IN MEMORIAM

MISS MARY WEATHERIE

In the early hours of Wednesday morning Feb. 15th, 1933, a deep gloom was cast over Village Green and adjacent districts when they had heard that one of their oldest and respected residents in the person of Miss Mary Weatherie had passed to her eternal rest and reward. Mary, as she was familiarly known was born at Village Green 1848, the eldest daughter of Mr. and Mrs. Timothy Weatherie. In sickness or in sorrow her ever willing hand was always ready to soothe and comfort, and in her home it can be truly said she eat not the bread of idleness. Mary was courteous and kind, on her face she always wore a smile. All through this long life she enjoyed excellent health but during the latter part of January she was stricken with a stroke of paralysis. Notwithstanding careful nursing and every attention she generally grew weaker, and went to sleep as she had lived, gently and quietly. Her loveable disposition and fine gifts of mind and heart, had endeared her to a wide circle of friends both young and old. She had a long and

beautiful life of usefulness in home and community, and when life's journey ended the Divine Master called her home to Himself to receive the well done and crown of glory and to be with loved ones gone before.

The services at the home and grave were conducted by her pastor Rev. Ewen MacDougall. Her favorite hymns were sung, the 23rd Psalm and What a Friend We Have in Jesus. Her remains were tenderly laid to rest in Birch Hill cemetery. She leaves to mourn six sisters and one brother, John Robert who with his five sons were her pallbearers. Jasper, Richard, Ambrose, George and Henry Weatherie.

PRICES HOLD FIRM IN CAN. EXCHANGES

(Canadian Press)

Winnipeg wheat Friday climbed to the heights it had reached shortly after business was tied up in the United States by the banking holiday. Indications the United States was almost ready to lift the deadlock led to a sharp contraction in trading volume on Canadian stock exchanges, but prices held firm at the higher levels reached during a week of independent action.

Wheat, advancing again for the second successive day, soared to a top of 55 to 55 1/2 cents for the October future in buoyant trading helped by buying from the States and light offerings.

The march upward of the Canadian dollar on foreign exchanges appeared halted as the British pound rose from \$4.13 to \$4.18 in terms of the Canadian dollar and the franc also improved.

The outlook for higher commodity prices was a factor on the Toronto Stock Exchange where, although trading volume was only 5,000 shares, the whole list showed a good tone. International Nickel and Consolidated Smelters led with fractional net gains, and even implement shares, which sold lower in mid-week, recovered along with wheat.

As on other markets, brokers on the Standard Mining Exchange at Toronto showed definite disposition to wait for Wall Street's resumption, probably early next week. Silver shares held steady, and minor losses were chalked up in the secondary gold shares, while the gold leaders and principal base metal stocks closed either steady or higher.

On the Montreal Stock Exchange Traders also declined to increase their commitments, but no selling of any amount was in evidence and the market closed with a rally which left prices substantially higher than they had been when Wall Street went out of the picture.

OTTAWA, March 10.—(C.P.)—Industry in Canada is showing some early signs of brightening up with government reports indicating increases of activity in certain specific lines of industry.

A sharp increase was shown in wheat marketing in the west when more than 3,800,000 bushels of wheat was marketed by farmers in the week ending February 24 as compared with 1,896,078 bushels in the preceding week and 3,527,350 bushels in the corresponding week of 1932.
