

If Baby is Teething

he is liable to be fretful, but frequently a good deal of this is due to skin irritation which generally accompanies teething. Keeping baby's skin in perfect condition will do a great deal toward helping him through this trying period.

As soon as the slightest rash appears it should be treated with Zam-Buk. Nothing is so suitable for baby's tender skin. The absolute purity of this herbal balm never fails to commend it to mothers of discriminating tastes.

Mrs. C. B. Ritcey of Riverport, N.S., says: "My baby had sores on her face caused by teething, and although I tried numerous salves nothing would heal them. On a friend's recommendation I commenced using Zam-Buk. After the first two applications the sores began to heal and with continued treatment they entirely disappeared."

Zam-Buk should also be used for eczema, ringworm, boils, scalp sores, blood-poisoning, cuts, bruises, burns and scalds. All dealers or Zam-Buk Co., Toronto, 51c box, 3 for \$1.25. Send 1c stamp for postage on free trial box.

NEW ZEALAND'S IMPORTS

WELLINGTON, New Zealand, May 4.—Imports of Japanese goods into New Zealand have increased from £232,364 in 1914 to £693,807 in 1917, said the New Zealand Minister of Customs, reviewing in February the Dominion's imports. He sketched the war

imports from the United Kingdom had decreased 10 per cent, owing to restrictions on British exports, Japan, the United States, Holland and Switzerland are benefitting by the restrictions, and goods from these countries will probably become better known in the Dominion than at any time before the war.

WE INVITE EVERY MAN AND WOMAN HERE

Every person in this city and vicinity who is run down, worn out, tired all the time, without appetite, or suffering from catarrh, head noises or deafness caused by catarrh, to try the wonderful

English formula
PARMINT
(Double Strength)

What it has done for others it will do for you

This is an invitation no man or woman can afford to ignore. We will tell you why. We are going to give you a wonderful discovery that women have done wonders in building them up, driving out the system, relieving head noises, caused by catarrh, revitalizing the entire system and putting the old ambition and pep into your body.

How can we do this? We will tell you. We have obtained from England, a wonderful formula for enriching and purifying the blood, for putting the system in shape so that it can perform its proper functions, a scientific combination that does just one thing but does it remarkably well. It cures catarrh, relieves head noises, and in many instances in so short a time the sufferer has been amazed. This new treatment that has proved such a boon to worn out, run down, overworked, catarrhal men and women is called **PARMINT**. Don't forget the name, P-A-R-M-I-N-T. Nothing so good has ever been discovered before.

No appetite, tired and discouraged

Men who were constantly hawking and spitting, with foul breath, watery eyes, tired, worn out feeling, have, by their own testimony been able to enjoy the pleasures of living; been better able to fight life's battle, as never before for years, through this wonderful tonic agent Parmint.

If you want to get up in the morning, full of ambition and fire, with feet light and active instead of weighing a ton, get a bottle of Parmint, double strength and mix it with a little sugar and water as directed. Take a full spoonful four times a day. By the time half a bottle is gone you will be astonished at its power and will bless the day you began taking it. Parmint, double strength, is put up in a concentrated form for economy and convenience. The small 1 ounce bottle is sufficient to make up a half pint of medicine ready to take. Any druggist in Canada can supply you or send 50c to the National Laboratories, 71, St. Antoine St., Montreal, and you will receive a bottle by return of the post in a plain sealed package. There is nothing better.

CAUTION: Parmint is a blood corrector and tonic. It is not a specific for blood poisoning. If you have a deep seated systemic blood disease Parmint is not recommended for you.

WEDDING BELLS—The marriage of Grace E. only daughter of Mr. and Mrs. John Schaefer, and R. Whitehead McDonald, of Mrs. Rachel B. McDougall, took place April 24th, 1918 in Salt Lake City, Utah, U.S.A. After a short wedding trip the young couple will make their home in Baechus, Utah, where the groom holds a responsible position with the Hercules Powder Co.

YARMOUTH—BOSTON SERVICE—The new steamship service between Yarmouth and Boston inaugurated by the Yarmouth firm of Hugh Cann and son, limited, started out well so far as freight patronage was concerned, considering the short notice which shippers had received about the arrangement. The John L. Cann was the pioneer boat and the freight consisted of 201 packages of live lobsters, 31 cases, fresh fish. The Cann made the run in thirty hours. The C. G. S. Aramoor, which formerly ran between Pictou and Charlottetown is also on the Boston run from Yarmouth as a freight boat but her time in the route is short as the government work demands her recall.

ROTARY CLUB—Rotarian P. W. Turner presided at the weekly luncheon in the Kooze Korner yesterday. Rotarian Pomeroy reported that hotel accommodation had been reserved for eight members who had expressed their intention of attending the annual convention at Kansas City, in June. The question box was opened and a number of matters referred to taken up and discussed. Subsequently the Rotarian stock was formally unveiled and the ceremony of adding the name of an additional member to the clan of one of the members was gracefully performed by Rotarian G. H. James. A gift suitable to the occasion was presented to the happy Rotarian, who suitably acknowledged the compliment.

A MISSIONARY EVENING—A very interesting missionary meeting was held in St. James' Hall on Wednesday evening, under the auspices of the W. M. S. A most instructive and pleasing paper on the Lutheranism was given by Mrs. A. J. Irving, who, having lived in the Canadian West for some time, was thoroughly conversant with her subject. She told of the pressing need for missionary work among the two continents, of their great appreciation of the splendid efforts so far attained by the Canadian Presbyterian church and made a strong plea for continued united effort. P. E. Island should be especially interested in the Lutheranism of Canada, as Rev. Dr. Arthur, of Alberton, is one of the foremost specialists in this great work. Before calling on Mr. T. C. James to speak Dr. Fullerton thanked Mrs. Irving for her paper, complimenting her on the able manner in which she treated her subject. Mr. James spoke on Foreign Missions, dealing especially with the work among the natives of Central India, emphasizing the great need of keeping up interest and financially assisting in the work, which, owing to the many calls for services and giving in connection with the present world war, was in fear of being neglected. Mrs. Hinton favored the audience with a solo, which was much appreciated. Dr. Fullerton referred to the departure of Prof. and Mrs. Hinton to Halifax, where a wider field of labor awaited their talents, and assured them of the kindly feelings and good wishes of St. James' congregation.

STANLEY REACHED PORT—The C. G. S. Stanley which has been adrift in the ice of the Gulf of St. Lawrence with her rudder broken for nearly a week, managed to reach North Sydney yesterday. The steamer had temporary repairs made to the rudder and when she got clear of the ice was able, no doubt, to reach port unassisted. A tug, under naval charter, which was sent from Halifax to the steamer's assistance some days ago, ran short of coal and was obliged to put into Port Hastings on the southern coast of Cape Breton to get a fresh supply.

PROBABLY ACCIDENTAL—A correspondent sends the Guardian a small piece of glass found in a piece of candy while being eaten by a member of his family and asks for an expression of opinion as to whether it was accidental or design. German jam, presumably, is available in the best regulated candy factories and there is no doubt that the case referred to was an accident. Nevertheless, broken glass is a dangerous food and one cannot be too careful even in eating the best of candy.

JUST LIKE MOTHER'S—Good old-fashioned, delicious candy, the kind that mother used to make, at the News and Variety Store, Miss Florine McCarey, Proprietor. It is the product of Huylers, the famous candy house, and while absolutely pure and wholesome, is most delectable.
