Lesson in Thorough Bass

The use of the word "stuff" in the President's Thanksgiving proclamation, comments the Brooklyn Eagle, furnishes the discord needed to emphasize the harmony of the flowing rhetoric. In effect the president says "We are the stuff." If our enemies twist it we shall not care. James G. Blaine was called the "plumed Knight" by Ingersoll, and it passed for a fine compliment, but Blaine thought it suggested the "white feather." If the president thinks his boys are the stuff, we shall all agree with him. Here's where the Kaiser gets a lesson in thorough bass.

Sordid But True

The poets soon will start to sing
Their odes and lay to gentle spring
But I, am one who waits the day
The hens resume their springtime lay.
'Tis not for poetry I beg,
Give me the fresh-minted egg.

Lemon Juice is Skin Beautifier, Also a Whitener

Many women use just the juice of lemons to bleach or whiten the skin, but pure lemon juice is acid, therefore irritating, and should be mixed with orchard white.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to bring back to any skin the whiteness, the sweet freshness and flexibility of which it has been robbed by carelessness of trying atmospheric conditions.

MY TIRED FEET ACHED FOR "TIZ"

Let your sore, swollen, aching feet spread out in a bath of "Tiz"

Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like lumps of lead—all tired out—just try "Tiz". It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture.

Get a 25-cent box of "Tiz" at any drug or department store—don't wait, ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

CANADIANS HAD PART IN GUN DUEL BEFORE START OF GREAT BATTLE

Railway Construction Troops, the Horse Artillery and the Motor Machine-Gun Batteries Were in the Thick of the Great Struggle Two Canadian Batteries Lost or Destroyed.

OTTAWA, Ont, March 31—In a cable message, given out by the Prime Minister's Office, Ronald Hill states that "in the stupendous gun duel which was the prelude to this greatest of all battles raging between the Scarpe and the Oise, Canadians played their own little but not altogether insignificant part. The railway construction troops, the horse artillery and the motor machine gun batteries were in the thick of the great struggle, yet every unit today is congratulating itself. Our casualties were very light, our losses in material not worth considering.

"We had horseshoes strung all around us," declared the commander of a railway battalion whose old camp is for the present in the Huns hands. All through the first day the guns of the Canadian Horse Artillery swept troops into the thick advancing hordes of Hun storm stroops. Sometimes before they limbered up to take a new position they were firing point blank on the Germans, mowing lines in each succeeding wave, said a Canadian officer. Sometimes the attackers would divide and sweep by us and we would find we were actually in front of our own infantry, but not for long did that sheer weight of human flesh stay in our rear.

"Fighting, sometimes out-numbered by ten to one some Irish troops around us, with bayonets and bombs, came swinging back into the fray until the infantry line was again securely in front of us. These men were wonderful and never for a minute looked as if they could be beaten. During most of the early morning, the work had to be done with gas masks on, so great was the number of gas shells poured in on each battery. After locating the desired gun positions, the enemy made a complete and narrowing circle of light shrapnel, shells around it and then poured in heavy shells on the gunners. As yet I cannot obtain exact details of what the R. C. H. A. suffered but I hear that in spite of changing position seven or eight times bringing horses inside the barrage and taking the guns out, only two of the Canadian batteries were lost or destroyed. At one time some Hun cavalry were behind them, but the teams with the undamaged guns drove crashing through the small troop that thried to stop them. All the guns that fell into the enemy's hands were blown up before the crews left them.

"Heavy Canadian batteries are in action," concluded the message, "where they came from and how they got there is a marvel. When I found the battery it was pegging away as it they had been in that position all their military lives."

Buys A Scotch Island

Lord Leverhulme Acquires Lewis, of 440,000 Acres

LONDON, April 1—Lord Lever hulme, who recently came into the public eye through his advocacy of the six hour day for laboring men has become one of the largest landowners in Great Britain by the purchase of the Scotch island of Lewis which is 440,000 acres in extent, and has a population of about 35,000.

The island is the largest of the Outer Hebrides, and its principal town is Stornoway, a port with a population of 4,000. It has a good harbor and is the centre of the greatest of the Scotch fishing districts.

