ganized since the last annual convention. Mrs. William Mutch, of Rocky Point, Provincial Convener, read the report on immigration, in which she said that immigration was a great problem to this Province because of the fact that so many of its young men were leaving for the United States.

The National Convener has suggested in her report that each provincial institute get its board of trade or others to put on a competition on essay writing among the school children on the value of buying the products of their own province, for pupils 14 years old and over and on The Resources and Industries of their own province by pupils under 14.

This idea was commended by Mrs. MacKinnon. Mrs. S. J. Rose, of Lakeville, Provincial Convener, read a report on agriculture, of which the following is a summary:

Report on Agriculture Mrs. Rose said that early in the year the Convener had sent out questionnaires to each club, in order to obtain information on this subject, and also to make suggestions for future program on agricultural topics.

Report on Industries Mrs. MacKinnon in her report dealt mainly with Prince Edward Island industries. An interesting part was her reference to the "Buy at Home" movement taken up at the meeting of the Associated Boards of Trade which she attended last year as a delegate from the Institute.

Cleveland-Canada Day Cleveland, for the first time in the history of any American city, has, by act of its City Council decided to celebrate the centenary of this work, to bring up problems of interest and educational value in agriculture to every community where the organization existed.
