MALT BREAKFAST FOOD Is the Food That Satisfies. "Malt Breakfast Food, eaten with cream or milk and sweetened to taste, gives me more satisfaction than any dish of oatmeal I have ever used," says a Toronto gentleman who writes to the manufacturers. It is now a well known fact that oatmeal and other foods severely tax the digestive organs owing to the presence of insoluble starch. No starchy particles in Malt Breakfast Food; it is predigested easily assimilated and agrees with all weak stomachs. At all Grocers.
