Best Liniment Of All
Destroys Every Pain
But Never Burns

"How thankful we are to get hold of such a wonderful household remedy as Nerviline," writes Mrs. E. P. Lamontagne, Alberta. "In this far away section far away from a doctor or druggist, every family needs a good supply of liniment. Nerviline is the best of all. It destroys every pain, but never burns. We use Nerviline in a score of ways. It's rheumatism, aching back, pain in the side, sciatica or stiff neck. You can laugh at them if you have lots of Nerviline handy. For aching, toothache, or sprain, it does anything you could want. I think of no general-acting remedy I think of no more valuable and speedy to cure than Nerviline."

The above letter is convincing. It tells how reliable and trustworthy this old-time remedy is. Nerviline, for forty years has been a household word in Canada. Scarcely a home in Canada, and without Nerviline. Every community has its own examples of the wonderful curative properties of Nerviline which will cure pains and aches anywhere in the joints or muscles. Its penetrating, soothing warming and safe for young and old to use. Get the large 50c. family size bottle. It's the most economical. Small trial 25c at all dealers anywhere.

short of the average of the rest of the world, and now we are asked to pay below that it would take \$20,000 to bring us up to the standard. We do not consider, however, that the opportunity should be taken away from many men who have not contributed to the extent they should. We think that the sense of honor inherent in us all, in varying degrees, should influence those men who, have spontaneously failed to come up to the standard, that they might do so; so that our proposal will not be to meet that deficit in full, but to grant for that purpose and for the purpose of aiding men who go to the front, through the Government, funds and otherwise, in aid of the returned soldiers' commission, and other objects directly or indirectly affecting our troops—that the total grant for war purposes should be \$20,000. We anticipate as a result of this taxation an increase in revenue of \$27,000. What disposition is proposed in regard to the remaining \$7,000? It is this: It is one unfortunate result of the hardships of the war, the same constitution, considered to be fairly sound and free from tuberculosis, have broken down in the process of training and tuberculosis developed. In other cases it has developed at the front. The number of returned soldiers afflicted with tuberculosis coming to Canada was beyond expectation, and preparations were made on the mainland in the different provinces to receive them and give them proper treatment. Nova Scotia was fortunately situated in that regard. Nova Scotia in 1904 had built a hospital for the treatment of incipient cases of tuberculosis and added greatly to its capacity in recent years. It had given special equipment in relation to the war and was fitted to its capacity with returned soldiers. We in the ordinary course of things would have been left unprovided for, but the destiny that watches over absent-minded people was kinder to us than we knew when Mr. Dalton first conceived the idea of erecting a sanatorium for the treatment of incipient cases of tuberculosis. He had in his mind this war just as much as he had in his mind the day when the world would come to an end, but he had the great idea of service to the people the central thought of charity and benevolence, and so he gave more largely to that institution than any man in this province has ever given to any charity. If it were not for that hospital our soldiers afflicted with tuberculosis would be sent to the front, to their own friends at home and there they would have to take the best treatment that conditions would permit.

The Premier went on to explain that the institution to-day is all ready for the accommodation of returned soldiers suffering from the dread disease, and there are at the present time in the Sanatorium ten who have come home from the front. With regard to the complaint raised by some respecting the situation of the Sanatorium and its distance from the railroad, the Premier stated that the Commission which had charge of the management of the institution decided on the site after consultation with the best authorities on the subject. In this connection, the Premier said it was being the year of its commencement the overhead expenses will be almost as great as if it were fully kept up. Provisional staff is there for five as well as thirty-five or forty. Fuel and light and other charges are fixed and are only slightly varying. So generous are the allowances made by the Dominion of Canada for the maintenance of returned soldiers, that within the hospital comes to be occupied to its fullest capacity, if half the number consist of soldiers it will be possible to operate without any further burden upon the resources.

The Opposition, said the Premier, should not assume any responsibility in connection with the institution or the money for its maintenance. What was the alternative? Was the Government to repudiate the statute passed by the Legislature three years ago and close the doors of the Sanatorium and turn away people suffering from this dreadful disease and allow them to go home and die, contaminating others? These were not imaginary cases, but were there, said the Premier, and they were knocking at the door every day.

The Premier then moved: That the ordinary delays in the various reading or resolutions and bills be suspended for the purpose of enabling resolutions to be passed to-day in this House.

Mr. J. H. Bell spoke in regard to the request has come from the Patriotic Fund for a grant of \$20,000 in order to equalize us with the contributions from the other provinces of Canada, already as a province have given relatively more to the Patriotic Fund by Government gifts than any other province in Canada, but the popular subscriptions have fallen far

Provincial Legislature
(Continued from page one.)

done because we are ready now with ten times as many men, and no man who knows the resources of this country and the depth of loyalty in the hearts of all our people, doubts for a moment that if the war were to call for more, and the security of the Empire demand more, we would respond again and again. From this little province alone between two and three thousand men have joined the colours—that is, within the province—and from every part of Canada and the Empire, Islanders have enlisted.

(The Premier then referred in eulogistic terms to the splendid services rendered by Prince Edward Islanders, notably Dr. McPhail, Private McQueen, Dr. C. M. Leighton, John Jenkens, M. D., Captain Temple McDonald, Major Proves and others who have won distinction in the war. The Premier's remarks in this connection were received with great applause from both sides of the House.)

