MOVEMENT FOR SETTLEMENT OF A STRIKE GIVES PROMISE OF ENDING IN SUCCESS.

NEW YORK, November 3. — The movement for a settlement of the strike of express companies drivers and helpers, which has practically tied-up express business in and around New York city for a week past, took a more definite form today with the announcement that representatives of the companies would meet representatives of the men today to discuss plans for ending the strike. The meeting was scheduled to be held in Jersey City at three o'clock. Indications are that both sides will enter the conference with a willingness to concede something, and the prospects for a settlement look bright. Earnest effort to adjust grievances and a resort to arbitration if the joint conference failed of agreement, seems to be the program.

Pending the proposed meeting this afternoon, no developments were looked for in the arbitration proposition made by the men through the National Cubic Federation and Mayor Gaynor yesterday. The companies seemed to prefer meeting the men's committee first and trying for a direct adjustment before placing their interests in the hands of arbitrators.

The companies claimed considerable progress toward clearing up the congestion as a result of yesterday's movement of wagons. They planned yet more extensive operations today under the usual police protection. No early disorders of moment were reported.

A FASCINATING DRAMA.

The peopling of the great Canadian west is a fascinating drama, whether we view it from the large or the small end of the telescope from the point of the great railroad built by throwing a steel spine across the continent, or from under the arches of transportation line. The line of the Grand Trunk Pacific across Canada is essentially the belt of hopes. Who is it that answers the call of the West? The young, the brave, the hopeful, the helpful, says Miss Agnes Deans Cameron in the march issue of the "Magazine of Commerce." The writing tools to write the drama are the strong arms of men and of faith-possessed women. It is a goodly play for the world to watch. The first scene is enacted on the prairie farm where the virgin sod is turned under to a crop of wheat for the first time since creation's dawn. The second scene is the grain elevator, red

against the setting sun, and the waiting wheat train of Grand Trunk cars. Our drama closes with the loaf of bread clutched in the eager grasp of the little child in some crowded city of the old world.—Manchester, Eng., City News, March 19th, 1910.

No doubt about an enamelled bed's hygienic merit: none about its beauty. Nor any about its being worth its price—if it bears the "Ideal" Guarantee on the footrail. That Guarantee assures you of more than mere surface excellence. It warrants real satisfaction to the buyer. Its snowy enamel will stay white; its parts will not work loose. ANTHRACITE COAL TRUST ARRANGED.

WASHINGTON, Nov. 3.—A sweeping denunciation of the Delaware, Lackawanna & Western Railroad Company, in which it is charged with repeatedly attempting to drive a competing company out of business, and an arraignment of the so-called "Anthracite Coal Trust" are contained in a complaint filed with the Interstate Commerce Commission today by the Marian Coal Co. of Wilmington (Del.) Reparation in the sum of \$55,239 because of alleged excessive charges is demanded.

The statement sets forth allegations of one of the most remarkable series of business harassments ever figuring before the commission. It not only attacks the alleged unjust and discriminative rates to which the Marian company has been subjected, as based on a monopoly maintained through the device of the "Temple Iron Company," the directors of which are the presidents of the railroads, constituting the "Anthracite Coal Trust," but charges attempted dictation of production, interference with prospective purchasers of the plant, diversion of water supply and heaping of fuel on a fire that threatened destruction to the Marian company's washery at Taylor (Penn.)

The Marian washery is on a Lackawanna division switch, which also serves three collieries alleged to be long to the Lackawanna interests. The complaint sets forth various acts as preventing equality of conditions as between the Marian and alleged favored competitors, "who constitute the trust."

Where They Will Go

The Trip that is arranged for the entertainment of our Two Guests will not be merely an ocean voyage but a Tour Combining the pleasures of the water with those of the land. Our party will sail on the steamship "Bermudian" which is a handsome and luxuriously fitted twin screw steel steamship of 5,500 tons, specially built for the Quebec Steamship Company. One noticeable feature, and one that insures immunity from sea sickness, is the bilge keels that this spacious ocean palace is equipped with preventing it from rolling. After enjoying a forty-five hour Ocean Voyage the party will land at Hamilton, the Capital of Bermuda. The many pleasures to be realized will then be taken advantage of. On all parts of the island driving is a delight, owing to the absence of dust or mud on the hard coral roads which liberally intersect the islands. Our guests will take a drive to St. George's a picturesque old town, once the capital of the islands. A visit will be made to the Devils Hole, to view the remarkable collection of many species of beautiful tropical fishes. A steamboat trip to the Reefs will also prove an attractive feature. While in New York entertainment will be provided for our Guests which will consist of sightseeing, with a theatre party to finish with. The many pleasing conditions that will exist for the enjoyment of our campaigners will be a treat never to be forgotten.
