## The Tortures of Dyspepsia Corrected by "Fruit-a-lives"

St. MARTIN'S, N.B.  
 "For two years, I suffered tortures from *Severe Dyspepsia*. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth.  
 I tried doctors, but they did not help me. But as soon as I started taking 'Fruit-a-lives', I began to improve and this medicine, made of fruit juices, relieved me when everything else failed."

# LIFT OFF CORNS!

Freezone is magic! Corns lift off with fingers without pain

Hurt? No, not one bit! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift that bothersome corn right off. Yes, magic! Costs only a few cents.  
 Try Freezone! Your druggist sells a tiny bottle, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the mysterious ether discovery of a Cincinnati genius.

# CATCHING ELUSIVE PENNIES.

Some people who have an erroneous idea of the value of money think that nothing less than a \$1 is worth saving. To these the attempt to gather up the idle 25 cent pieces in Canada though the sale of Thrift Stamps does not appeal strongly. Well, Great Britain thinks it worth while to sell Stamps worth only 6d. In the schools of New York State the War Savings organization is accepting even a single cent from scholars. So in comparison with what is being done in Great Britain and the United States the Canadian 25c. piece looks large.

# Expected All Ireland Will be on Strike

LIMERICK, April 21.—Limerick has original notions on the subject of strikes. Never before has the city voluntarily abandoned every form of government in order to ventilate its grievances. There has been no fire-works nor outward excitement of any description. Passivity is the watchword. All shops are shut and offices closed, and only a few private vehicles are running. For the last two nights the city has depended on candles for illumination. The people are uncertain whether it is Sunday or a holiday. They just loiter against the shop windows or stroll aimlessly about the streets.

The conduct of the general strike will pass on Monday from the Limerick Trades Council to the Irish Trades Union Congress, whose headquarters will be moved from Dublin to Limerick. The Congress is the executive authority of labor members in Ireland, and its removal means united support for the Limerick strike.

A meeting of merchants, employers and strikers, summoned by Mayor O'Hara, was held this afternoon to discuss the situation. A resolution was adopted protesting against the establishment of a military area, and demanding instant and unconditional withdrawal of the military cordon.

John Cronin, chairman of the strike committee, in an impassioned speech, announced the removal of the labor congress to Limerick and declared: "Within a few days the workers of all of Ireland will be doing what you are doing. We know our responsibility and will stay on strike until we get what we want—the right to go to work without a military pass."

The strike restrictions are very severe in Limerick; only provisions, coal and milk stores are open for a short time daily.

The correspondent was compelled to get a sealed permit from the strike committee in order to purchase necessary wearing apparel, and it was utterly impossible to induce merchants to supply this need without the committee's formidable document. Strike pickets are distinguished by red rosettes, and already they have been dubbed the "red army."

# DIAMOND CUTTING TRADE OF ANTWERP COMING TO ITS OWN

LONDON, April 21.—Antwerp, which lost its extensive diamond cutting trade while it was occupied by the Germans, is rapidly recovering its place through the return of thousands of diamond cutters who sought refuge in England and Holland.

When the city fell into the hands of the Germans, diamond merchants, brokers, cutters and polishers fled to England and Holland. Most of them were Jews. They were quickly absorbed in the diamond trades of the countries to which they fled. In London they settled at Hatton-Garden, set up business and quickly became prosperous.

With the armistice many of them returned to Antwerp, but others remained, and this finally aroused the Burgomaster of Antwerp who wanted the industry restored to its old basis. Tempting offers were made but masters and men among the Jews declined all offers unless they were recognized as the Jewish nationality instead of as citizens of the countries in which they were born. The question went before the authorities in Brussels, and the demand of the men was granted.

It is stated in London that diamond merchants and workers of all nationalities, except Germans and German Jews are now to be admitted to Antwerp, and hundreds of them are hurrying to the city. Their former houses are to be restored to them and the furnishings and equipment are to be replaced by the authorities. Before the war, the Saturday night boat from Harwich to Antwerp was crowded with London brokers and merchants, their pockets filled with money with which to buy Antwerp diamonds.

Sunday and Monday would be given over to bargaining, and Monday night would see the same crowd on their way back, their pockets filled with diamonds instead of money.

It will be several months before shipping arrangements will be such as to permit Antwerp to entertain buyers in considerable numbers, but diamond authorities are of the opinion that before autumn comes the city will have firmly re-established its profitable premier industry.

