JOHNSTON & JOHNSTON will be the only Drug Store open this afternoon and evening.

FIRE SALE - Watch this paper for opening date, unheard of values at Jack Cameron's Fire Sale.

BE A BLOOD DONOR on Tuesday or Wednesday of this week. Your blood may save a life - perhaps your own!

FUNERAL SATURDAY - The funeral of Patrick Smith was held Saturday morning from his late residence to St. Bonaventure's Church where Requiem High Mass was celebrated by Rev. W. Simpson, who also conducted service at the grave. Pallbearers were: Harry Foster, Robert Connelly, Ambrose Mitchell, A. J. MacDonald, W. J. MacDonald, Walter Mullins. Interment was in the Church cemetery.

MEMBERS ENTERTAINED - The members of the Legislature and their wives, deputy ministers and other guests to the number of about seventy-five, were entertained by His Honour Lieutenant Governor and Mrs. Bernard at Government House last evening at an enjoyable banquet. Grace was said by Hon. Eugene Cullen, Speaker of the House. Lt. Col. P. S. Fielding was master of ceremonies. There was an enjoyable musical programme, including Gaelic songs by Hon. John A. Campbell.

LEGION AUXILIARY BRIDGE PARTY - The bridge and auction club Monday night, sponsored by the Canadian Legion Ladies Auxiliary was a very successful affair, with upward of 50 tables following. The prizes went to the following: in bridge, ladies first, Mrs. Kelsey Burhoe, second, Mrs. Elwood Burhoe, third, Mrs. Heber Bell, consolation, Mrs. Lawson Jenkins. Men's first Fred Gillies, second Etta Dalling, third Kelsey Burhoe, consolation A.B. Outcliffe. In auction forty-fives, ladies first, Janet England, second Mrs. Thomas Benoit, consolation Mrs. MacGregor. Men's first W.F. Hughes, second E. Rasmussen, consolation Clarence Flood. The committee in charge of the affair was as follows: Mrs. P.S. Fielding, convener, Mrs. J.B. Murley, Mrs. Frank Walker, Mrs. Arnold Rattenbury.

WHITE - In Charlottetown on Tuesday, March 8, Margaret White in her 63rd year. Her remains will rest at the A. A. Hennessey Funeral Home. The funeral will be held privately on Thursday morning to St. Dunstan's Basilica. Interment in the Catholic Cemetery.

MURPHY - At the Charlottetown Hospital, March 7, William David Murphy. Funeral private from his home at Southport Wednesday morning to St. Dunstan's Basilica for Requiem High Mass at 9 o'clock. Burial in the Roman Catholic Cemetery.

BRADLEY - At the Sacred Heart Home on Tuesday, March 8, Angela Bradley, daughter of the late Peter and Mary Bradley, formerly of 14 Douglas St., City. Her remains will rest at the A. A. Hennessey Funeral Home from where the funeral will take place on Thursday morning at 8:50 o'clock to the Church of the Most Holy Redeemer. Interment will take place in the Catholic Cemetery.

BRADLEY - At the Sacred Heart Home on Tuesday, March 8, Angela Bradley, daughter of the late Peter and Mary Bradley, formerly of 14 Douglas St., City. Her remains will rest at the A. A. Hennessey Funeral Home from where the funeral will take place on Thursday morning at 8:50 o'clock to the Church of the Most Holy Redeemer. Interment will take place in the Catholic Cemetery.

Highway Report

All the highways on Prince Edward Island are open, except for a short distance towards Souris and a part of the Wood Islands highway, stated an official of the Department of Public Works and Highways last evening. There was no report from the plow working until late last night on the stretch between Eidon and Wood Islands. Yesterday's rain is causing considerable slush and water in the cuttings in some sections of the highways. Road maintenance crews were draining all day yesterday where possible. The Summerside highway, between Summerside and Kensington, was widened out and winged back yesterday afternoon by snow plow equipment, it was stated.

Funeral Today of Mr. William Fretwell

The funeral of Mr. William Fretwell will be held from the Outcliffe Funeral Home this afternoon at two o'clock. Mr. Fretwell, who was born in Omaha, Neb., 84 years ago, died here Monday.

For many years he was engaged with his wife in show business. They gained considerable fame playing in United States Europe, and before royalty around 1914. They were known to the entertainment world as the "Coultons". They retired from the show business around 1930 and came to this Province. Since then Mr. Fretwell had devoted much interest to sport. One of his favorite programs was the Friday night boxing broadcast from New York. He had been in failing health for several weeks but had been feeling fairly good during the past few days until his death came suddenly Monday night. His wife predeceased him several years ago. There are no survivors.