This, said the Premier, brought the war close home to us and the distinction achieved by these Prince Edward Islanders should serve as an inspiration to others. We had begun, he said, to rely for our inspiration, courage and self-sacrifice so largely upon what our ancestors had done that we were losing sight of the fact that we might do the same things ourselves if opportunity offered.

"It is well," continued the Premier, "to be proud of what our ancestors have done. But it is to stop there. When the war is over and peace has come again men will honor the soldiers who fought and they will honor the private in the ranks who did his duty as much as they will honor the Colonel who has merely done his. There will be no grading down or up in the respect which the people will entertain for the faithful soldier returned from his duty. But where are we going to stand when peace comes with scrupulous caution every copy that is given and some of us who do not even take the trouble to measure, who have given nothing? How will the future reckon with us? How will it reckon with those who, in the trying days, were satisfied to see the burden borne on the shoulders of others? The reckoning of the future will be a heavy one. We propose today to ask the Legislature to follow the example of other provinces in Canada and place the burden of this special charge for this year upon this year's revenue. A bill will be introduced to the House with that object in view. It is intended to increase the taxes by one-third, except the taxes imposed under the Road Act which are left untouched. They are not taxes which yield anything to the revenue."

The Premier went on to compare this proposed scale of taxation with other provinces and showed that the rate which it was intended to be levied in this province was lower than that of any other province.

The request has come from the Patriotic Fund for a grant of \$20,000 in order to equalize us with the contributions from the other provinces of Canada, already as a province have given relatively more to the Patriotic Fund by Government gifts than any other province in Canada, but the popular subscriptions have fallen far

The Real Friend

A Large Bottle

The greatest friend to sickle people is the one that helps them toward health. But nearly every human friend had heretofore suggested a different means of regaining lost health due to nervousness, overwork, debility and worry. Now there are dozens of friends right here in your own town who will agree that the best friend to their health is Zotic—the health tonic. This already famous remedy for "nerves" and their consequent ailments is a combination of glycer phosphates—the actual elements of the human body with Cod Liver Oil and delicious tonic wine. A short two weeks of faithful trial will put you fair and square upon the path of bounding health. We know this so absolutely that if we cannot report real progress at the end of that time we will refund the purchase price. You who suffer and suffer and suffer should not delay beyond today. Give The Boy A Chance!

If you live you will, but if you die you will! That is the question.

A boy with a strong body, a strong mind, and a strong heart will look out for himself, and live!

Suppose him to the date of maturity. In this life, every competition a boy needs every advantage available. He must secure a favorable position. A thorough education, and a good start in life, can be guaranteed to him by means of an endowment in The Mutual of Canada, payable to the boy if you die, and payable to him also if you live to the date of maturity.

The endowment term may be 10, 15, 20, or any other term of years according to the boy's age now and when the money is likely to be required.

We will adapt the policy to your needs. Drop us a line.

THE SCOOP-NET

WOUNDED

BY Tom A. Hawke

IN THE SUMMER some people get a chance to rusticate. Others, just "fooliate."

BY THIS TIME the Kaiser ought to be seeing something that looks suspiciously like his finish.

THE SOREHEADS will likely have sore feet as well if they happen to step on the war tax.

NO MATTER whether the Germans are on the run or not molasses continues to advance.

THE MAN in the moon has one advantage over his terrestrial brothers. He is most brilliant when full.

WHEN IT COMES to a consideration of the P. E. Island Auto question we are constrained to feel at times that more than the roads are too narrow.

A GERMAN submarine raided a fleet of herring boats the other day and sank eight. "Smacks of victory," was probably the Kaiser's exultant remark on receiving word of this wonderful achievement.

ACCORDING to advice from the United States Women's sheds are to be shorter but will cost much more. Ah! That is where the pinch will come.

A BUDDING BARD who wants to know if poetry should just be written on one side of the paper. That depends, dear sir. There's a lot which counts in his way which shouldn't be written on either side.

ISLAND BERRY GROWERS are proving year after year more adept in the raising of berries. Again we are reminded that our favorite and most successful method of raising 'em is with a spoon.

A REAL CANADIAN BOY.

Glorious summer-time's now here. The time of which we sing—When sweet voiced birds do appear—And little beetles sting—There's not a time in all the year—Which brings so much joy—As summer—when 'twixt winter—

Yes, a Real Canadian Boy!

Cuz then I get me hockey stick—And get down on the mill—An' with me pair o' skates right slick—O' Fuh! I have me ill!—Oh, they ain't nuthin' like it—It's fun without alloy—The birds an' bees ain't in it—If—

Yes, a Real Canadian Boy!

O' course there's great fun swimmin'—An' a ball on a raft—(Go! How it scares th' wimmen—No wonder that you laffed.)—An' we have playin' baseball—An' they ain't nuthin' like it—But what's that fun to winter sport—If—

Yes, a Real Canadian Boy!

Of course there's great fun swimmin'—An' a ball on a raft—(Go! How it scares th' wimmen—No wonder that you laffed.)—An' we have playin' baseball—An' they ain't nuthin' like it—But what's that fun to winter sport—If—

Yes, a Real Canadian Boy!

HOPIN' THESE FEW LINES WILL FIND YOU WELL.

A few more lines of space to fill—A splendid scheme, ah, bliss—It's much too hot to work—therefore—We'll—
