Relief Workers On Strike At Dundurn, Sask.

(C. P. By Guardian's Special Wire) DUNDURN, Sask., Dec. 16.—The Rig Camp Commission, in an effort to end a strike of workers at Dundurn relief camp today offered to reinstate two men ordered evicted last week, but the dissenting workers refused to accept the peace offer.

It was the dismissal of Albert Arnold, 19, Winnipeg, and Jack Harrison, 18, Toronto that led to the strike of the men last week. There are now 800 idle men in camp.

R. A. Rigg, chairman of the commission investigating relief camp conditions, addressed the men at a strike meeting, assuring reinstatement of Arnold and Harrison if the men returned to work.

Next Humphrey Mitchell, second member of the commission, urged the men to end their strike and Lawrence Blacken, chairman of the strike committee counselled similar action. Their pleas fell on deaf ears.

Col. F. W. G. Miles, superintendent of the camp, said the two men were sent to their homes last Thursday to keep them away from radical influence.

Will Abandon Steamship Service

(C. P. By Guardian's Special Wire) WELLINGTON, N. Z., Dec. 16.—(C. P. Cable via Reuters)—Prime Minister Michael J. Savage today discussed with members of his Government the forthcoming abandonment of the British steamship service now connecting New Zealand with the United States and Australia.

Following conferences with representatives of shipping companies here, the Prime Minister said the Government would take up early in the new year the question of preferences for British lines. Hon. Alexander Shaw, Chairman of the Peninsular and Oriental Steam Navigation Company, told a shareholders' meeting recently that British services in the Pacific could not be continued in competition with foreign services receiving Government subsidies.

ANTI-JAPANESE RIOTING IN PEIPING

Copyright, 1935
By The Associated Press
(By Guardian's Special Wire) PEIPING, Dec. 17.—(Tuesday)—A night of fierce rioting against "Japanese aggression" in this ancient Chinese city left 60 student patriots reported wounded today and drew quick warnings from the Japanese military.

The Rongun (Japanese) News Agency reported General Sung Chieh-Yuan, forced to postpone the inaugural meeting of his semi-autonomous council for Hopei and Chahar provinces, announced he would expel Dr. Hu Shih, noted scholar and author of demonstrations Chian-feng-Lin of the National University of Peiping, to the south.

Marooned In City
Thousands of demonstrators from outlying universities, marooned in bitter wintry weather inside the locked city, howled anti-Japanese slogans throughout the night.

Police charged the rioters with swords, gun butts and fire hoses and the Japanese military attaché, Lieut. Col. Tan Takashi told Mayor Chieh Yeh-Chun that demonstrations violated a Sino-Japanese understanding and must be halted.

As the riots raged, Kalgan, Great Wall gateway city a little more than 100 miles northwest of Peiping, was the scene of the newest Japanese military seizure. Japanese troops armed with mortars and machine guns were thrown around the Kalgan railway station and a virtual state of emergency was in effect.

Defy Volleys
The student demonstrators, surging through Hispienman gateway in defiance of rifle volleys directed over their heads, called a national student strike in a mass meeting held at Chienmen railway station, outside the legation quarter.

Seven thousand attended the rally. They called for abolition of the semi-autonomous Hopei-Chahar Council and voted to denounce Sino-Japanese negotiations and to oppose autonomy in a nation-wide circular.

The inaugural meeting of the Council, composed of Sun Chieh-Yuan, and 17 other North China leaders, regarded as predominantly pro-Japanese, was delayed indefinitely.

Eastern U.S. By Canadian Cattle

(C. P. By Guardian's Special Wire) BRANTFORD, Ont., Dec. 16.—More than 500 pure bred Holsteins were exported by Canadian breeders to Eastern United States during November, it was announced today by G. M. Clemens, Secretary of the Holstein Friesian Association of Canada. Bulk of the shipments were from Ontario and Quebec, but the Maritime Provinces also shared in the trade. Sales have been made to importers in New York, Pennsylvania, Vermont, Massachusetts and New Jersey.

Prices are holding steady at from \$100 to \$150. The average price on a carload of good commercial fresh cows runs from \$100 to \$120.

Carry Pebbles As Souvenirs

(C. P. By Guardian's Special Wire) KANSAS CITY, Dec. 16.—Jean Hersholt, film character actor, is carrying pebbles to Hollywood, of all places.

Hersholt, returning from Callander, Ont., where he was photographed with the Dionne quintuplets in the role of Dr. Allan R. Dafoe for a forthcoming picture, dragged the pebbles from a pocket of his checkered woolly suit.

"For some Hollywood friends, he explained, "who have wanted children for a long time. These I picked up around the hospital."

"I have been informed by the North Bay Nugget, paper of a town near Callander, that the birth rate thereabout has jumped considerably since the Dionne feat. And as you may know, half of the 200,000 visitors at Callander this year carried away a pebble or two from the hospital grounds."

