5 KILLED WHEN PLANE CRASHES N.Y. BUILDING

Foreigners Chase N.S. Fishermen Off Quero Banks

(By The Canadian Press)

HALIFAX, May 20—The invasion of the Quero fishing banks off Nova Scotia by Spanish arid Portuguese trawlers was the chief topic of conversation along the Halifax waterfront today and two schooner captains said in interviews that the European fishermen were wrecking "thousands of dollars worth" of fishing gear of Lunenburg and Halifax fresh-fishing schooners.

Capts. Clarence Knickle of the Theresa E. Connor and George Himmelman of the Lilla B. Boutilier said that because of losses suffered by at least five schooners during the last month and because of fear of collisions, most of the Nova Scotia deep-sea fleet, numbering about 15 vessels, had been forced to move to Newfoundland's

Stewart; 4, Watervale; 5, Vernon River; 8.30, Pownal; Wednesday, 9 a.m. New Glasgow; 10, Wheatley River; 11, Holmes Corner; 1 p.m., New Haven; 1.30, Bonshaw; 2, Kelly's Cross; 3, Breadalbane; 3.30, Emerald; Thursday, 9 a.m., Clifton; 30, Kensington; 11, Summerside; 1 p.m., Wellington; 1.30, Richmond; 2, Portage; 3, O'Leary; 4, Woodstock; 4.30, Elmsdale; 5, Alberton. Paying $15 per pair for good pigs over 22 lbs. each. Will also buy smaller ones. 16 cents per lb for pigs 60 to 230 lbs. delivered at Fredericton. Knud Jorgensen. 5-18-21-23

Saw Escorts Die

Rose I. Korb, above, War Department civilian employe from Gary, Ind., was in an Army jeep in Nuernberg, Germany, when bullets suddenly crashed into it, killing two of the three American soldiers present. Miss Korb and two British army women escaped injury from the attack, believed to have been made by a German sniper who mistook the women for fraternizing Germans.

Missionary Known Here Dies At 55

TORONTO, May 20—(CP)—Rev. A. Russell Graham, United Church of Canada missionary in India for 20 years, died today at his home. He was 55.

His widow, the former Frances Compton of Morell, P. E. I., before her marriage was a missionary in India for the Women's Missionary Society of the United Church. Mr. Graham was designated as missionary to India at McVicar Memorial Church, Montreal, in 1914.

Compulsory Military Training Demanded

QUEBEC, May 20 — (CP)—The Canadian Legion demanded compulsory peacetime military training for defence purposes today in a brief but barbed debate on the floor of its 11th biennial convention.

Bitterness born on the battlefields of Europe made itself heard and felt in throwing out a committe resolution which went no further than a "strong recommendation" and substituting for it one which "demanded."

The "basis" clause was added, too, by delegates who shouted down a contention that this was "dictatorship."

That resolution was one of 26 which reached the floor of the convention from the deliberations of a resolutions committee which started work last week on 1,000. In many ways, it and its implications obscured any other development on this first of four days of a big, outspoken convention in which veterans of two major wars are at grips with problems of the returned peace.

Packed into the spacious hall room of the Chateau Frontenac, they heard president Alex Walker, C.B.E., of Calgary, Alta., call for an attack on housing and employment problems and heard their new grand patron, the Governor General, Viscount Alexander, call for co-operation between young and old veterans, to prevent Canada's premier ex-servicemen's organization from "fading away."

The compulsory training resolution was no. 22 on the report of its committee. But none of the others rivalled the impetus it gave debate.

Founder Of City Of North Bay Dies

Winnipeg Man Confesses To Hatchet-Slaying

WINNIPEG, May 20 — (CP) — Police guards were on duty tonight in the hospital ward of Abraham Goodman, 66-year-old baker, who has confessed to the hatchet-slaying of Mrs. Harry Herman, 60-year-old friend.

"He has confessed," said Police Chief Smith. "He will be charged with murder."

The white-haired Mrs. Herman was slashed with a hatchet around 7 a.m., and died in St. Joseph's Hospital two hours later.

An hour after her death, Goodman was found on the street near the woman's home, suffering from effects of poison. His condition was reported favorable, and he is expected to recover.

