(Special to The Guardian.)  
PARIS, Nov. 18.—Regardless of the American Government's attitude the peace treaty of Versailles will be put into force, according to the prevalent view here today, following receipt of the report that President Wilson might withdraw the treaty from the United States Senate. Whatever the feeling in French circles is that France cannot meet the German plenipotentiaries again and France's opinion is that Italy and Great Britain have a like feeling.

## SEVEN PERSONS KILLED BY TRAIN

### Auto Struck by Train and All Occupants Instantly Killed, Six Bodies Carried a Half Mile on Pilot.

(Special to The Guardian.)  
BUFFALO, N. Y., Nov. 18.—Seven persons, one man and six young women, were killed early this morning at the New York Central Railroad crossing in Harlem Street just over the city line when the Chicago flyer speeding along at seventy miles an hour struck the automobile in which they were returning to Buffalo from a party at Lancaster, a suburb. All were instantly killed and the impact of the collision was so terrific that the auto was demolished and carried together with six of the bodies for a distance of half a mile on the pilot of the engine before the train could be brought to a stop. The body of the other victim was thrown clear of the wreck when the engine struck the machine.

## B. C. Coal Mines Depend on U.S.

VANCOUVER, B. C., Nov. 18.—If the government persists in an embargo on coal going into Washington and other United States points from British Columbia and adopts the principle of not allowing coal to go out in foreign bottoms our mines on Vancouver Island will have to close down, declared W. D. Malby, an official of the Western Canadian Fuel Co on his arrival here from Victoria.

## Hunter Receives Fatal Wound in Abdomen

HALIFAX, N. S., Nov. 17.—A shooting accident at Herring Cove yesterday resulted in the death of Patrick Pelman, a well known fisherman. After church, Pelman decided to take a short trip in the woods for a moose that had been seen in the vicinity. He was accompanied by Joseph Reyno. The two entered the bush two miles from the village and separated. An hour afterwards, Reyno heard a shot followed by a cry. Running hastily in the direction from which the sounds came, he found Pelman face downwards on the ground. The man was still conscious and told Reyno to hurry into the village and call a doctor, stating also that he was badly hurt. When the doctor arrived Pelman was dead. He had evidently leaned on his gun which went off the bullet entering his abdomen.

## RESULT OF 1919 VICTORY LOAN GRATIFYING TO THE GOVERNMENT

### Total Subscription \$673,000,000 Will Enable Government to Meet its Commitments and Indicates Prosperity of Canada. Since the War Began Canadians Have Loaned Over Two Billion Dollars to Government.

(Special to The Guardian.)  
OTTAWA, Nov. 18.—The response of the people of Canada to the call to invest in the Victory Loan of 1919 is gratifying to the Government in the first place because it provides funds wherewith to meet the commitments of the Dominion during the present fiscal year, the period of transition from war to peace conditions, and in the second place because it is an indication of prosperity in the country, Canada, which before the war, borrowed annually several hundred million dollars in other lands, chiefly in Great Britain, has since the war borrowed more than two billion dollars from her own people. On September 30 last the amount of the funded debt payable in Canada stood at \$1,558,962,350.

To this must now be added a large proportion of the total of the victory loan which has just been doubly subscribed. The loan was issued to provide funds to meet expenditure voted by parliament, this year for the fiscal year ending on March 31 next.

It was an enthusiastic meeting in Massey Hall last night when Sir Henry Drayton, Minister of Finance announced the result of the magnificent campaign. Sir Henry Drayton said "our dollars are going to be doubled; the world's markets are at our door. Today is Canada's and we can make tomorrow Canada's too."

Commerce that the twenty five million pounds sterling loan for reparation purposes which Australia raised during the Autumn fell short of the required amount by five million pounds.

An extension of 14 days had to be given to afford subscribers a further opportunity to make the full amount in Australia. In the event of failure on the part of the public to support a loan compulsory subscription will be resorted to on legislative authority. Canada subscribed \$673,000,000 to the 1919 Victory Loan. Of this amount Ontario contributed \$354,000,000. Toronto beat Montreal by \$20,000,000. The Queen City subscribed \$46,000,000 as compared with Montreal \$126,000,000.

Following are the figures for the Dominion provinces:

British Columbia, \$35,000,000; Alberta, \$16,000,000; Saskatchewan, \$20,000,000; Manitoba, \$40,000,000; Ontario, \$354,000,000; New Brunswick, \$14,000,000; Nova Scotia, \$28,000,000; Prince Edward Island \$3,000,000; Quebec, \$16,000,000.

Financial Department Pleased

OTTAWA, Nov. 18.—The generous response to the Victory Loan is regarded as highly satisfactory by officials of the Finance Department here. As one official said the government will not have to worry for a while about where it is going to get money to meet current war expenses. Approximately half of the amount raised by the loan will be used to meet obligations to Canadian Banks.

