—**TRANSFERS FROM BERMUDA TO PORT ARTHUR**—The following item recently published in the Port Arthur News Chronicle regarding Mr. Alexander MacKay, formerly of Summerside, will be of interest to many in this province. "At a time when most folks here would like to move to a land of sunny skies with warm, sandy beaches, A.S. (Alex) MacKay has done just the opposite. The 28-year-old former Canadian army captain, now with the traffic division of Trans-Canada Air Lines has been transferred here from Bermuda, where he has spent the past four years. And the transfer was made at his request. Mr. MacKay has been appointed district traffic representative here succeeding Dan Rowan. Originally from Prince Edward Island, he joined the army after leaving university and spent the next six years in the service. At the time of his discharge in 1946 he was second in command of the army's "B" force at Bermuda. He spent a short time with Colonial Air Lines but has been with T.C.A. nearly two years. T.C.A. maintains posts at Nassau, Trinidad and Jamaica in addition to Bermuda and it is expected more will be established on other islands soon, Mr. MacKay said. Bermuda, in the sterling area has had an increased number of Canadian visitors this year, he said, particularly since the devaluation of the pound. Mr. MacKay said he did not think he would mind the cold here. In the few weeks he has been here, he has found the people of the Lakehead 'extremely friendly.'"—S.

"NERVES" She Called It

Losing interest—losing friends—she never went out any more—always too tired; "Nerves", she thought—but it was her kidneys—the filters of her blood—that needed attention. She used Dodd's Kidney Pills at once. The improved action of her kidneys helped to clear away blood impurities and excess acids. Fatigue, backache, headache, lack of energy disappeared. Dodd's Kidney Pills contain essential oils and medicinal ingredients that act directly upon the kidneys—and help restore their normal action. 144

Reveal Plans For New Summerside Federal Building

With the calling of tenders for a new Federal building in Summerside the plans and specifications are now public material. This new building will be erected on the former Allan property on the corner of Summer and Church Streets which was purchased three years ago for this purpose. At that time there was a large house located there which was demolished.

The new building will be L shaped. It will be 113 feet long on Summer Street and 109 on Church Street with a courtyard in the rear. All the ground floor will be occupied by the post office and on the second floor there will be provision for the Customs and Excise Department, R. C. M. P., Fisheries Department, Unemployment Insurance, Department of Agriculture and Commerce Branch. In the basement there will be a five-car garage.

The building will be of brick and steel construction and it is estimated that the Post Office will have three times the space they now have in their present crowded quarters. There will be approximately 1,000 letter boxes compared with some 600 at present.

It would seem that this would be a proper time to consider the inauguration of a household mail delivery system but apparently this is not being done. Tenders close on January 18th so it is expected that construction will get underway next spring.—S.

Civic Election Rumors In S'side

Although the civic election in Summerside is over a month away considerable rumour and speculation are current which may indicate that more interest will be taken in it than in recent years.

Possibly one reason for increased interest is the public discussion that has taken place lately regarding the proposal that the Town erect an artificial ice rink and community center and that a plebiscite be held, possibly at the time of the civic election, to find out the wishes of the people on the matter.

One of the most prevalent rumours is that Councillors Henry Wedge and T.D. Morrison will be candidates for the mayoralty. If this is so it will mean that two vacancies will be created in the Council to be filled by new men. —S

May Rebuild Road At Mount Pleasant Airport

The Provincial Government is at present negotiating with the War Assets Corporation with regard to acquiring the land at the Mt. Pleasant Airport. The lighting plant and other equipment at the airport, which served as a large air training centre during the war, has been removed to the Summerside airport, but there remain five hangars, a drill hall and numerous other buildings.

The airport covers 700 acres of land and includes a mile and a half stretch which was formerly a roadway. The government is considering rebuilding this road if the land can be acquired at a reasonable price.

A group of Government members and officials visited the old airport on Wednesday on an inspection trip.

FINANCIAL WIZARD DIES

GREENWICH, Conn., Dec. 22 — (AP)—Howard C. Hopson, 66, the financial wizard who created a billion-dollar utilities empire that crumbled as he went to prison for mail fraud, died yesterday. Hopson pyramided a $300,000 investment into the vast Associated Gas and Electric system by a series of financial manoeuvres that baffled the leading accountants and lawyers in the United States. But the whole intricate structure collapsed in the 1930s under searching investigation by committees of Congress, and thousands of stockholders lost millions of dollars in the crash.