QUESTIONS FOR EXEMPTED MEN

Case of each will be reviewed in order to ensure even administration of Service Act

One of the most significant of the many evidences of that comradeship in arms, now existing between the great democracy to the south and ourselves is the freedom with which each is borrowing from the notebook of the other. The United States, as a later entrant into the struggle for the maintenance of the free institutions of the Earth, necesasrily began as a debtor, in the matter of experience, to the neighbor which had been in the fight from the begining. But in a certain sense it may be said that the American Republic has already liquidated this indebtedness. Certainly when the final balance is struck, it will be found that the United States will have paid back with interest, all the military short-cuts acquired in the early days of the Alliance. One of the many ideas for which we are already indebted to the United States is the questionnaire designed of the Military Service Act. These questionnaries, following the practice employed in the United States, will be mailed to all exempted men, who must return them properly filled in, without delay, or forfeit their certificates of exemption. Any change in address should be at once communicated to the District Registrar, as failure to receive questionnaire will be regarder as of the same effect as failure to return it properly filled in. The general public are invited to asist the Government, to the fullest possible extent in the even administration of the Act.

TO PLACE ALL ON EQUAL BASIS

Uniform Administration of Military Service Act sought by Questionnaire Method

The great crisis through which the world is now pasing has served to emphasize among a great many other things the axiom that responsibility is the price of liberty. Because equal privileges are enjoyed by all citizens of Canada, it is the duty of our Government to see, as far as it is able that all are made to bear equal sacrifices. That the Dominion's War Government is not unmindful of its duty in this respect is evidenced from the care that is being taken to ensure the equitable administration of the Military Service Act. Questionnaires are about to be addressed to all exempted men so as to permit of a checking of the decisions in the case of each to the end that uniformity be established in the aplication of the legislation. These questionnaries must be returned promptly upon penalty of forfeiture of the exemption papers previously granted. Exempted men should notify the registrar of their district of any change of address, as non-receipt will be regarded as constituting failure to return questionnaire, properly filled in as required. The Government Service Act shall be administered fairly, and in this determination they will have the active support of al lfollowers of democratic ideals.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

"Say Doctor, This Prescription Works Like Magic"—Physician Explains Why Nuxated Iron

QUICKLY INCREASES THE STRENGTH AND ENERGY OF MEN AND BRINGS ROSES TO THE CHEEKS OF NERVOUS RUNDOWN WOMEN

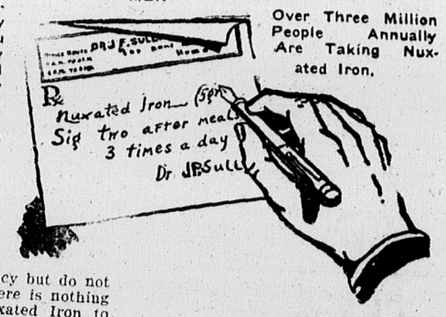
Ask the first hundred strong, healthy looking people you meet to what they owe their strength and energy and see how many reply "Nuxated Iron."

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.) of New York and the Westchester County Hospital says: "Thousands of nervous, rundown, anaemic people suffer from iron deficiency but do not know what to take. There is nothing like organic iron—Nuxated Iron to quickly enrich the blood, put roses in the cheeks of women and give men increased strength and energy.

Unlike the older forms of iron, Nuxated Iron does not injure the teeth nor upset the stomach, but is readily assimilated and you can quickly recognize its action by a renewed feeling of buoyant health.

No matter what other iron remedies you have used without success if you are not strong or well you owe it to yourself to make the following test:

See how long you can work or how far you can walk without becoming tired; then take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.



Over Three Million People Annually Are Taking Nuxated Iron.

To be absolutely sure of getting real organic iron and sot some form of the metallic variety always ask for Nuxated Iron in its original packages. Nuxated Iron will increase the strength, power and endurance of delicate nervous, run-down people in two weeks time in many instances.

NOTE: NUXATED IRON recommended above by Dr. Sullivan can be obtained from any good druggist, with or without a physician's prescription, on an absolute guarantee of success by its manufacturers or money refunded. It is dispensed in this city by Geo. E. Hughes, Apothecaries Hall, E. A. Foster, Central Drugstore, H. J. Mahon, (Montague,) and all good druggists.
