NEW ADVERTISEMENTS.

WARNING

To the disturbing element, men, boys and even girls, I wish to give due and honest warning that I will prosecute irrespective of parties, and to the FULL extent of the law, those who in any way create a disturbance or make themselves obnoxious, while in attendance at the People's Theatre. The unfortunate who caused the disturbance Tuesday evening will now have plenty of time to consider the folly of his ways, and more will follow if they do not chance their tactics.

I regret very much the event of Tuesday evening, yet it was beyond my control, and in future these parties will be refused admission, also those under the influence of liquor.

My intentions are and have been always to conduct a Theatre in which those who attend may feel safe in the security of our protection, and I trust I have not failed. Mistakes will happen you know, even in the best of regulated families.

MAKE YOUR OWN CALF MEAL

None Better—Cost Only 1½c per lb.

HERE IT IS—100 lbs. Oil Cake Meat, 300 lbs. Shorts, 4 lbs. Herbageum, about 1 lb Salt. Mix well. Stir about two cupfuls in a gallon of scalding water and feed warm

Leading Poultrymen Assure Us that Herbageum Has No Equal
Now is the Time to Use It
And Remember—Nothing Else is Quite so Good.

LETTERS FROM THE ISLAND PROVINCE.

During three years I have used Herbageum regularly for my hern of hogs, and I find it excellent for the appetite and for keeping them in a healthy growing condition. At about five months I averaged good bacon hogs of from 140 to 180 lbs., live weight. I use it for my young pigs from the time they are weaned till after the shows; if not for show purposes, until they are three months old.. For calves it has proven to be the best preparation I ever used. When fed regularly it keeps them in a healthy, hearty condition, is a positive preventive of scouring, and a perfect bowel regulator, and with it skim milk is equal to new I have also used it for horses out of condition, especially it they had worms, for which I find it a certain remedy. It is positive death to intestinal worms. J. W. CALBECK.

Augustine Cove, P. E. I.

Herbageum is the very best thing that can be given milch cows. It is a great advantage both before and after coming in. It will help cows weak in the knees; it is a good preventive of scouring and as a preventive of constipation it is even better It maintains a cow in flesh when milking heavy and for increasing quantity of milk there is nothing equal to it. I have had good results feeding it when pasture was poor.

Crapaud, P. E. I. D. McLEAN.

I have used Herbageum with cows at calving time, also found it satisfactory for horses, and customers speak well of it.