In a grey-stucco bungalow on Flora Avenue, Mrs. Herman was found by her landlady, who had heard the woman screaming. Her head had been cut and slashed, and her hands smashed by blows, one finger being cut off.

Goodman told police his motive for the attack—Mrs. Herman's refusal to marry him. He had told friends the woman had refused to marry him and that he had been caused "a lot of trouble."

Goodman, who worked on the night shift at a north end bakery, called at the home of Mrs. Herman early today.

"He called shortly before 7 o'clock," said Mrs J. Crystal, the landlady. "I heard Mrs. Herman 'say 'close the door.' Shortly after I heard screams"

Police reports said that he returned to the bakery, where he donned a Jewish prayer scarf and prayed for some time. A short time later he was found on the street, writhing in pain.

News Briefs

LONDON, May 20—(CP Cable)—Prime Minister Attlee in the House of Commons today promised that Britain will "endeavour to do the best we can" for foreigners such as the Polish troops who fought under British command during the war and now are homeless. He said he could not, however, promise that in admission to the United Kingdom.

QUEBEC, May 20—(CP) — The Canadian Legion War Services reported to the biennial Legion convention today that it had done a $28,606,456 wartime business in catering to the wants of Canadian servicemen at home and abroad. Its staff reached a peak of 1,848 last year.

VANCOUVER, May 20—(CP)—Release of lumber to veterans for completion of homes now under construction was authorized today by striking wood workers as the walkout entered its sixth day with no indication of any hopes for settlement.

WASHINGTON, May 20—(AP)—State Secretary Byrnes tonight declared the foreign ministers meeting at Paris made "disappointingly small" progress on European peace settlements, but the advance was "infinitely greater" than he had once expected.

LONDON, May 20—(CP Cable)—The Government bill nationalizing Britain's coal industry passed third and final reading in the House of Commons today by a vote of 324 to 143 and now goes to the House of Lords.

TO HONOR GOV.-GENERAL

QUEBEC, May 20—(CP—An honorary doctorate in social sciences will be awarded Viscount Alexander Governor-General of Canada, by Laval University here next September, it was learned today.

Viscount Alexander, visiting Quebec for the first time since his arrival in Canada, is scheduled to return in September to receive his honorary degree.

Lays Island Problems Before Govt. Officials

OTTAWA, Ont., May 20—(Special)—On his return to Ottawa this weekend from a business trip to Charlottetown and Halifax, W. Chester S. McLure, Progressive-Conservative member for Queen's today laid some of Prince Edward Island's pressing problems before senior officials of Government departments.

Mr. McLure is making representations to Veterans Affairs Minister MacKenzie, Labor Minister Mitchell, and Reconstruction Minister Howe in behalf of the unemployed veterans in Prince Edward Island. He urges that employment be found for these men in their native Province and if possible in forms of employment which will offer permanency.

In his argument before Cabinet ministers and deputy ministers, Mr. McLure is stressing the need of employment of Prince Edward Islanders in their native Province on an equitable and economic basis. He mentions in particular the project of a drydock in Charlottetown, a project introduced originally in 1913 but one which lapsed owing to the incidence of the First Great War, the depression and the war ended a year ago.

Export Fee Abolished

Exporters in every section of Canada express satisfaction that the $2.00 fee which was charged by the Department of Trade and Commerce with the issuance of export permits has been abolished. The fee which was demanded on every shipment exceeding $100 in value had been held be exporters to be a restraint of trade and was particularly cumbersome when an exporter was shipping a number of comparatively small lots of goods at different times.

Prince Edward Island exporters benefit from the abolition of the export permit fees, which applied to shipments of such commodities as lobsters and seed potatoes to points in the United States. Fees charged for export permits have been in force since April 24, 1941, and were imposed for the purpose of meeting expenses of the trade and commerce department in administering the export permit order.

Radio Broadcasting

Possibility of the Canadian Broadcasting Corporation taking over and operating privately-owned radio stations at widely-spaced portions of Canada was before the Commons today when National Revenue Minister McCann admitted that the CBC had purchased new radio transmitters.

It is understood that the commission proposes to take over station CFRB in Toronto and another privately-owned station in Calgary. Not only can such action be taken arbitrarily under the Emergency Transitional Power Act but under two clauses of the Act of 1936 whereby the Canadian Broadcasting Corporation came into being.

