business.
