

## Holman's New Charlottetown Shoe Dept. Opening Today

Another forward step in their policy of providing customers with the greatest amount of service with a minimum of inconvenience will be marked this morning by R. T. Holman Ltd. when they open a shoe department in their Charlottetown Store.

Holman's new Shoe Department is located between their Ladies Wear and Hardware departments. All departments are connected to one another by archways so that it is now possible to shop in the China, Hardware, Shoe and Ladies' Wear Departments without moving out of the store.

The Shoe Department, which comprises an area of 1125 square feet, is colored in light green and silver gray. The interior is illuminated by fluorescent lighting which provides a very soft, pleasing effect for patrons and staff members.

The Shoe Department is under the supervision of J. A. Kilbride, who brings a wealth of experience with him after spending 12 years in Holman's Shoe Department at Summerside. Mr. Kilbride will be assisted by permanent staff members Mrs. H. M. Morrison and Miss C. M. MacCallum. Mr. Ralph Blair, who is the Merchandise Supervisor of both the Charlottetown and Summerside departments will assist Mr. Kilbride for the first month.

The usual liberal credit terms that are in effect in all other departments at Holman's will be in effect at their new Shoe Department.

Holman's new Youth Centre at their Charlottetown Store will be completed this week and opened on Monday. In addition work on a new stairway leading from the first to the second floor of the greater convenience of shoppers is also nearing completion.

## Irish Society To Parade On St. Patrick's Day

When March 17 dawns in Charlottetown the Benevolent Irish Society will hold its annual St. Patrick's Parade. The parade will form up at the Whelan Memorial Building on Grafton Street at 9:30 a.m.

Headed by Chief Marshal Fred Steele, it will move off along Grafton to the Cenotaph where a wreath will be placed in memory of members who gave their lives. The parade will proceed along Grafton to Pownall; to Kent; to Queen; to Richmond; to Great George Streets; and thence to St. Dunstan's Basilica where a High Mass will be offered.

Following the church service the parade will form on Great George Street, proceed to Richmond; to Prince; to Kent; to Queen; to Grafton and thence to the Whelan Memorial Hall, where it will disperse.

## Governor is Host To Members Of Legislature

Last evening the members of the Legislature along with the Deputy Ministers of the Crown were guests of His Honor Lt. Governor T.W.L. Prowse and Mrs. Prowse. The occasion was the annual Legislative dinner held at Government House. Receiving the Guests with the Governor and Mrs. Prowse were the Hon. Capt. A. Connolly Lt. Colonel A.W. Rogers and Wing Commander Alan Macmillan.

## LABOR COUNCIL

their knowledge in matters in which they are interested.

AGRICULTURE  
All of us are disturbed by the continuing decline in farm income, and we feel that something should be done to correct this situation, to a degree at least.

We feel that our potato growers are discriminated against by the tariff imposed by the government of the United Kingdom against the stock potatoes shipped there from this country, while their similar product enters this country free of duty.

You might insist that the Federal Government subsidize our growers for all potatoes shipped in an amount equal to the duty on our product shipped to the U.S.A. We feel that this is no more than fair, when our farmers are obliged to buy all their machinery and equipment which is more costly due to the fact that it is higher in price than would be the case if it were not protected by a duty on similar goods produced in the United States.

FEED GRAINS  
We believe that freight rates on feed grains shipped here from the Western Provinces should be greatly reduced; this would have the effect of providing a market for Western feed grains, and at the same time make it possible for farmers here to raise livestock on a profitable basis.

We think too, that a government owned and operated grain elevator would make it possible to bring in feed grains by water, which is the least expensive, and at the same time could assure a supply of feed at all seasons of the year.

In the interest of our farm producers too, we suggest that your Government not permit the importing into this Province of beef unless it be by the carcass or side, as the present method of importing quarters only has a depressing effect on the sale of locally produced beef.

VACANT FARMS  
It is notable that there are a great number of farms vacant on the Island and almost continually more being vacated, and we suggest that many young people would remain on, and go to the farm if the means were available to them to start, and become, successful farmers.

We suggest that your Government set up a Board to investigate worthy applicants, and where worthy to authorize interest-free loans, so that such as so desire might have the opportunity to become successful farmers.

HOUSING  
Many families in this City live in second rate, old, and dilapidated houses, and we would like to recommend to your Government a program of housing development and improvement through the medium of low interest, long term loans. This would provide not only healthy surroundings and accommodation for a great many people, but also provide work and buying power for many who are unemployed or employed only part of the year.

Further, this could create an additional market for lumber from the farm woodlot, which would be, we believe, a very acceptable supplement to the farm income.

WORKMEN'S COMPENSATION  
It was with a great deal of satisfaction that we, as workers, noted the enactment of a Compensation Act.

However, we feel that our Act leaves much to be desired. We believe that compensation for injury on the job should be one hundred percent of wages. We feel that this would serve a twofold benefit to the working people of the Province.

First, we think that you will agree that a person who is not employed due to having been injured on the job needs his or her wages even more than when able-bodied, and second, that many dangerous devices used in industry would be eliminated, due to the extra cost in paying fully for injury to workers due to the use of such dangerous device or any dangerous practice in any industry.

INDUSTRY  
Your Government is to be commended in the encouragement and assistance extended to industry in promoting the processing of farm products here, and also the processing of products of the sea about the Province. This has been a long step forward in the developing of our Island economy. May we suggest that you extend your commendable effort in promoting the building of a drydock at Charlottetown. We have the qualified workmen and use of such a facility, an excellent harbour, and its use would add greatly to the opportunities which would keep our Island people at home, if these facilities were such as would accommodate boats in government service, together with those of the Navy and also those which are privately owned.

