FLOODS DECREASING.—Friends of Mrs. Alice M. Silver, of Boston, a former Charlottetown lady, will be glad to hear that she has received a telegram from her son Mr. Cyril Silver, California, where he has large land interests, telling her that he passed safely through the recent terrific floods, which are now abating.

THE BAPTIST CHURCH.—The morning sermon, by the Rev. Harvey L. Denton, B.Th., B.D., will be "The Dog in the Manger." For the evening service Mr. Denton will deliver a sermon on "The Value of a Man." The Church School has its regular session at 2.30 P.M. The two senior groups will meet at 12 o'clock immediately following the morning service. The music of the day will include "All are a Part of our God" sung to an old German setting, the words by St. Francis of Assisi. The evening service will open at 6.45 P.M. with a fifteen-minute period of congregational song service.

HABEAS CORPUS PROCEEDINGS.—An application for Habeas Corpus on behalf of Cornelius J. Campbell, recently committed for trial on a charge of criminal breach of trust, was heard in Supreme Court Thursday. In a judgment yesterday Mr. Justice A. C. Saunders quashed the committal for trial and ordered the prisoner released. Attorney-General Thane Campbell, K. C., and Mr. A. Larre appeared for the Crown and J. O. C. Campbell for the accused. The committal was quashed due to a technical irregularity in connection with laying the information, it was said. Permission of the Attorney General to proceed with the case should have been obtained prior to the opening of preliminary hearing. The case would be proceeded with again, it was announced.

S. P. C. A. Notes

Inspector McLean reports this week: One pig (sick and too far gone to save) humanely destroyed. One fox-hound found and not claimed—owner wanted for him. One female St. Bernard dog found at large; was later claimed by her owner. Two cats destroyed. One dog treated for injury to eye. Several dogs treated for ear-mite. Routine inspection of horses, etc. One dog humanely destroyed yesterday afternoon. This dog was badly mangled by a hit and run driver. We often hear the remark "animals can't think—they do everything by instinct." Read the following story for yourselves.

A family with a summer home at Holland Cove had two horses, "Monty," a big, powerful black horse, and "Racine," a beautiful little blood mare. Monty and Racine were pals, and did not like being separated. When the family was at the Cove in the summer, the two horses were there to make the trips to and from the ferry (this was in pre-war days in P. E. I.), while the other one remained in town. Racine was the one usually kept at camp and she didn't mind unless Monty was there to enjoy the holiday with her. One day when Racine was allowed out to range, with a light drag attached to her rope, she managed to break the rope, and disappeared. Her absence was not discovered until late afternoon, and a search of the vicinity failed to discover her. When it was decided she had gone down to the ferry and would be brought back by some of the male members of the family when they came over on the last boat. This is exactly what did happen. When they arrived at the ferry to make the last trip of the day to Rocky Point, the Captain said: "Say, your old mare is aboard; she's made six round trips and she hasn't paid her fare." He continued: "When we got to the city first trip, she tried to get off, and I had to tie her up. When we got back to Rocky Point we we got her off, but no sir—she wouldn't budge, so we had to take her back again. Every time we went to town, she tried to break away and land. When we returned to Rocky Point—nothing doing." Her fare paid, Racine very reluctantly and dejectedly accompanied the boys back to camp.

TO LATE TO CLASST.—Members of the Catholic Women's League of the Charlottetown Diocese intending to make hotel reservations in Quebec City during the National Convention June 19th to 23rd and the National Eucharistic Congress June 22nd to 26th may procure application forms and information by communicating with the undersigned before March 25th.

The Week At S. D. U.

Rev. George Bradley, S. J., who conducted the annual Retreat which closed Tuesday afternoon, left yesterday for St. John where he will conduct missions.

There was no debate this week as permission to go to town was given Wednesday night, the usual time for debates.

The Third Corridor Dalton Hall team was victorious in the Intra-Mural League, defeating the First Corridor 2-0 in the final game Tuesday afternoon. Though the series was for the best in three games another game had to be added to decide the victory. Line up of the winning team: P. Holland, H. Hennessy, Rev. Father O'Hanley, P. Pronke, H. Landry, F. Pineau, J. Maher, G. Steele and W. MacDonald.

THE SALVATION ARMY.—Special services this Sunday will be conducted by Adjutant and Mrs. Lynch in the local S. A. Corps. In the evening service, Corps Cadet Certificates will be presented to those who merit them. This Sunday is being observed as Prison Sunday throughout Canada by the Army. Wherever possible services will be conducted in all jails and prisons by S. A. officers. In the prison work the Army's aim has been to minister to the souls as well as body. During the year around two thousand and five hundred meetings have been held in jails and prisons in Canada and over seven thousand prisoners have been assisted in some manner or other. The experience of the army goes to show that there is no factor in the permanent reformation of the wrongdoer so powerful as the religion of Jesus Christ and in every effort to assist those who have broken the law this fact is kept foremost and undimmed. On Friday, March 11th, the Summerside Local Association held a very successful afternoon tea at the home of the Secretary, Mrs. Thane A. Campbell, having as its aim funds for the organization of the 1st Brownie Pack in Summerside. About \$20 was realized.

