QUESTION ONT. ELECTORS HAVE TO DECIDE

War on Bootleggers, Says Premier — 218 Candidates for 112 Seats.

TORONTO, Nov. 13. — Today, one week from the nomination day in Ontario, 218 candidates of the various party affiliations or independents are in the field. While this number is also sufficient to provide a contest in each of the 112 ridings, a half dozen or so are still uncontested and in a few others only one candidate is so far campaigning. The lists will probably be filled next week for there is no definite expectation of acclamations.

Premier Ferguson at London last evening gave his definition of the question Ontario electors have to decide on Dec. 1.

"They have to decide whether liquor, including poisonous concoctions, shall be allowed to percolate through all sections of the province through bootleg activities or whether we shall direct the liquor through one channel, where we shall know everyone who buys, how much he buys and have the means available to cut off his supply if he abuses the privileges extended to him."

Mr. Sinclair, at Ingersoll last evening, asserted that Premier Ferguson's policy was "pledge-breaking." By injecting the liquor question into politics in the face of his declarations that he was against such a course and that if the people voted to retain the Ontario Temperance Act in the last plebiscite the act would be maintained, the premier had not only violated his pledged word, Mr. Sinclair said, but had broken the unwritten law of the province.

AN UNDERSEA RUM-RUNNING CRAFT SEIZED

Like Submarine, but Without Motors — Taken in Lake Champlain.

ST. ALBAN'S Vt., Nov. 13. — An Undersea rum running craft described by the customs authorities as a "submarine without motors", was seized on Lake Champlain last night with 4,800 bottles of ale, it was reported here today.

According to word reaching the collector of customs here the seizure was made in Canadian waters by the Royal Canadian Mounted Police for the U. S. authorities off Fort Montgomery, N. Y.

Late last night the submarine which was anchored in a cove off the fort and not more than 200 yards north of the imaginary border line, was boarded by a squad of troopers who rowed out to the boat. United States Deputy Inspector Cheney was with the Canadians in an official capacity and checked the cargo, counting 4,800 quart bottles of ale.

A week ago today this same craft reported beached at Grand Isle, caused considerable comment until Captain Kendrick explained its construction and use, it is the third of such boats to be seized on Lake Champlain this season.

Cut in Tire Prices Announced

(Special to the Guardian)

NEW YORK, Nov. 13. — A reduction of from 10 to 20 percent, in the price of tires and tubes was announced today by the Fisk Rubber Company, the cut being effective Manday. A material drop in the price of tires and tubes for automobiles may be looked for some time next week, according to C. H. Carlisle, vice-president and general manager of the Goodyear Tire and Rubber Co., of Canada, Limited, who was interviewed today following the reception of the above despatch.

"I have not been advised of the cut myself as yet," said Mr. Carlisle, "but just the same I knew it was coming. The price has nothing to do with the reduction, its genesis is the direct result of the drop in the common market."

PIRATES KILL AND LOOT ON FRENCH CRAFT

Steamer Hanoi Boarded and Ransacked After Guard Shot.

HONG KONG, Nov. 13--Twenty-six pirates boarded the French steamer Hanoi at Kwangehouwan, south of here, shot and killed a guard, ransacked the steamer, robbed the passengers and then abandoned the $20,000 in loot from the passengers ship, taking $50,000 worth of bullion, and a large quantity of guns and ammunition, it was learned here today.

The Hanoi, a vessel of 1200 tons, plies between Haphong, French Indo China, and Hong Kong, by way of Pakhoi, southern Kwangtung. The bullion was being shipped from the Maritime customs at Pakhoi to a Hong Kong bank.

After killing the guard, the pirates tossed his body over board and proceeded to loot the ship, encountering no further resistence.

Eleven rifles, ten revolvers and thousands of rounds of ammunition made up the haul in guns and cartridges. The boarders then turned the Hanoi toward the bay and abandoned her.

If Mr. Ferguson endorses the new entry he will run on an independent ticket it is stated, Ald. N. A. Bordeau defeated at the alleged "packed" convention told the Star today that he was ready to run if selected.

Canadian Historical Stamps; New Issue

(Special to the Guardian)

OTTAWA, Nov. 13. — The recent international philatelic exhibition at New York and the success f Canadian exhibitors among whom was Hon. J. A. Calder gives interest to the new issue of Canadian historical stamps which were prepared last year and for which orders aggregating close upon $6,000 have already been received at the postoffice department. It was originally intended to issue the historical stamps at the time of the Ottawa civic centennial but owing to the dominion elections being then in progress the issue was deferred. Stamp collectors, as well as the general public, are eagerly awaiting the announcement that the historical stamps are now for sale.

The denomination and designs of the new stamps are as follows: five cent stamp color purple, bearing the head of Hon D'Arcy McGee. Twelve cent stamp, color light green, bearing the heads of Sir John MacDonald and Sir Wilfred Laurier. Twenty cent stamp; color carmine, bearing the heads of Baldwin and LaFontaine.