Getting Deaf?

Thousands now know there is no excise for losing hearing. The joy of hearing has been perfected in the great Zenith Radio Laboratories - so simple - so easy it can be sent to you for 10-day free trial. Ready to wear, no individual fitting necessary. Accepted by the American Medical Association, Council on Physical Medicine. Come out of the world of silence. Write today for full details on Zenith Radio Corporation of Canada, Ltd., Dept. 117259, Canada Trust Bldg., Windsor, Ontario. Made by the makers of world-famous Zenith Radios.

N. S. PLANS

Continued from page 1. Increased 50 per cent over the amount paid last year. Municipalities' obligation to pay the Province any portion of the poll tax as part of the highways tax will be discontinued. Legislation will be introduced to amend the Highways Act accordingly, the Minister said. These measures will involve \$508,000 in cash payments to local governments, an increase of \$188,000 over last year's figure. The present proposals relieve rural municipalities of payments in excess of \$75,000, bringing the value of adjustments in the highways tax bringing total benefits this year to \$784,000.

Mr. Patterson concluded: "These additional measures, together with the earlier assistance will be of great aid to city, town and municipal governments and should place these governments in a position to give adequate services to their citizens and to finance the responsibilities they are called upon to assume."

Half of one of Nova Scotia's two cities will benefit by \$203,000 over 1947, before the payments came into force. Sydney, the other city will receive about \$53,000.

FARM PROBLEMS

Continued from page 1. "Development of coastal trade with Newfoundland and boats with refrigeration facilities to carry chilled meats, dairy and other perishable products. Speaking on freight rates, Mr. R. A. Profit, Fretwell, past president of the Federation, asked that an investigation of the whole freight-rate structure be made. In reply, the Premier pointed out that the freight-rate structure had been gone into at great expense by the Province and that a Royal Commission was presently investigating the matter further. Regarding efforts to extend Newfoundland trade, Premier Jones said the Government had done more in that direction than he was willing to state at the moment.

Rural Electrification

The brief reads: "There is an insistent demand from the rural areas for an extension of electrical service. We respectfully draw your attention to the resolution passed last month at a largely attended meeting of the Federation asking that the government clarify its position on this problem. There is considerable concern in the minds of the people, and they are demanding a definite statement on future policy."

Mr. Gordon MacMillan, Cornwall, vice-president of the Federation, in support, pointed out that the cost of farm labour was at a premium and that electrification would alleviate the farmers' lot. He referred to past surveys and resolutions over a period of years, including a pamphlet issued some years ago stating that it would require \$8,000,000 for the government to buy out the private companies.

Mr. MacMillan stated that subsidizing in Nova Scotia had helped to extend rural electrification there. He suggested that some specific individual should be appointed by the government to coordinate all parties so that an immediate start could be made on solving this problem. The Premier in reply felt that there was no need of subsidizing more lines at present, because the power is not available. "They have all they can do to bring the existing lines up to standard at present," he said. "I notice you did not recommend that the Government take over the lines. At the present time the Board of Public Utilities is conducting an inquiry into the general rate structure on which the Maritime Electric Company is operating. When that is known, then we can tell whether the rates are too high or too low. We are going ahead with electricity in a rapid manner as can be done, in my opinion," the Premier said. On the Western Road we are extending the service so that they can obtain electricity off the main line. In other parts of the country we will extend as far as we think feasible. But what is the use of subsidizing rural lines where you have not got the generating power?"

Veterinary Service

In reply to the request for equable veterinary service for all parts of the province, Premier

Jones stated that provision had been made in the estimates for veterinarians to be placed at O'Leary and Montague.

"We have notified Guelph that we will give Island boys about \$2,000 a year on condition that they remain two years in P.E.I.," continued the Premier. "I hope that some of the Island boys who are graduating there will return to the Province and work here. I believe there are three Islanders graduating this year."

Marketing

The brief called on the government to press for Dominion marketing legislation "as a prerequisite for Provincial marketing legislation," and urged that plans be made ahead.

Reference was made to the low grade of farm products on the domestic Island market and called for domestic grading. Supporting this clause, Mr. MacLeod, Long River, said that people were complaining they could not get decent potatoes in the city market. "What we are exporting is first class stuff," he said, "but we are retaining stuff at home that is a disgrace. The same applies to beef. There are probably many persons in this chamber today who never ate first-class beef."

