

Distress After Eating

Nausea between meals, belching, vomiting, flatulence, fits of nervous headache, pain in the stomach, are all symptoms of dyspepsia, and the longer it is neglected the harder it is to cure it.

Hood's Sarsaparilla and Pills

Radically and permanently cure it—strengthen and tone the stomach and other digestive organs for the natural performance of their functions.

Accept no substitute for Hood's. "My appetite was gone; nothing tempted me to eat, and what little I did eat felt annoying and unpleasant in my stomach. I tried many remedies without any benefit whatever. Finally, Hood's Sarsaparilla having been recommended, I began its use. After taking one bottle my stomach would retain food, and my appetite began to improve. After taking three bottles I was completely cured." WILLIAM ROSS, Wellington street, Sarnia, Ontario.

Hood's Sarsaparilla promises to cure and keeps the promise.
