PRIMROSE PARK RACES

From Yesterday's Evening Guardian.

The races at Primrose Park yesterday passed off quietly.

The day was fine and a large crowd gathered in the afternoon to witness one of the best day's racing seen there for some time.

The track, owing to the rain of the previous night, was rather slow.

The officials of the day were:—Owen Hughes, Iona; Patrick McKenna, J. J. Finlay, Vernon River Bridge, while Joseph Fraser, Avondale, acted as Secretary. There were two races on the card, the 2.35 trot and pace and a green race. In the '35 four horses started. Zealot, owned by Mike McKenna; Score Card, owned by Joe McDonald; Ferron Jr., owned by W. Lawton, and Ferndale, owned by George Martin.

In the first heat Zealot took the lead at the first turn and held it until he reached the ¾ pole, when he suddenly left his feet and was passed by Ferndale, but Zealot soon squared away and beat Ferndale through the stretch and landed the heat.

In the second heat Zealot led from wire to wire. Third heat Zealot led to the ¾ pole and went off his feet and was passed by Score Card. Ze lot quickly caught and went by Score Card on the turn and finished in front but was set back to second place for pulling out of his position on the home stretch.

The fourth heat went to Zealot who won first money, Score Card second, Ferron Jr. third and Ferndale fourth, owing to an accident in the second heat, was drawn.

In the green race two horses started. Merry Widow, owned by J. Myers, Pownal, and driven by Dan Cameron, won in three straight heats, and Iona Boy, owned by Peter McKenna, Iona, driven by Allan McDonald, made a strong fight for first place but being short of work failed to land first money.

BRIDGE FELL.

CHATHAM, Aug. 15—Two spans of the Southwest bridge, that forms the chief link of communication across the Southwest Miramichi River, between the most populous parishes of the country, went down this morning at a quarter to twelve, and now practically block the channel in the river, as well as cutting off all communication from shore to shore. The spans that went out are directly over the channel and while the upper work fell rafts of logs will not be able to get through. Most of the mills on the Miramichi are practically dependent upon the regular supply of logs from the Southwest Boom Company at Millerton, a few miles above. The situation is serious for the mills and the 2,500 men who get their means of livelihood from. The bridge has been clear from the foundation bases, part of the woodwork grounded in the channel, and so far blocked it that in a very bad condition for the past three years, and efforts have been made to get some repairs done, without success.