He maintained that there should be grading regulations for beef as well as for hogs. In the latter connection, he commended the work done in grading but said the producers were not getting a premium, to which they were entitled on a basis of quality. The local plant, he maintained, was "dragging farther behind" in this respect than other plants.

Land Utilization Policy

To the request that the Provincial government seek Dominion assistance in procuring heavy machinery for drainage and stumping purposes, the Premier stated that the Minister of Agriculture in Ottawa had assured him that, when this Province had worked out a policy, it would receive a share of the "marshlands reclamations" grant.

"Potato Fund"

The brief recommended that a seven-man Board be set up to administer the Potato Fund created by a voluntary levy of 1 cent per 100 lbs of potatoes. Mr. E.D. Reid, secretary of the Federation and manager of the P.E.I. Potato Growers' Association, stated that the growers wanted a vote in framing a constructive policy for eliminating diseases affecting Island potatoes. Mr. Reid stated that the fund this year amounted to some \$45,000, and suggested that \$26,000 should be spent on soil fumigation in certain areas.

Income Tax

Requesting the Provincial government's support in the Federation move for Income Tax modifications, the brief suggested that a qualified man be appointed at the regional office as a consultant for the farmers.

Automobile Insurance

"Don't believe this talk about cheap automobile insurance in Saskatchewan. It's not true," declared the Premier to the brief's request for some form of compulsory automobile insurance. "I'll challenge anyone to deny that," continued the Premier smiling. "I'll accept that challenge," answered Mr. Murdoch MacLeod, Long River, (Laughter). Hon. Fred Laeger, Attorney-General, explained that a fund had been created from a dollar on each licence. Disbursements are made to persons who cannot collect from Supreme Court rulings.

Dairying

"I notice you didn't say you want an act against margarine," said the Premier in reply to the Dairying clause. Mr. Earl Mags, in support of the proposed government legislation on this subject, approved of it and didn't see any need for further discussion. "We won't need to pass any legislation now, will we?" asked the Premier. "It must be illegal in Canada now until the ruling of the Privy Council," he added. Mr. Smith MacFarlane, Brackley, supported the request that fluid milk producers be paid on government terms, if 30 per cent of the producers in a district asked for it. Later, the Minister of Agriculture, pointed out that all other dairy producers would seek the same government service, which would call for an increased staff. The brief asked the government to bring in legislation to increase their assessments from \$1,200 maximum to \$6,000 maximum for promotion of the industry. The government was urged to make credit available to cheese factories at cost, for the 90 day period before no cheese may be sold. Capt. J.J. MacDonald, Glenfman, asked that the cold storage problem be thoroughly investigated. He asked for a curing room for cheese and suggested that a Trade Commissioner should be in Newfoundland now selling Island cheese. The Premier felt that banks should be able to let cheese factors

have money at less than the six per cent mentioned in the brief.

Cold Storage

Commending the government for providing cold storage for some foods, the brief recommended that 72,000 cubic feet of space be provided for poultry meat products. More space for cheese and butter storage was also requested. The Premier stated that he estimated 72,000 cubic feet of cold storage would cost \$150,000. He appreciated the need and referred to the storage already provided.

Reforestation

The brief called for a provincial forester and demonstration projects on land unsuited to tillage. The Government was commended on its agricultural educational policy, support of the Junior Farmers' movement, and extension of Public Health services. Hon. Mr. Stewart in reply touched on all the points raised. He pointed out that a number of individual firms were providing their own cold storage plants.

Leader of the Opposition

In complimenting the Federation members on their presentation, Hon. Dr. W.J.P. MacMillan said that so far as the Opposition was concerned, they would support any move the Government makes to solve agricultural problems. He noted that assistance in stumping and draining ditches had been requested. "This House," he added, "voted \$5,000 for that purpose last year, but not any of that money was spent."

He also noted that last year a total of over \$50,000 less was expended in the Department of Agriculture, than was voted by the Legislature. The Opposition would endeavor to prod the Government into realizing the importance of expenditures in this important department.

Other directors of the Federation were Col. F. J. Andrew, East Royalty; J. L. Dewar, New Perth; Ralph Rayner, Mt. Herbert; Alex Hamilton, New Perth; and Edson Rayner, Clermont.

IMPORTANT BILLS

Continued from page 1

ario, Nova Scotia or New Brunswick, Mr. Matheson said. He thought it would be unwise for this Province at the outset to extend the provisions, but he assured the House that needy cases would not go unconsidered.