# ANOTHER OF CANADA'S MERCHANT FLEET LAUNCHED.

MONTREAL, April 21.—The Canadian Vickers plant, Maisonneuve, was the scene of a representative group of citizens on Saturday afternoon when the "Canadian Ranger," another ship of the Canadian Government Marine of 8,100 tons was sent into her native element.

The management announced that the "Ranger" was the fifth vessel to be launched in connection with the Government shipbuilding programme and three of these had been constructed in the Vickers yards.

Hon. C.C. Ballantyne, who was present at the launching stated that at the present time the shipbuilding industry of the country, although in its infancy was giving to 25,000 men in Canada and mechanics of all kinds, a means including boiler and enginemakers of earning an honorable living and at the same time the industrial activity of Canada was being given an impetus that could not be over-estimated. "If," he said, "Canada is to possess a carrying trade she must have a mer-

chant marine and it will be the pride of all to see the country's flag on every sea.

The Minister concluded his address by thanking all concerned on behalf of the Department and the Government.

# FEATURES OF THE AWARD IN THE EXPRESS STRIKE.

HALIFAX, N.S., April 21.—An eight hour day effective May 1, a wage increase of \$26 per month, effective as to February 1, 1919, on the rates paid January 1, 1918, overtime from eight to ten hours, pro rata upwards of ten hours, time and a half, and mileage of one and one quarter cents for messengers travelling upwards of 6,000 miles per month were the features of the award given out today by the Railway Board Adjustment No. 1, which had been charged with the task of mediating between the Canadian Express Company and its employees, members of the Canadian Brotherhood of Railroad Employees, following a seven days' strike, precipitated by the company failing to abide by the decision of the board of conciliation appointed under the Industrial Disputes Act for the purpose of investigating the dispute. The award which was received at headquarters of the Brotherhood here today follows in the main the majority judgment of the conciliation board. Grand officers of the Brotherhood here express themselves as being very much pleased with the fight put up by the men and the manner in which they conducted themselves during the strike, not a single defection from their ranks being reported.

Oxfords for women will be very popular for Spring and Summer, 1919. Many stylishly dressed women prefer the graceful lines of this model with Louis heel and spray tip, in black leather or brown.

# Why Do We Advertise?

YOU may think that because we are big manufacturers, and you are only one consumer out of several million, we have no special interest in you, and you have no real interest in us. Nothing could be farther from the truth than that.

Our future as manufacturers depends in the end, upon just one thing: the satisfaction which our product gives to you, the consumer. And your satisfaction depends to a large extent upon the attention which you yourself give to the buying of shoes.

For, bear in mind this fact: no matter with what care we select the materials which go into a shoe—no matter how perfect the workmanship may be—it will not give you the full measure of satisfaction unless it is correctly fitted to your foot. And that is something which we cannot control.

We do insist that the materials which go into our shoes shall be the best quality possible at the price: we do make sure that the workmanship is as nearly perfect as our human organization can make it—but we must stop there. We cannot insure ourselves that you will buy the type of shoe which will give you the best service, or the size and width

which alone can give you comfort and satisfactory wear.

And so we speak to you through this advertising—the only method by which we can hope to reach you all. Our object is not merely to sell more of our shoes. We seldom ask you to buy A. H. M. shoes. Our purpose is rather to tell you how you may obtain better comfort and better service from the shoes you buy.

Of course we hope that you will buy A. H. M. shoes, and we are confident that sooner or later you will do so. But we want to make sure that when you do buy them you will get all the comfort and satisfaction which we try to build into them.

Our booklet, "How to Buy Shoes" goes into the subject more fully than is possible in newspaper space. It is sent on request to any address in Canada. May we send you a copy with our compliments?

# WAVE OF CRIME SWEEPS CHICAGO

CHICAGO, April 21.—Forty-eight hours of extreme violence caused Chief of Police Garrity to summon all commanding officers to his office and warn them that unless there was unremitting efforts to check the crime wave, some of them

would face the trial board. Up to today records of the Chief's office showed that since January 1 there had been 43 murders in the city, 29 deaths by manslaughter, and eight homicides, a total of eighty killings in 108 days. In addition, 202 stores had been robbed, 94 saloons held up and looted, and three ticket sellers

render their cash. Three causes were given by the Chief for the reign of lawlessness—discharge of criminals from the army; employment; too few policemen.

That down tilted hats which completely hide the faces of their wearers from view were the prevailing note in spring millinery at the recent fashion show in New York.