$50,000 Will Be Massey's Allowance

(Special to the Guardian)

OTTAWA, Nov. 13. — Canada's envoy extraordinary at Washington, Hon Vincent Massey, will be given an adequate allowance for the establishment of suitable quarters in the United States Capital. The government's idea is that the position should be filled in a dignified and proper way, regardless of the personal fortune of Mr. Massey. Parliament will be asked to vote $50,000 or $60,000 for the first year to cover office rent, salaries of the minister and his staff and other expenditures. Mr. Massey will require considerable assistance in the way of secretaries, clerks and so forth.

It is stated that more than half the work performed by the British ambassador at Washington relates to Canada and the Canadian envoy will assume considerable of this burden, in addition to matters of trade, (half of Canada's trade is with the United States), there are such important questions as the Chicago drainage canal, St. Lawrence waterways, power developments on international streams and smuggling constantly cropping up.

Mass Meeting At The Y. M. C. A

The Y. M. C. A. Sunday evening services opened last night with a large attendance.

A special program and special speakers were secured for this service which was an outstanding success. The religious work committee of the Y. M. C. A. are sparing no effort to make the Sunday services the very best possible and all the city clergy and choirs are co-operating most heartily.

The following is the program:

Hymn, "Stand up For Jesus."
Hymn, "Just as I am."
Remarks by chairman, R. H. McNeill.
Remarks by Mr. W. E. Bentley.
Hymn, "My Saviour's Love.
Scripture Reading, Rev. Bruce Muir.
Solo—Mrs. J. J. Stewart.
Prayer, Mr. P. J. McDonald.
Quartette, Mrs. J. J. Stewart, Mrs. Roy Cudmore, Geo. Tweedie, T. W. Bentley.

Mr. Rodger upon being introduced spoke of the world-wide work of the Young Men's Christian Association. Not only was the association seeking to band together the Christian youth of the country in the helping of other young men but it was prosecuting the work of God in foreign lands.

In India, Brazil, Latin America, the Argentine Republic, China and other countries such as Jerusalem and Bagdad the Association was ministering to the spirit, soul and bodies of its young men. The speaker declared that the real work of the Association could only be properly judged when it was seen at work in those towns and cities where the buildings and equipment were commensurate with the work that was being attempted. Never before in its history was it doing a finer service for the youth of many lands than at the present time.

In many of the larger cities it was also giving young men the privilege of an education in all manner of trades and even the privilege of studying at night for a university education.

The speaker urged upon all the young people the necessity of believing that God has a plan and purpose for every life and that it was their supreme business as christians to find out what that purpose was and then constrained by the love of God to go forward and fulfill that purpose.

Services at Trinity United Church

At yesterday morning's service in Trinity United Church the large congregation was addressed by both pastors on the subject of the Maintenance and Extension Fund.

Rev. Dr. Ramsay took as his text the words: "Whatsoever thou commandest us we will do and whithersoever thou sendest us we will go."

When the children of Israel after their desert wanderings reached the river Jordan beyond which lay the promised land, two and a half of the tribes resolved to settle on the eastern side of the river; but it was represented to them that their duty was to send their fighting men with the other tribes across the river to subdue the people of the land, and not until their brethren had rest should they return to the land of their possession. To this their answer was in the words of the text.

The history of the Jews in their wanderings and the conquest Canaan is allegorical of the Christian Church, and the lesson for us is that we must be willing to make sacrifices and not take our ease until the Kingdom of God is established throughout our whole country and in those foreign lands for whose evangelization we have assumed responsibility.

Our Church calls us to duty and sacrifice in a great task. We are dedicated to the principle that God has made of one blood all the races of men. Everyone who is in need anywhere is our neighbour. If we cannot go to his aid ourselves we must go by our sympathy, our prayers and our gifts. The age we receive in payment for our time, our strength and our skill is crystallized personality. This we dedicate and send to distant lands to men who as our representatives will labour to bring help to the needy.

Our church is expending $1,360,000 this year in Home Missions. This is practical Christian patriotism. It is for the upbuilding of the Christian citizenship in Canada. For the sake of our own boys and girls who go to remote settlements in our country, we must provide the services of religion, as well as for the great tide of immigration from Europe. Hospitals and other institutions must be established for them.

If our church and nation are to succeed, they must have trained leadership. This is afforded by our colleges for which this year's appropriation is $200,000.

For the rescue of the fallen in our cities, and other efforts in social service, the sum of $100,000 is required, for our Sunday School work $75,000 and for the great work of foreign missions $1,020,000.

The large sum last mentioned goes to China, India and many other distant lands far beyond our borders, but as one came from beyond the borders of our world to be the savior of mankind, so we are in duty bound to make known this salvation to all men.

Rev. W. M. Ryan spoke briefly on the share of Trinity Church in the maintenance and extension fund and the effort about to be made to have it subscribed. Last year the allocation was $5200 and the sum of $6825 was raised. This year Trinity Church is asked for $6000.