This assurance was accepted by Hon. Dr. MacMillan and Mr. Saville. The bill was given second reading, pressing for inclusion of illegitimate children in the bill. They both reaffirmed their attitude on the question yesterday. Mr. Bell cited other cases outside the scope of the bill, and Hon. Mr. Matheson stated that these were being dealt with under direct relief or social welfare assistance. The House adjourned shortly before six o'clock to resume at 11 A.M. today.

Other bills given second reading yesterday included an Act to incorporate the St. Peter's Raceway Ltd., and the Summerside Curling Club incorporation act. The latter bill was re-read in committee for the purpose of amending the division of the capital stock of \$50,000 into 2,000 shares of \$25, each. As originally agreed to, the bill provided for twenty-five shares of \$2,000 each.

Third Readings

In addition to the Trade Union Act amendments and the Workmen's Compensation Bill, other third readings included amendments to the Appeals Act, the Partnership Act, the Income Tax Act, the National Park Act, the Public Service Act, also an Act respecting certain contracts and an Act to amalgamate the P.E.I. Agricultural Mutual Fire Insurance Company and the P.E.I. Mutual Fire Insurance Company.

The following bills were given first reading: An Act to amend the Town Planning Act; an Act relating to Fisheries within the Province; an Act to amend an Act respecting the extension of incorporated municipalities; an Act to amend the Apprenticeship Act; an Act to amend the Vital Statistics Act; an Act to provide for the Incorporation of Lands; an Act to incorporate O'Leary Memorial Hall; the Public Accounting Act.

Mr. Jones tabled reports of the chief surveyor of the Province and of the Department of Industry and Natural Resources. On motion of Hon. Mr. Matheson, a bill to amend the Real Property Act which appeared on the order paper was withdrawn. Commendatory remarks were made in the House yesterday by Premier Jones on the success of the P.E.I. curling team in winning a second victory in Hamilton yesterday and by Mr. R.R. Bell on the victory of the Intermediate hockey team from Murray Harbour, in defeating the Intermediate Abergwells. One of the reasons for the latter victory, Mr. Bell said, was that Murray Harbour had a very fine rink which they financed themselves. Consideration might be given by the Government, he said in helping out the rural districts in their contributions to the programme of physical fitness.

Hon. Mr. Matheson agreed that Murray Harbour had one of the finest rinks in the Province. They were not able to open until about the middle of January, which made their victory in the intermediate game all the more noteworthy.

QUESTIONS

Answers to the following questions were tabled. Mr. Philip Matheson: 1. What is the total cost of reconstruction of Beach Grove Inn up to February 28th, 1949? 2. What tenders offered for the work and were any tenders received? 3. If so, who tendered and for

Mfld. Veterans To Benefit By Confederation

BY JOE MACSWEEN ST. JOHN'S Mfld., March 8 - (CP) - Newfoundland veterans, who had more war service per man than either Canadian or American servicemen, will benefit to the tune of millions of dollars under the terms of confederation.

Ron Martin, secretary of the Newfoundland World War Veterans Association, said in an interview today that so far as the Second World War will be eligible for some \$4,500,000 in re-establishment credits alone. Newfoundland fighting men, who formed two crack artillery regiments and campaigned in Italy, Africa and Western Europe had an average of 60 months' service. They went overseas directly after enlistment and trained with British forces. The Old Colony also gave 3,419 men to the Royal Navy and 713 to the Royal Air Force. These figures do not include 1,752 who gave their home addresses as Newfoundland when they signed up with the R. C. A. F. and other Canadian outfits. Mr. Martin, an infantry sergeant in the First World War, said Newfoundland veterans' benefits already in force would be supplemented in practically every field when the island becomes Canada's 10th Province March 31.

250 Donations To Blood Bank

Yesterday some 250 persons made donations to the "Blood Bank", it was announced by Red Cross officials. The mobile blood transfusion unit, which arrived here from Halifax Monday, will continue receiving donations today. Several people living in rural areas made special sacrifices to give their blood yesterday; a resident of York walked seven miles to the City, contributed his blood, and then walked home. In another instance a woman from Rustico paid taxi-fare to and from the City in order to give a donation. With such enthusiasm being shown, officials last night expressed the hope that they might obtain 400 donations during the two-day drive.