We suggest also that every effort be brought to bear on the Federal Government, to the end that the Charlottetown Airport runways be extended to accommodate modern air traffic. We are blessed with an almost fog free climate which tends to be a very beneficial factor in this section of transportation.

EDUCATION TAX  
We, representing many of the workers of this City, deplore the existing Law, which permits the City of Charlottetown to collect what is known as "Education

HAMILTON GOSSE

## Centennial Y's Men Meet Visitor

The weekly meeting of the Centennial Y's Men's Club was held in the Y.M.C.A. last night with President Bob Giggey and Bennett Carr as Co-Chairmen.

The guest speaker of the evening Hamilton (Hammy) Gosse, National Council Liaison of Y's Men's club was introduced by General Secretary Gordon Maxwell.

Mr. Gosse gave the club a very clear and understanding insight into the training and grooming undertaken by the public if it works. Y's Men cannot follow a policy of self service but every person connected with Y work must get himself out of himself and thinking of the welfare of the other person.

The greatest service of International Y is not to the adult but to the youth of the nation.

NEVER ENDING  
Mr. Gosse went on to say that the task with the youth of Canada was an ever increasing one of leadership and this no sooner is one task completed than a new task takes its place in the form of more youth. Hence we can never say our task on earth is done but is a never ending one.

That the next 25 years will pose a greater problem with Canadian youth than the last 100 years is shown by Mr. Gosse as an incentive to all the members to assist themselves and live up to and associate themselves morally and spiritually with their Y's Men's pledge.

Guests of the evening introduced by Y's Pres. Bob Giggey were Art Duvar President of the Local Y.M.C.A. Lolon MacLellan, George Purvis, Ken Parker of the Alpha Club, Clarence Mercer and Charlie Balm of the Summerside Club.

Lorimer (Pop) Cudmore was welcomed back to the club for the evening. Pop Cudmore assisted by Les Alexander at the piano conducted a very lively sing song.

The meeting closed with the Queen.

ANCIENT SITE  
A 2,000-year-old cemetery was unearthed during excavations for a housing project near Hamburg, Germany.

LOOK  
For a limited time only, a free bag of marbles with every 16 oz. ice box jar of Silver Seal Peanut Butter.

RURAL ELECTRIFICATION  
Your Government has done a great service to a great many people in this Province in the matter of your system of assistance in building rural electric lines, thereby bringing to many of our citizens in the country, the convenience of electric power.

However, many people in rural communities are far removed from main electric lines, and in such cases, we feel that it would be a great service to these less fortunate citizens, if your Government were to embark on a program of assistance in building and maintaining lines to the homes and farms of these people.

B. I. S. NOTICE  
Members of the Benevolent Irish Society are requested to be at the Whelan Memorial Hall no later than 8:30 a.m. Saturday morning for the parade. All should have dark top coats and white scarves if possible.

(Signed) FRED STEELE,  
Chief Marshal.

## "Molly Darling" Sparkles With Irish Comedy

One of the finest St. Patrick's shows yet presented is all in readiness for the capacity audiences expected at the Community Centre on Friday and Saturday of this week.

"Molly Darling", a sparkling, delightful three-act comedy, is the Benevolent Irish Society's choice for St. Patrick's entertainment.

The show is fast-moving, with peppy lines and an abundance of hilarious situations. The cast is composed of talented artists who will be making an all-out effort to make "Molly Darling" something long to remember.

The cast includes Mary McWade, Jeanna MacIsaac, Benita Binns, Maureen Beagan, Olga Dowling, David Morris, Ev. Beagan, Bill Ledwell, Harold Power and Pius Callaghan.

Specialties are of the Grade A variety and include the children of St. Vincent's Orphanage, Kay Gallant, Patsy Leightizer and the Roberts Sisters.

Show times are Friday and Saturday, March 16 and 17. Curtain is at 8:30.

Special matinee for the children Friday afternoon at 3:30.

## U.S. Interests In Mid-East Jeopardized

WASHINGTON (AP)—President Eisenhower said Wednesday U.S. interests in the Middle East "are very greatly jeopardized."

He made the remark in a press conference discussion of Arab-Israeli differences. He also touched on the Greek-British row over Cyprus, saying the United States stands ready to help work out a solution.

Eisenhower was asked about the policy of shipping arms to Israel, with his questioner noting that the United States has helped other small countries when they were threatened by larger neighbors.

The president said U.S. policy has been that the best way to keep the peace is to avoid an arms race there. He continued:

"There is no blinking (at) the fact that in that area our interests are very gravely jeopardized. . . . We have got to explore every possible means, and we have foreclosed on nothing. . . ."

"I never said, and I am sure that the secretary of state has never said, that we would not furnish arms to Israel. We were hoping for a better solution."

The president's use of the past tense gave rise to speculation, which drew some support private

request has been taken off the shelf and is under active consideration again.

NOT TAKING SIDES  
On another Middle East problem, Eisenhower strongly backed state department statements that the United States is not taking sides in the dispute over Cyprus.

"Here is a place," Eisenhower said, "where two of our very best friends are engaged in an argument with very great difficulty. . . . We are ready to do anything that is reasonable and practical to help in reaching some solution. . . ."

At the state department, spokesmen said they feel Britain has been mollified. The foreign office objected strenuously because the U.S. expressed "sympathetic concern" to Greece.

Eisenhower emphasized that a British-Greek co-operation "is essential to the success" of the North Atlantic Treaty Organization.

BRITISH SHIPS  
Vessels built in British yards for foreign owners in 1954 were valued at \$250,000,000.
