NOTHING TO WORRY OVER.—A writer in the New York Herald, in speaking of the conjunction of planets this week, says: "As a student of the 'science' of the stars for over twenty years, permit me to say that there is nothing to worry about because of this planetary conflagration. With the exception of Mars and Saturn, the planets are not malefic, and the presence of the great benefic Jupiter and the lesser benefic Venus will mitigate the evil. Consequently there is no danger of any cataclysm or remarkable storm, and there need be no concern regarding this conjunction, which has occurred scores of times before this."

THE PARK ISLAND FOX COMPANY, Summerfield, have just presented their stockholders with a 15 per cent cash dividend, which coming just before Xmas will no doubt make it doubly welcome. It is understood this company is carrying over a large number of pups to take advantage of the increased value of second year pups, which should prove a profitable move for the Company. There are many other companies paying substantial dividends, which indicates that the Fox industry is flourishing. Let us hear from others.
