Governments Do More Financing At Home, Report

(By The Canadian Press)
OTTAWA, Aug. 3 - Canadian governments are repatriating their borrowings. Today's issue of the Bank of Canada monthly statistical summary shows that of \$5,887,800,000 Dominion, provincial and Canadian National Railway bonds outstanding June 30, \$3,230,100,000, or more than half, are payable solely in this country.

The increasing tendency to depend on the domestic bond market is shown by the bank's review of the past 18 months.

During 1936 there was a net increase in bonds payable in Canada only of \$205,400,000. At the same time the volume of bonds payable outside Canada, or payable either in Canada or outside at the option of the holder, was reduced by \$64,300,000.

Of the \$384,400,000 in bonds redeemed or refunded last year, \$123,900,000 were payable in New York, \$17,600,000 in Canada or New York, \$6,900,000 in London, \$3,800,000 in Canada, New York or London, and \$1,100,000 in Canada or London.

Of \$225,500,000 in new issues, \$437,500,000 are payable in Canada, the remaining \$88,000,000 in New York.

In the first half of 1937 the trend was also pronounced. Bonds payable in Canada increased \$45,900,000 and the decrease in all others was \$33,600,000.

Forsees Long & Bloody Conflict In North China

rich northern provinces; thus to precipitate a major battle in the undeclared war.

Informed foreigners consider it more probable, however, that Japanese military operations in their southern march, meeting only occasional opposition from Chinese forces scattered throughout the north China region.

A long, bloody informal war is foreseen for the region in which Japan demands economic dominance, complete freedom from the central Chinese government, long a matter of dispute between the Oriental Powers.

A minor clash July 7 between Chinese and Japanese soldiers touched off the crisis that has seen a month of sporadic fighting and gradual Japanese military dominance of most of the north.

The end will come, most observers believe, only when Japan concludes the frontier of her influence has been pushed far enough. Then foreign pressure on Japan will set up a new puppet state similar to adjacent Manchoukuo, once Chinese Manchuria.

Arbitration of the deadlocked issues seems impossible without loss of prestige by one side or the other.

Japan laid the groundwork well for the north China campaign. For two years a steady stream of Japanese capital sought control of strategic Chinese industries, and since trouble flared into the open, huge military reinforcements and supplies have been rushed to the mainland from Japan.

Rovers Trounce Giants 13 To 1

The classy Rovers defeated the west end Giants 13 to 1 in the second game of the Midget softball championship of the city. The Rovers by doing so drew up on even terms with the Giants, who won the first game 13 to 3. The game was a one sided affair from start to finish as the Giants failed to play the ball that they did in the initial tilt. They were a different bunch of youngsters altogether their fielding was ragged, and their batting was not much better as they failed to come through in the punches.

The Rovers on the other hand played bang up ball and gave their hurler excellent support fielding beautifully, and also doing justice with the willow, driving out a barrage of ten hits to score 13 runs, seven of them of the unearned variety. But in all fairness to the north end crew they richly deserved their win as they fought from the time the first ball was pitched to down the west end boys, who incidentally were seeking their second straight win.

Gautier on the hill for the Rovers pitched a whole of a game shading Ted Wilson, who tossed them up for the Giants.

ARRIVED IN CITY LAST EVENING

Continued from page 7.

Match, holder of the Dominion amateur title for two years during which time he enjoyed a large measure of success in the ranks of the simon pures, has been fighting professional now for the last two years. Although his fights haven't been very numerous nevertheless the Brantford boy has been doing alright by himself. Out of opponents the last two fights he has returned the victor eighteen times and in laying claim to the vacant Canadian heavy crown Maich stated last night that he was ready to meet any opponent whom promoters might want him to meet. W. justifying said claim to the title.

Due to his late arrival the interview last night was necessarily brief but just glancing at Maich one could judge Leslie is meeting by far the best opponent he has ever faced. He doesn't lay claim to any extraordinary boxing skill but his imposing string of knockouts that he has to his credit bears out the fact strongly that he is a very heavy hitting boxer who glories in getting in close to an opponent and then letting fly with his T.N.T.-laden gloves.

Maich will hold a brief workout at the Forum tonight at 8 o'clock. No strenuous workout will be held due to the close proximity of the date of the fight but the public are cordially invited to attend and give the Ontario fighter the once-over during his loosening-up exercises.

Leslie meanwhile goes on with his strenuous training campaign at Souris. Growing more confident as the days progress the big Souris boy is making life miserable for his sparring mates and his manager and handlers are "ticked pink" over the form he is displaying. "George is going to surprise a lot of people Thursday including Mr. Maich", is their way of summing up the fight, which may mean a lot once the opponents start slinging punches.

29th Chinese army were disarmed near Peiyuan, northwest of Peiping and herded into the ancient capital or their own request.

Japanese officials said the men, left isolated when the 29th army's main forces retreated from Peiping quarter, surrendered their arms after a Japanese plane flew over their quarters, threatening bombardment.

The Chinese unit had been "orielooked," the Japanese said, after it had failed to participate in the Peiyuan hostilities.

Dispatches from Tientsin reported Japanese reinforcements were continuing to pour into North China, leading observers to believe Japan might be contemplating a large scale push beyond the Hopeh territory now almost completely dominated by the Japanese army.

Japanese air forces scouted as far south as Chengchow, strategic rail junction in the heart of Honan Province, and east over Tsinan, capital of Shantung.