Rev. W. M. Ryan was the preacher at the evening service taking as his text the words which St. Peter spoke to the lone man asking alms at the Beautiful Gate of the temple—"Silver and gold have I none but such as I have give I thee." We can give only what we have that is always God's requirement—according to that a man hath and not according to that he hath not. The lame man is with us still,—the vast host of those in perplexity and despair. There is a limit to the ministry of wealth. Yet wealth can do much. The money-making talent is a God given one. But if the power

David Lloyd George is now believed to be firmly settled in the saddle of Liberal leadership, following the resignation of Sir Godfrey Collins as chief Liberal whip. Sir Godfrey, shown above, was a supporter of Lord Oxford, and will probably be succeeded by Sir Robert Hutchinson, who has already served a term as whip under Lloyd George.

Canada's Streams Attract U. S. Fishermen

(Special to the Guardian)

MONTREAL, Nov. 13. —Canada's fishing streams are among her valuable assets and as such are worthy of protection in the opinion of "Wisconsin Cal", Johnson, noted United States writer of outdoor articles and stories, who is a visitor to Montreal today. Mr. Johnson, who is accompanied by Ivar Mennings, president of the Fish Bait Manufacturing Company of South Bend, Indiana, has fished a number of Canadian streams and lakes and is meeting C. K. Howard, general tourist agent and M. G. Poole, fish and game representative of The Canadian National Railways, to plan outings for a number of noted United States fishermen for next season. Mr. Mennings and a party spent ten days during this season fishing for muskalonge near Sioux Look out, Ontario and he stated today that they had enjoyed splendid sport and found muskies there in profusion.

In the opinion of Mr. Johnson, Canada's fishing streams will attract thousands of fishermen from all parts of the continent during the next few years as they offer some of the finest fishing to be found anywhere in the world. Salt water fishing off the Atlantic Coast is also worthy of further development, he believed. Sailfish and tuna await the deep sea angler and there is also surf casting for bass to be enjoyed. This form of angling, he believes, will develop rapidly during the next few seasons and will bring fishermen up to the Nova Scotia and New Brunswick coasts instead of sending them down to the southern states for this form of sport.

INSPIRING APPEAL TO THE YOUTH OF THE LAND

Made at Queen's College by Governor-General, Viscount Willingdon —Calls Upon Students to Take up Wonderful Inheritance Bequeathed Them by Canada.

KINGSTON, Ont., Nov. 13. — Citizenship and Canada's duty to the Mother Land, the British empire and to the world, formed the keynote of Viscount Willingdon's address at the annual fall convocation of Queen's University held last night in Grant Hall. The Governor General of Canada received the honorary degree of doctor of laws, along with Sir J. A. M. Aikins, former member of Sir Wilfrid Laurier's cabinet, both of whom also delivered stirring addresses.

Sixteen hundred people jammed Grant Hall to capacity for the event. The principal speakers were introduced by Dr. R. Bruce Taylor, principal of Queens, and were hooded by Dean J. C. Connell, of Queen's Medical College.

An Urgent Appeal

Lord Willingdon voiced an urgent appeal for the young men and women now enjoying under-graduate life to take up the wonderful inheritance bequeathed to them by Canada. He outlined the requirements for citizenship — a love of freedom and liberty and British fair play; a devotion and a loyalty to the British empire and a spirit of brotherhood and fellowship which, he said, would knit together the nations of the world. Above all else, he declared, a spiritual faith was necessary if the British empire was to continue as a ruling power for good in the world.

Turning to Canada, the Governor General said that although he had only been here for a few weeks he could see visions of future greatness. The under-graduates had sacrifice to make if they were to serve Canada as they should.

Men For Leadership

Sir J. A. M. Aikins, in addressing the students, referred to leadership in Canadian affairs and the qualifications of intensity, understanding and fellowship necessary for such leadership. A leader, he aid, must have the ability to lift up the people whom he would have follow him. Sir Clifford Sifton dealt with the question of the leadership too, but also stressed the need for application and work among the young people of today.

At the close of the addresses, Principal Taylor announced that Jackson Booth, of Ottawa, who is here for the re-union celebration, has stated that, as a memorial to J. R. Booth, Ottawa lumber king, chair will in all probability be given Queen's University.

KINGSTON, Nov. 12. — His Excellency Viscount Willingdon, Governor-General of Canada, became an honorary graduate of Queens University, when he received the degree of Doctor of Laws at the hands of Chancellor Sir Robert Borden at the autumn convocation of the university held in Grant Hall tonight. His Excellency, accompanied by Viscountess Willingdon, arrived in Kingston late this afternoon and were met by Sir Robert Borden, Principal Bruce Taylor and Hon. W. F. Nickle, chairman of the board of trustees. The Vice-regal party immediately proceeded to the university where His Excellency unveiled two stained glass windows in the Douglas Library to the memory of Queens students who died in the Great War. Before convocation this evening His Excellency was the guest of honor at a dinner given by the trustees of the university.