Postpone Action on Power Project

WASHINGTON, March 8 - (AP) - The Federal Power Commission today announced postponement of action on a proposal by New York State to develop a power project on the St. Lawrence River. The commission said action on the application would be "held in abeyance." The statement was made in connection with an order dismissing a petition by the national St. Lawrence project conference to reopen the proceeding for additional evidence. The conference opposes the state's application. The New York State power authority applied in July, 1948, for a licence authorizing the project. Under the plan, New York and Ontario each would build part of the power project. The commission said action on the application would be "held in abeyance." The statement was made in connection with an order dismissing a petition by the national St. Lawrence project conference to reopen the proceeding for additional evidence. The conference opposes the state's application. The New York State power authority applied in July, 1948, for a licence authorizing the project. Under the plan, New York and Ontario each would build part of the power project.

Rediscover Birds Believed Extinct

INVERCARGILL, N. Z., March 8 - (CP) - A scientific expedition led by Dr. R.A. Falls, director of the Dominion Museum, recently spent three days in the haunts of the notoris, the large flightless bird which was recently rediscovered in a remote area in the far south-west of New Zealand. The notoris was thought to be extinct for half a century. The party found a thriving colony of at least 100 of the birds, including about 20 breeding pairs. They live among the snowgrass in the area and feed on it almost entirely. The scientists discovered traces of vermin which could be a danger to the birds and action will probably be taken to remove the menace. Until the recent discovery only four specimens of the notoris had ever been taken by Europeans. Two of these are in the British Museum, one in Europe and the fourth in Dunedin Museum, New Zealand. It is most unlikely that more specimens will be available as strict precautions are being taken to preserve the present colony. A huge area surrounding the location of the colony has been declared a sanctuary and it may be entered only with special permits from the government.

TRAVELS 5,000

Continued from page 1. son River. The metropolis' skyscraper were visible as Odom swooped onto the field in brilliant sunshine. It was Odom's second attempt to come non-stop from Honolulu to Toronto in his 185-horsepower plane. Bad weather forced an end to that first flight in January. Odom landed at Oakland, Calif., some 3,000 miles short of his goal but still bettering the old record set by two Russians in 1937. Odom's distance then was 2,401 statute miles. Odom, who came into prominence two years ago on his first world-girdling flight with Chicago pen manufacturer Milton Reynolds, said he was interested in a new global flight - this time touching at both the North and South Poles. Odom landed with 14 gallons of the original 288 gallons of gas still in his tank. Three extra tanks had been fitted to the plane. Odom said that was the only extra equipment the sleek monoplane needed. "Anybody could do it," he said. "It's as easy as driving an automobile."

Sleet Storm Brings Down Wires In C. B.

HALIFAX, March 8 - (CP) - Cape Breton was slowly recovering tonight from a driving sleet storm which isolated the area for several hours today. Northern Cape Breton is still without telegraph communications, but all main roads are reported passable, although ice-coated. Telephone company officials said several poles throughout the island had toppled under weight of heavily crusted wires. Lines around Sydney went down, but service was restored. The industrial town of North Sydney was hardest hit by the 24-hour storm. Telephone communications were out until late today. North Sydney communications were temporarily choked off by the winter's heaviest snow storm more than a week ago. Light and power services throughout Cape Breton were not seriously affected by the storm. Bus schedules were held up early in the day and traffic moved at a snail's pace over ice-sheathed highways.

Phone crews will work through the night repairing storm damage. The storm affected all parts of Nova Scotia. Highways through-out the Province were described as dangerous and in Yarmouth and Shelburne Counties "impassable" by the Highways Department. In Halifax, rain-softened ice made driving and walking hazardous. Ice-blocked sewers left streets inches deep in slush.

The Halifax Weather Office predicted continuing storms tonight and tomorrow, but rising temperatures were expected to clear ice from streets.

French Style Imports Show Rhythm, Grace

NEW YORK, March 8 - (CP) - French imports from the collections of Balenciaga, Dior, Faith, Pres. Molyneux, Griffe and Piguet accentuated Bonwit Teller's spring custom showing today with the rhythm, movement and grace characteristic of French creations. Leopold Bonwit's own designer, also showed some of his exciting designs. Skirt lengths vary but in general are showing some tailored suits being about 45 inches from the floor. Shoulders remain small and rounded. Sleeves become a part of the whole, being batwinged or dolman - the three-quarter length being most popular. Necklines still plummet, often from high collars. There are new interesting skirts - flaring panels over sheath skirts, narrow skirts punctuated with rows of buttons, skirts with arching ruffles, spiralling lines and flourishes. Fabrics with names such as surah, alpaca and moire dominated. Also used were the more supple ones - crepes, shantung, laces and silks. Dior featured a red silk surah two-piece dress with a centre panel of accordion pleats. High pockets rid aslant on the skirt. The slashed neckline is shaped by a far of tucks at the waist in front; the back boused from a centre pleat. Suits are simply tailored with accented lines, the deeply-curved waists. Short jackets are favorites - some fitted, others flyaway or square, with scarves or stoles.