As yet there has been no mention or suggestion that CBC has its eye on private radio stations in the Maritime Provinces, although this might come as a logical sequence to commandeering radio stations in Ontario and Alberta. On Parliament Hill it is freely admitted that private radio enterprise in the Dominion is in a precarious condition and liable to seizure by the CBC at a year's notice.

Intensify Search For Disease-Free Potato

FREDERICTON, May 20—(CP)—Efforts to develop a disease resistant potato have been intensified at the Dominion Experimental Station here. Seedlings under development will be distributed to experimental stations elsewhere in Canada for further tests.

Alberta Bill Not Of Interest Here

EDMONTON, May 20—Attorney-General Lucien Maynard said today he had received answers from several provincial attorneys-general on the question of their representation in a court reference of Alberta's Social Credit Bill of Rights, but declined to reveal the attitude of the other provincial officials.

Last week the Attorney-General queried other Provinces on whether or not they would wish to join the Alberta Government in presenting court arguments on behalf of the bill which will not be declared law unless upheld by the court.

The bill would set up an Alberta capital assets account, a monetized valuation of all the Province's resources, and a consolidated credit adjustment fund. The fund would be so constituted as to provide for the difference in purchasing power and in the prices of goods available so as to balance these figures. The amount of the adjustment fund would be transferred to the general revenue fund of the Province in the form of credit to be paid out for pensions and medical and health benefits.

(Premier J. Walter Jones informed The Guardian last night he had received a letter from Alberta's Attorney-General asking him if the Prince Edward Island Government cared to support Alberta in its advocacy of a Bill of Rights. The Premier said he could not give the Alberta Attorney-General a favourable reply since the questions involved were of no concern to Prince Edward Island).

Find Baby's Body In Box Mailed Overseas

MONTREAL, May 20— (CP)—The body of a baby girl was found Saturday in the customs house here in a box addressed to a Canadian soldier overseas, police reported today.

The box was mailed in Toronto and the sender's name and address were given as "Mrs. Clark, Jarvis St. Toronto."

Police said investigation disclosed there was no such address in Toronto.

Dr. Jean Marie Roussel, medico-legal expert, said the baby was born alive but that it was impossible to say whether she would have continued to live. Nor could he determine the cause of death.

Custom officials found the decomposed body in a corrugated paper box on which there were 42 cents postage due.

Capt. George Allain of the homicide squad said he was getting in touch with the Toronto police for a full investigation.

Gandhi Urges India Adopt Prohibition

BOMBAY, May 20 — Mohandas K. Gandhi today called upon Congress and Mosley League leaders to work for prohibition in India.

Writing in his newspaper "Harijan," the leader of the Congress Party condemned cocktail parties and other "bad European manners and customs," and added:

"It would be a sad day for India, and the world if the price we are to pay for independence is cocktail parties and the like."

John Ferguson Arrived At Site With Axe

(By The Canadian Press)

NORTH BAY, Ont., May 20—A man who came to this area in 1881 with only an axe and a grub stake, built the first log cabin on the site of what was to become the city of North Bay, rose to be the mayor of the city he had founded and became a legendary figure in the turbulent early life of Northern Ontario, John Ferguson, died today at his home.

The city immediately went into official mourning for Mr. Ferguson, who served as mayor for four consecutive years and was a member of the city council for 18 years.

As a 21-year-old mail carrier who had made a two-day trip from Mattawa, Ont., over a railway line through the bush to deliver letters to workmen who were building the Canadian Pacific Railway, he saw that the mileage from Pembroke, together with the possibilities of the site on the shore of Lake Nipissing indicated that a railway division point could be established at North Bay.

He returned to Mattawa long enough to hire a man to drive his team of horses on construction work, then came back to the little clearing in the bush.

The first passenger train reached North Bay on Dec. 27, 1882, and it brought Mr. Ferguson's mother, Mrs. William Ferguson, and his brothers and sisters. Later, his father, who 18 years before had settled with his family at Bromley in Renfrew County, joined them.