To Amend Franchise And Elections Act

(C. P. By Guardian's Special Wire) OTTAWA, Dec. 16.—Intensive study of the Dominion Franchise and Elections Act preliminary to the bringing down of amending legislation at the coming session of Parliament will be started early next month by Harry Butcher, barrister of Puchich, Sask., and former Liberal member for Last Mountain, it was announced late today.

Elimination of the annual revision of the federal voters' list costing between \$400,000 and \$500,000 is the chief objective.

The work will occupy from two to three months and will entail a survey of similar legislation passed in Great Britain.

Mr. Butcher, who has been in Ottawa for several days, will leave tomorrow for his home in Western Canada; but will return here shortly after New Year.

BIG DEMAND FOR COPPERS

Mint Production Of One-cent Coins Will Total Over \$7,500,000.

(C. P. By Guardian's Special Wire) OTTAWA, Dec. 16.—The annual pre-Christmas demand for one-cent pieces has set in. Last week the Canadian mint turned over to the banks 1,100,000 new one-cent coins and this week almost 1,000,000 will be added.

Even with this injection of new currency there was a pronounced shortage of coppers in Toronto last week, and outside bank branches with a surplus of the old large one-cent coins shipped them to that city to meet the emergency. Christmas business and the tendency of stores to fix prices so that coppers are required to make change are responsible for the demand.

At this time there is also a demand for five cent pieces but the nickel requirements do not compare with the coppers. In the early days few coppers were seen west of Winnipeg but with the spread of the chain and department stores, they are now much used on the Prairies as in the East.

Canada this year will issue over 7,500,000 one cent pieces. Some years it has run as high as 20,000,000, yet very few ever return to the mint. Mint officials are inclined to the belief that a large portion of them must be lost. The ancient admonition "watch your pennies and the dollars will look after themselves" is evidently lost on Canadians.

Find Elaborate Still Cunningly Concealed

(C. P. By Guardian's Special Wire) THREE RIVERS, Que., Dec. 16.—Hidden behind a large iron door in the centre of the home of Raoul Champagne, an elaborate still with a capacity of 40 gallons daily was uncovered by Royal Canadian Mounted Police officers in a surprise raid here Saturday.

Cords situated at strategic places throughout the house which could be pulled to empty the still into the city's sewers were discovered in the raid. The still was said by police to be the finest ever discovered in Three Rivers.

Roger Bellemare, of Three Rivers, who entered the house while police were conducting investigations, was taken into custody when he drew a bottle from his pocket and tossed it into the still. He was arraigned yesterday on a charge of being in possession of illegal alcohol and remanded for preliminary inquiry Dec. 20 by Judge Alfred Marchildon.

Police who staged the raid stated action will also be taken against the owner of the house and another man who entered shortly after Bellemare.

WASHINGTON, Dec. 16.—(A.P.)—Secretary of the Treasury Morgenthau today announced the receipt of \$230,463 from Finland in full payment of its war debt instalment.

AUTOMOBILE MAKERS APPEAL FOR PROTECTION

(C. P. By Guardian's Special Wire) OTTAWA, Dec. 16.—Tariff rates on automobiles were thrown open to debate before the Tariff Board today. Motor manufacturers and others interested turned out in force to air their views. The motor manufacturers had the first innings and E. H. Long, representing the Canadian Automobile Chamber of Commerce presented a lengthy brief urging the intermediate tariff be raised in order to make the duty rates on cars from the United States the same after the United States Trade Treaty comes in effect as before.

The Canadian Automobile Chamber of Commerce includes five manufacturing companies, General Motors of Canada, Chrysler Corporation of Canada, Hudson Motors of Canada, International Harvester Company of Canada and the Studebaker Corporation of Canada.

Justification of the spread between the price of motor cars in Canada and in the United States was found by this body in higher manufacturing and distribution costs in Canada. It was argued the American manufacturers enjoyed mass production on a scale far greater than was possible in Canada. Taxes and duties payable by Canadian producers on parts and materials also added to their cost and the Canadian automobile dealers had to have a larger discount because of a smaller volume of business.

In 1934, the brief stated the average profit per car made by the five companies was only 75 cents. For a Canadian car used as an example the selling price was \$992.10 and for the same car the American price was \$728.37. On this amount duty and taxes accounted for \$74.67 or 23.3 per cent; dealer's margin, \$69.88 or 25.5 per cent; excess cost of Canadian materials by reason of customs duty and taxes \$62.22 or 23.6 per cent; and labor, materials, factory expense, commercial and advertising expense and allowance for profit for \$56.98 or 21.6 per cent.

Skipper Peeved, Freighter Refused Aid

NEW YORK, Dec. 16.—Captain Victor Malone of Miami, Fla., a skipper without a command, arrived in New York aboard the liner Siboney ready for fisticuffs with the man who, he says, refused to aid him when the Hallie K. foundered.

"If I can only get hold of the skipper of the Stella," he promised, "we'll settle it pronto on the floor."

The boat which drew almost alongside in a storm off the Florida coast last Friday he could identify no better than that it was named Stella and was a freighter.

The Siboney came upon the Hallie K., a few hours later, when water in the schooner was six inches over the floor boards.
