AMERICAN EMPLOYEES TO LEAVE MEXICO

WASHINGTON, Sept. 1, (Special)—John Lind, special envoy from President Wilson in Mexico has been ordered to return to Mexico City from Vera Cruz.
 The order for the return of Lind followed the receipt here of a very optimistic message from Mr. Lind in Vera Cruz. It is possible, unless the present program miscarries, that there will be a full discussion in the Mexican capital this week relative to the chief points at issue between the United States and Mexico, the principal one of which is the elimination of Huerta.
 Many leading corporations with properties in Mexico have already wired for all their American employees to leave for the United States.

SOURIS TOWN COUNCIL

A special meeting of the Town Council was held in the Town Hall at Souris on Friday, August 23rd, for the purpose of opening tenders for supplying material, excavating and constructing a water tank on Chapel Street near the residence of Mr. M. J. Paquet. In the absence of Mayor McLean, Councillor Brennan acted as Mayor. Councillors Creamer, McDonald and M. J. Paquet were present and the Town Clerk Mr. C. C. Carter.
 The minutes of the meeting held on August 26th, were not read as it was thought that the Mayor, who was absent from this meeting, would like to see what the council was doing. The acting Mayor then asked the Town Clerk if any tenders had been received for the construction of the Water Tank on Chapel Street. In reply the clerk read three tenders; one from Mr. J. F. Lavie; one from Mr. I. J. Horne and one from Mr. Donald F. Lavie.
 The acting Mayor then asked the Council what they intended doing in the matter. He said that it was understood they were not obliged to accept the lowest or any tender and the fact that this work was to be done under the supervision of the Council might also be taken into consideration. He said that this was a job that would involve a good deal of expense and it must be permanently done; what they wanted was a water tight tank.
 After a long discussion in which Councillors Creamer, McDonald and M. J. Paquet participated freely a motion was made and seconded that the tender of Mr. John F. Lavie be accepted for the construction of the said water tank on Chapel Street. The motion was carried.
 The Acting Mayor then asked the clerk if any tenders had been received for supplying sand and water. One tender from Mr. McDonald was read in reply and as his price was considered reasonable it was moved, seconded and carried that his tender be accepted.
 As no tender had been received for

MODERN AVENGER WARNS MILITANTS

LONDON, Sept. 1, (Special)—A mysterious person signing himself "Jack the Ripper" threatens to start a lone warfare against the militant suffragettes unless they abstain from violence.
 "Stalking pests of the British Isles" is the title given to the women by this modern avenger. In a note addressed to the Women's Social and Political Union, he says:
 "Unless the women cease their violence I shall suppress militant suffragettes by a method that has been proved effective. They are the stalking pests of the British Isles."

HOLD AERONAUTS AT GALERIONO

MILAN, Sept. 1, (Special)—Two military aeronauts were arrested at Galerione yesterday when they made a landing there in a Zeppelin dirigible balloon. They said they were from Inshubuck. The men had a number of photographs of Italian fortifications and these were seized.

SOLAR ECLIPSE.

The second solar eclipse of the year took place on Sunday, but the phenomenon was observed only in the extreme northeastern part of the continent. The partial eclipse of the sun was visible in Newfoundland, Labrador, the extreme eastern portions of Quebec, New Brunswick and Nova Scotia, and in Greenland and Iceland. At St. John's, Newfoundland, the eclipse began at 5.33.2 p. m. and ended at 6: 9.

"SOME HAV' MEAT, AND CANNA EAT"

So Bobby Burns tersely describes the rich, but still poor, dyspeptics. But their case is not now so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the meal with a Na-Dru-Co Dyspepsia Tablet.
 These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is bilious—the sufferer from heartburn, gas on the stomach or occasional indigestion. You can eat hearty meals of wholesome food—and digest them, too—if you take Na-Dru-Co Dyspepsia Tablets.
 Compounded by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning up and strengthening the digestive organs and bringing about permanent cures.
 A man is no stronger than his stomach. Fit yourself for your best work by taking Na-Dru-Co Dyspepsia Tablets, soc. at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal. 144

AUTO NEWS
 (By J. C. Kerrison.)

One out of eighty persons in the United States owns an automobile. Up to July there were 1,157,646 motor cars registered in the country. In the first six months of the year there was a gain of 147,163 in the registration of automobiles. Massachusetts stands eighth in the list with 52,193. New York, of course, heads the list with 110,618, while California has 108,158. Illinois is third with 76,039. During the first six months of this year there has been a daily investment of three-quarters of a million dollars in motor cars. This fact should suffice to convince most anybody that the automobile industry today stands among the most powerful and the most important of American manufacturers.

An English Engineer is responsible for the design of a new type of gasoline engine, which is designed to run at an exceedingly high speed. The engine has eight steel cylinders, arranged in v-form, on a tubular steel crank-case, and it is interesting to note that the bore of these cylinders is greater than the stroke—the measurements being respectively 2 1/2 and 2 1/2 inches. They are set in staggered fashion, and it is said that the engine will develop 50 h.p. at normal speed.

An old friend, but eternally useful, is that stock-piece of advice anent leaving the car at night for any length of time; make it an invariable rule to shut off the gasoline supply, because if this is not done and there is a leak or a flooded carburetor, there may easily be a bad fire caused by some passerby with more time than brains throwing a lighted match or cigarette under the car. And if nothing worse happens, there is a waste of perfectly good and increasingly expensive fluid.

Wonderful Drugs That Stimulates Growth Of Hair

And Revives Pigment-Forming Cells That Give Hair its Natural Color.
 Hardly any of us are entirely free from Dandruff or other scalp affections. Millions of us, so long as the trouble is slight, do little or nothing to cure the affection. Other millions are trying to do something, but getting no results, by applying all sorts of fancy colored and fancy named hair "tonics." You are not likely to get much benefit, if any, by using any preparation that does not contain the one known drug that positively stimulates the growth of hair. The safe and sure way is to mix your own tonic or go to a reliable druggist and have him mix it for you. Here is a simple formula: 6 oz. ordinary Bay Rum; 2 oz. ordinary Lavona de Compose; 1 drachm Menthol Crystals. If you choose, add 1 drachm of your favorite perfume. Apply to the scalp with finger tips, night and morning, to destroy dandruff, to stop falling hair, to cleanse and beautify the hair, and to stimulate the growth of the hair. This treatment is recommended to stimulate the growth of the hair even in cases of complete baldness. If your hair is prematurely gray, try it and see if it will not make the pigment-forming cells active enough to completely restore the natural color. This formula contains no dye or artificial coloring matter but is designed to make nature produce the natural color in the natural way. Any druggist can supply you with the ingredients or mix the tonic for you.