Once the community was designated as the C.P.R. division point, development went forward rapidly. Every train from the east brought throngs of new citizens. Streets were laid out and the settlement took on a definite pattern.

Later, nearby Callander was named for his Scottish birthplace.

As one of the community's rising men of affairs, Mr. Ferguson married Jessie Fraser McFarlane, daughter of another pioneer. The couple set up housekeeping in North Bay's first frame house.

From 1919 to 1922, Mr. Ferguson was mayor of North Bay, the only man ever to hold the office that long. He served as president of the Board of Trade and headed the committee of the first Old Home Week in 1926.

Iranians Discount Stories Of Fighting

LONDON, May 20 — Dispatches quoting high Iranian Government officials in Tehran today discounted reports of fighting in separatist Azerbaijan Province, despite broadcast announcements from Tabriz, Azerbaijan capital, that Government forces had launched attacks near the Kurdistan border.

Prices Of New Cars In U.S. Advancing

WASHINGTON, May 20—(AP)—Prices of new automobiles in the United States, already boosted because of higher wages, are going up again—this time an average of four to five per cent to offset costlier steel and parts.

One of the principal factors behind the new increase is the average boost of $5 a ton for steel which the Government allowed last February when the industry increased wages 18½ cents hourly to settle the steel strike.

Stalin Moves To Boost Russian Grain Crop

MOSCOW, May 20 —(AP) — Prime Minister Stalin, in an effort to improve the food crop situation, today approved a decree by the council of ministers ordering compulsory resowing of spring wheat on land all over the U S S R, where winter crops had perished.

A Tass dispatch meanwhile said much-needed rain had fallen in Vinnitsa, sugar beet-growing region of the South Western Ukraine, near Moldavia.

TWO BARNS BURNED

MEMRAMCOOK, N. B., May 20 (CP) — Two barns and their contents were destroyed by fire here late this afternoon on the farm of Dolphas LeBlanc. The loss included livestock and farm implements. Volunteer firefighters succeeded in preventing the flames from spreading to the LeBlanc residence and other farm buildings. Faulty wiring was believed to have caused the fire.

U.N. Council Head

Alexandre Parodi, above, who replaces Ambassador Henri Bonnet as France's permanent delegate on the UN Security Council, will be president of that body at the June session, under the monthly rotation system.

Iranian Case Still On Agenda

NEW YORK, May 20 — Several delegates to the United Nations Security Council today indicated there was only a remote chance that they would be able to drop the controversial Iranian case when the Council meets Wednesday to take up the question again.

The delegates still were without definite information as to whether Soviet troops had left Iran. They were agreed they would not strike the case from the agenda until such information was available.

Meanwhile, Soviet delegate Andrei A. Gromyko indicated that he would boycott Wednesday's session.

House Briefs

OTTAWA, May 20— (CP)—Justice Minister St. Laurent said today in the Commons that his Department has been working on a bill for the redistribution of representation in the Commons and he hoped it would be possible to have the measure placed on the order paper within the next two or three days.

Authorities, after considering the matter, say there is no prospect there will be an increase in sugar available for canning purposes, it was disclosed in a written reply to a question by T. B Barrett (PC-Norfolk).

Justice Minister St. Laurent said that no action has been taken to move Maj.-Gen. Kurt Meyer, Nazi war criminal, from Dorchester, N. B., Penitentiary where he is serving a life term. He was replying to a question from Gordon Isnor (L-Halifax.

Convicts in Canadian penitentiaries cost the Government $2.57 a day compared to the per diem cost of $1.90 20 years ago, according to a return tabled for Howard Winkler (L-Lisgar). The return from the Justice Department showed that 78.4 per cent of the prisoners in penitentiary in 1945 were repeaters. This compared with a percentage of 70 in 1935.

No steps have been taken by the Canadian Government to request the recall of Vitali Pavlov, second secretary and consul of the Russian Embassy at Ottawa, it was disclosed in written reply to a question from George Tustin (PC-Prince Edward Lennox).

(The name of Pavlov, was mentioned in the recent espionage investigations.)

Army Ship Smashes Into 58th Floor

NEW YORK, May 20 — (AP) — An army airplane, speeding through fog and a visibility of 400 feet, crashed into the 58th floor of the 72-storey Bank of Manhattan Company building in Wall Street tonight, killing the plane's five occupants.

