In loving memory of Mrs. Fraser T. Morrow who died March 13th, 1937.

RIVERDALE SCHOOL Report for February. Grade IX-1, Hazel MacDonal, 2, Yelda MacKinnon, 3, Ralph McQuaid.

CORNWALL

A. C. Allison McPhail, accompanied by his wife arrived on the land from Halifax last Thursday evening.

Last of the staff to leave Beach Cove Training Center, entrained for Halifax Friday, March 9th.

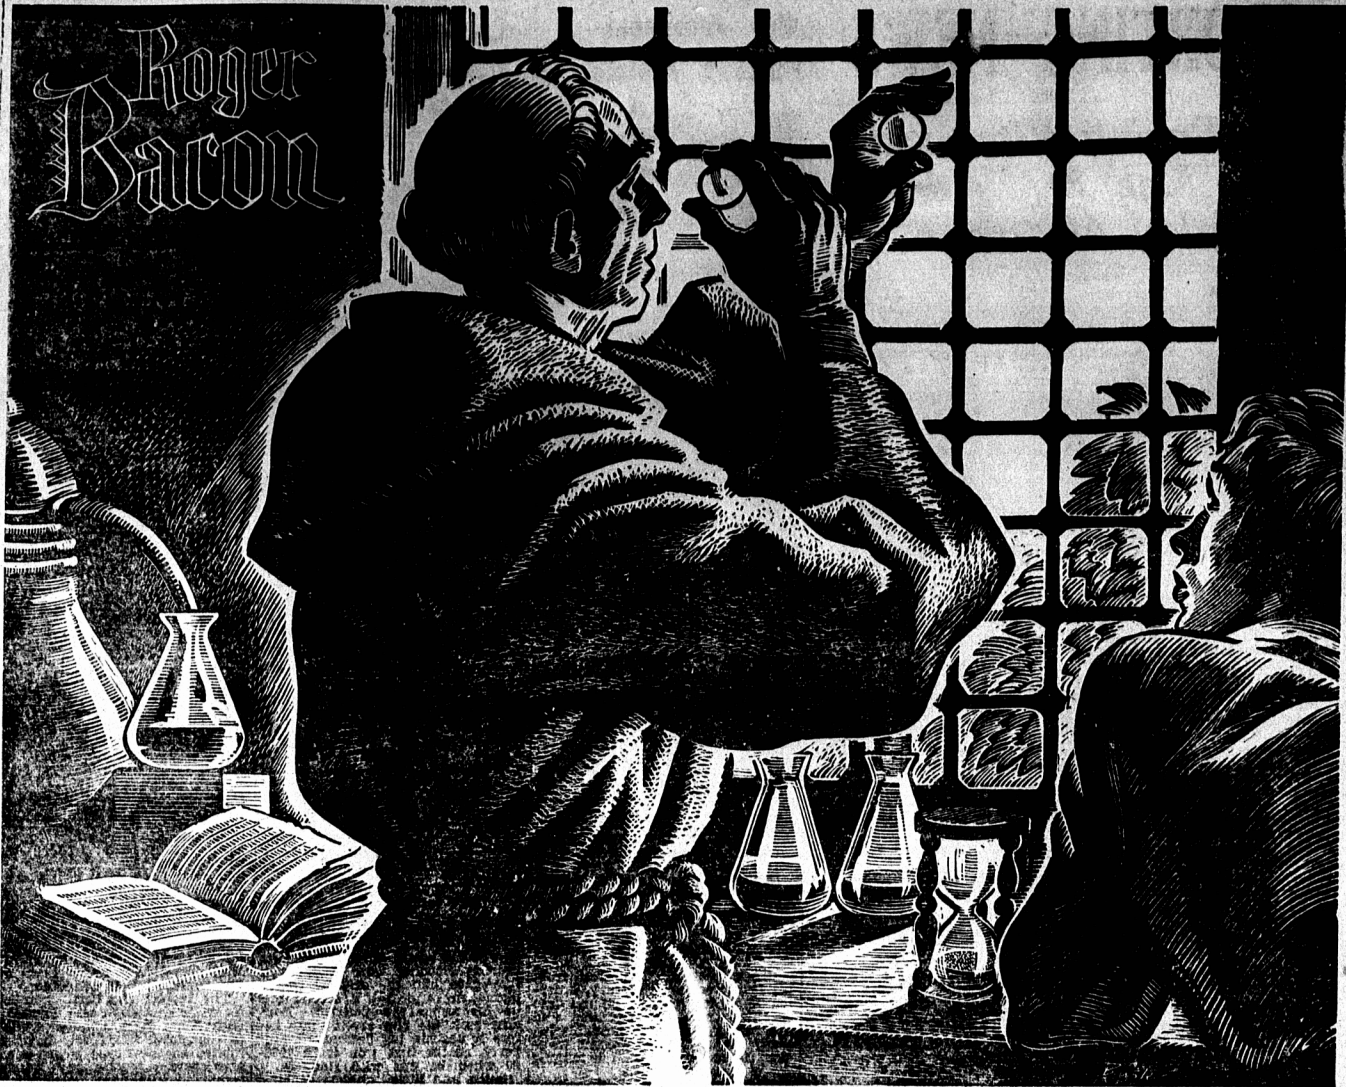

Mrs. Charles MacLean, Clyde River, was welcomed home last week. Mrs. MacLean is much improved in health after treatment at the Prince Edward Island Hospital.

Mrs. John Colwell and Mrs. Stanley Colwell, both residents of Colwell Road, were on the sick list at present.

QUICKIES

I'm still skeptical of that Guardian Want Ad. -it worked too fast!

He gave his life FOR THE RIGHT TO INVESTIGATE

Roger Bacon, great scientist of the Middle Ages, carried on scientific research in metals, in agriculture, medicine, chemistry. He studied the laws of optics; suggested the use of eyeglasses; carried on experiments in magnetism, and produced gunpowder.

LIKE Roger Bacon of old, scientists of today seek to solve many problems

through scientific research. In the Nickel industry they have explored many fields in their search for new uses for Canadian Nickel. Today practically all industries have improved their products or their manufacturing methods by using Nickel.

Canadian engineers, designers and metallurgists have free access to the scientific and technical data gathered together by International Nickel. A request for information is all that is necessary.