Girl Attempts To Sever Legs With Breadknife

TORONTO, March 8 - (CP) - Member of an east-end religious sect, Pearl Polischuk, pretty 29-year-old brunette, was found today hacking off her legs above the knee with a saw-toothed bread knife. A roomer broke into her room when he heard her moans and prayers. The woman, a knitting mill worker believed to have come from Big River, Sask., is described by roomers as a religious fanatic. One of her legs was amputated in hospital and she has had several blood transfusions. Authorities described her condition as "poor."

Herbert Tandy, a roomer in the three-storey house where she lived, said he found her covered with blood and shouting: "Dear Lord I am coming." She was sitting on the floor with the bread knife in her right hand. Both her legs above the knee had been cut deeply and she was making an other wound when he entered. The roomer grabbed the knife from the girl and she collapsed. When police arrived blood was spurting from severed arteries. They applied tourniquets and took her to hospital.

Police said the girl was struggling to be a "medium" in the religious sect. In her purse were found a number of religious tracts and a letter from a brother in Manitoba. Mrs. Joseph Demars, her landlady, said the girl had been acting "very queer" for the last months and continually talked about spiritualism.

IMMIGRANTS SAIL

LIVERPOOL, March 8 - (CP) - The liner Aquitania today sailed for Halifax with 1,200 immigrants aboard. Mr. and Mrs. Henrik Scholten were among 20 immigrants from the Netherlands. The Scholtens came from Alften, near the German border, in the area through which Canadiana fought during the closing months of the war. They brought along seven sons and five daughters, ranging in age from seven to 19.

BIRTHS, MARRIAGES, DEATHS 50c Per Insertion

BIRTHS NOONAN - At the Prince County Hospital on March 8, to Mr. and Mrs. Lorne Noonan, Albany, a son. MacRAE - At the P. E. Island Hospital February 8th 1949, to Mr. and Mrs. Milton MacRae, Bonshaw, a daughter, Hazel Marlene, 7 lbs. 7 ozs.

MARRIAGES MacNEILL-PILLEY - At Zion Presbyterian Manse on Feb. 22, by Rev. G. C. Webster, Alice Kathleen Pilley of Saint John, N. B., to Daniel Gordon MacNeill of St. Catharines, P. E. I.

DEATHS TODD - Suddenly in Ottawa, March 7th, 1949, W. R. Todd, formerly of Bradabane. Age 59 years. Son of Mrs. Robert Todd and the late Robert Todd, Bradabane.

MURPHY - At the Charlottetown Hospital, March 7, William David Murphy. Funeral private from his home at Southport Wednesday morning to St. Dunstan's Basilica for Requiem High Mass at 9 o'clock. Burial in the Roman Catholic Cemetery.

WHITE - In Charlottetown on Tuesday, March 8, Margaret White in her 63rd year. Her remains will rest at the A. A. Hennessey Funeral Home. The funeral will be held privately on Thursday morning to St. Dunstan's Basilica. Interment in the Catholic Cemetery.

BRADLEY - At the Sacred Heart Home on Tuesday, March 8, Angela Bradley, daughter of the late Peter and Mary Bradley, formerly of 14 Douglas St., City. Her remains will rest at the A. A. Hennessey Funeral Home from where the funeral will take place on Thursday morning at 8:50 o'clock to the Church of the Most Holy Redeemer. Interment will take place in the Catholic Cemetery.

IN MEMORIAM

In loving memory of my dear brother, Kenneth Stewart of Lewis, who passed away March 9, 1943.

Times have changed in many ways but one thing changes never, The memory of the happy days We both have spent together.

I am thinking today, dear Ken, Thinking of the past, Picturing you in memory Just as I saw you last.

Sweetest memory always lingers In a grave not far away Where they laid you, dearest brother, Just six years ago today.

Always remembered by brother, Alex Stewart.

IN MEMORIAM

In loving memory of Kenneth Stewart of Lewis who passed away March 9, 1943.

We often sit and think of him When we are all alone, For memory is the only thing That we can call our own.

The one we loved has gone to rest His fond, true heart is still; The hand that always helped us Now lies in death's cold chill.

Lovingly remembered by Mother and Belle.