The tea table was fittingly decorated with miniature toad stools and brown owls, while in another room was the larger toad stool and owl, with dolls dressed as Brownies sitting around it.

Mrs. Campbell and the Division Commissioner, Miss O. Holman, received the guests, Miss Mary Hunt and Mrs. G. W. Hogg, poured. They were assisted in serving by the other members of the Local Association and the Guides and Guides of the 1st Company, Virginia Campbell, in her uniform tended the door.

Altogether it was a lovely tea and we feel that the Brownies are now well under way in Summerside. The Local Association have given them their toad stool and brown owl.

Last Monday night was quite cold in Summerside, but the whole Company turned out for a hike to Miss Tanton's home in St. Eleanor's. There the Guides all joined in a hearty sing-song and games.

Miss Tanton and the Division Commissioner for Prince County, Miss Holman, served a delicious lunch to the girls.

On the way home, although it was very late and cold, the Captain, the 2nd Lieutenant, the Brown and Tawny Owls and two of the Patrol Leaders hiked out to Sherbrooke with a Guide who was rather timid at the thought of going home alone. Besides doing their Guide good turns they accomplished two of their 3 mile walks for the 2nd class badge in one night.

Jennie Turpel has the distinction of being the first Guide in the Summerside Company to pass all her second class tests. Other girls are nearly through.

There are several new recruits about town, Grace, Romcke and Irene Allen, are to be enrolled at the next meeting. So the pioneering 1st Summerside Company is progressing, but what they would like is another Summerside Company to compete against!

PROCEEDS OF TELEPHONE BRIDGE

The members of the Provincial Council and the Charlottetown Local Association are pleased to announce that the proceeds of the Telephone Bridge held a few weeks ago amount to \$108.48 and wish to extend sincere thanks to all who helped make this enterprise a success.

1ST MELVILLE COMPANY

This is one of our oldest out-of-town Companies and has been steadily progressing for several years under the capable leadership of Miss Mae Gilmore and Miss MacKenzie, in spite of being so far removed from other Guide Companies.

The Guides, however, are now glad to have a Scout Troop in the district. On February 26th, a get-together of Guides and Scouts was held at the home of Mr. and Mrs. Murdock Gilmore, in the form of a very enjoyable social evening.

1ST ST. ELEANOR'S COMPANY

This Company was formed last Autumn with Miss Frances Hunt as Captain and Miss Charlotte Muirhead as Lieutenant, and is making very satisfactory progress. On March 1st a most enjoyable party was held at the home of Mrs. Percy Crosby in aid of Company funds.

These Guides keep in close touch with their sister Guides in the Summerside. On March 4th the Summerside girls hiked to St. Eleanor's to attend the regular meeting of the 1st St. Eleanor's Co. In spite of cold weather the turn-out was good.

5TH CHARLOTTETOWN BROWNIE PACK

At the regular meeting of the above Pack on Monday, March 2nd, showing their co-operation and interest. Parents are always welcomed at the Headquarters of this Pack, the K. of C. Hall.

On Saturday the Brownies hiked to the Experimental Farm where a very happy time was spent in coasting.

Much interest is being shown in the tests and two Golden Bars are expected to be won soon. Watch for them.

The Pack is pleased to welcome their new Pack Leader, Blanche Hogg, Girl Guide, who will be a great help.

1ST SUMMERSIDE BROWNIE PACK

Chat Body of Hours

By James W. Barton, M.D.

THE WONDERFUL EFFECT OF A FEW MONTHS OF TRAINING

In the Boston Marathon race a few years ago research workers of Harvard University examined the blood of the runners immediately after the race. They found that the blood of those who finished well up in the race and those in good condition at the finish, was rich in sugar, and in those who finished near the end of the list of were in poor condition at the finish, the blood was poor in sugar. It was suggested that those who finished low down on the list or were in poor condition at the finish that they use more sugar during their training the following year, and that during the race itself they eat some sugar.

Without exception these runners finished further up in the race than they had been the year before. D. H. Adams, who was marked as being all due to the presence of more sugar in the blood. In Europe a research worker, Ove Boje, found that the height of the blood sugar level remains about the same or falls but slightly in trained individuals during one hour of average work, while an increase of 60 percent in the amount of work done causes marked increase in the amount of sugar in the blood.

In untrained individuals there is nearly always a decrease of blood sugar during work and the amount becomes still less as the work increases; but this decrease disappears after a few months' training. This means then that an individual with a well trained body can continue to work for a long time without exhausting the sugar in the blood. In fact instead of the sugar in the blood increasing, it actually increases. Areas in an individual not in shape or not in training, the blood sugar is soon exhausted and he cannot continue to work because of lack of energy. But, and this is the point for all of us, "this decrease in blood sugar in the big untrained individuals disappear after a few months' training."

Just think then of the wonderful effect of exercise in that a few months' training will put the average healthy individual into such physical condition that his blood sugar will not decrease but remain at a normal level or actually increase during work or exercise. Truly Gladstone realized this when he said that "All time and effort spent in training the body pays a larger rate of interest than any other investment."