Sir Henry Drayton, Minister of Finance will probably arrive from Toronto this evening and until he comes no decision will be made as to the proportion of the loan to be allotted in previous loans, which were over subscribed, although not as greatly as this one, practically the whole amount was allotted and bonds issued for it. It is expected that this same policy will be adopted in the present loan.

Officials state that the number of subscribers who defaulted on their payments in previous loans is practically negligible so it may be assumed that the whole amount is available if the government wants to take it.

## Big Seizure of Liquor Occurs at Moncton

MONCTON, Nov. 17.—The seizure of about \$1,000 worth of liquor was effected this afternoon by officers of the local police force, under direction of Chief Rideout. The whiskey was taken from a locker, specially constructed in the Sunny Brae skating rink, and a salute and kept it there while the anthem was played. A minute later when the Star Spangled Banner was played the Prince again stood at salute. Major General David E. Shanks and Brig General Peter W. Davidson welcomed the Prince in the name of the army, while Admiral Glennon, Commanding the Third Naval District, was present as representative of the navy.

Viscount Grey, Sir William Ferrill of the British Embassy, and General Charlton, Attache of the British Air Ministry were also with the welcoming party. It was noticeable that the Prince used his right hand in greeting the officials. He had hitherto used his left hand.

## BALSAM OF HONEY FOUND TO HAVE A REAL KICK IN IT

TORONTO, Nov. 14.—Some real fire water is in safe keeping at No. 2 Police station. A number of cases of trunk and disorderly recently have contributed this harmless looking liquid to the growing collection. It is harmless only in appearance, however. Experts say that when taken it is found to have a "kick" like the famous "Maud" of the comic pages.

On the wrapper, these little three ounce bottles claim to be Balsam of Honey. Inside they appear to be about 99 per cent alcohol. As a demonstration a little of the liquid was poured out on the desk and a match touched to it. A flame a foot high which burned until nothing was left except a little sticky feeling to the spot where it had been resulted.

## NATION-WIDE EMBARGO ON FREIGHT TRAFFIC

### Proposed by United States Railways to Conserve Fuel. Situation Very Serious. Fifteen Million Workmen Will be Thrown Out of Employment.

(Special to The Guardian.)  
CHICAGO, Nov. 18.—The Director General of Railroad Lines and seven regional directors will meet here today to consider a nation wide freight embargo as a means of conserving the country's meagre supply of coal. An embargo on all freight on the Chicago, Milwaukee and St. Paul, between Chicago and the Pacific Coast has been in effect since Saturday. If Director General Hines approves the recommendations of his regional directors an order may be issued immediately which will mean nation wide embargo on freight, a forty per cent cut in passenger train service throughout the country, closing down of all non-essential industries, and fifteen million workmen thrown out of employment. "The situation is extremely serious and immediate action is necessary," said P. H. Ashton, regional director of the northwestern roads.

## Prince of Wales Arrives at Jersey

(Special to The Guardian.)  
NEW YORK, Nov. 18.—The Prince of Wales arrived at Jersey at 10.58 o'clock this morning on a five days visit to New York. Nearly an hour before the Prince arrived the section of the Pennsylvania Terminal, Jersey City, reserved for his train had been cleared of all spectators. Three hundred soldiers of the 13th U. S. Infantry and a band were lined up as a guard of honor from the track to the water's edge where the boats that were to take the Prince and his party to New York were waiting. The bands played God Save the King as the Prince stepped from the train. The Prince quickly brought up his hand to a salute and kept it there while the anthem was played. A minute later when the Star Spangled Banner was played the Prince again stood at salute. Major General David E. Shanks and Brig General Peter W. Davidson welcomed the Prince in the name of the army, while Admiral Glennon, Commanding the Third Naval District, was present as representative of the navy.

## Premier Borden Expected Home Last of Month

OTTAWA, Nov. 18.—Sir Robert Borden will probably return home before the end of this month. He is much improved in health, and on his return will immediately plunge into Cabinet reconstruction and the next seasonal programme. At present in the United States, in addition to the Prime Minister, are Hon. N. W. Rowell and Hon. Gideon Robertson, at Washington, and Hon. J. D. Reid and Hon. J. A. Calder. These ministers, and Lloyd Harris, Chief of Canadian European Trade Mission, have all been in conference with the Prime Minister. With Lloyd Harris, the Prime Minister, discussed our European trade policy, the organization of the Canadian High Commissioner's London office, and the successor to Sir George E. Foster as Minister of Trade and Commerce. Sir George Foster, on his return from overseas, asked to be relieved of his portfolio. He was offered the Lieutenant-Governorship of Ontario, but declined this appointment. Sir George Perley, High Commissioner, desires to return to Canada. On his retirement it is the general desire among industrial leaders in Canada that this office be re-organized and its commercial scope increased. At the present time the supervision of Canada's European trade is under Lloyd Harris, special trade commissioner, but there must be some permanent organization secured, and the most feasible method is the re-organization of the High Commissioner's London office. Those mentioned for the position are Sir George E. Foster, Sir Charles Gordon and Lloyd Harris.