The known dead were four army men and a member of the Women's Army Corps.

Identified were:
Lieut. Mary E. Bond
Maj. Marshall Campbell
Capt. Thomas Hall
Lieut. R.W. Stephenson
Lieut. Angelo Rossi

Addresses were not immediately available.

Police said the name of Capt. J M Collison had been inscribed on the fuselage of the plane, leading to their erroneous report that he was aboard.

Second Accident

It was the second airplane accident among the towering buildings of Manhattan. Fourteen persons, three army men and 11 office workers, were killed last July 28 when a B-25 bomber crashed into the 79th floor of the 102-storey Empire State Building.

Army officials informed police the plane had left the army air base at Smyrna, Tenn., bound for Newark, N.J., airport and had five persons aboard.

The plane, identified as a two-engined C-45, an all-metal low-wing monoplane frequently used as a staff ship for high army personnel, tore a 15-foot-square hole in the brick wall of the building. The building was struck from the rear.

The control tower at Newark airport reported it was last in contact with the plane's pilot at 8:08 p.m. after previously giving him clearance to land.

The tower operator said first clearance was given at 7:56 p.m. when the plane circled the field. After waiting about 10 minutes, the operator said, the tower got in contact with the plane and learned it was five miles southwest of the field. That was the last contact.

The bodies were found piled together in the forward part of the plane and police and firemen experienced difficulty in extricating them. The bodies were not burned.

TORONTO, May 20 — Minimum and maximum temperatures:

	Min.	Max
Vancouver	55	66
Edmonton	31	69
Regina	39	67
Winnipeg	30	66
Toronto	49	70
Ottawa	44	63
Montreal	47	63
Quebec	40	60
Saint John	42	64
Moncton	45	68
Halifax	45	67
Charlottetown	—	56
Sydney	42	68
Yarmouth	39	61

HALIFAX, May 20 — Weather synopsis issued by the Dominion Public Weather Office at Halifax. At 10 p.m. A.D.T. Monday: As skies cleared Monday and temperatures soared into the seventies the Maritimes enjoyed as warm weather as anywhere on the continent except in the extreme southern United States. As the weather area extending over Ontario and the eastern United States moves eastward increasing cloudiness will spread into the Maritimes Tuesday to be followed by rain in western portions.

Forecasts, valid until midnight Tuesday:

Prince Edward Island: Clear, except for some fog towards dawn, becoming overcast with showers by evening. Little change in temperature. Light winds will increase to southeast 15 m.p.h. Tuesday afternoon. High Tuesday at Charlottetown and Moncton 67, Campbellton 62.

High tide this afternoon at 2.11 and tonight at 4.11.

Sun sets this evening at 8.28 and rises tomorrow morning at 5.25.

Last quarter moon May 23, 12.02 P. M.

Summerside tide eighteen minutes later than Charlottetown.

Shortage Of Nurses Described Serious

(By The Canadian Press)

Shortage of trained nurses in hospitals throughout Canada may result in a "national calamity" should an epidemic break out in any section of the country, says Dr. Harvey Agnew, Toronto, secretary of the Canadian Hospital Council.

In making the comment Monday he revealed he had received word from hospitals throughout the Dominion stating institutions can barely keep going and "if the situation gets any worse several may have to close some of their wards."

Better hours and wages for nurses now being offered by the Federal Government's Department of Veterans Affairs, industrial plants and sales agencies, were given by hospital superintendents as the chief reason for the present shortage.

Dr. M. J. McHugh, superintendent of Toronto Hospital for suburban Weston, said nurses in hospitals receive a little less than $100 a month with room and board.

At present the Department of Veterans Affairs offers $150 a month, which is approximately army pay and conditions.

Dr. D. W. Cromble, superintendent of Queen Alexandra Sanitorium at London, said the shortage has reached such a stage at the hospital that surgical operations may come to a standstill and if a remedy isn't found many of the waiting cases "will be beyond medical help."

The Muskoka Sanitorium near Gravenhurst, Ont., has reported a critical shortage and in Hamilton, hospitals are crowded to capacity with a total of 821 patients in the Hamilton General and Mount Hamilton Hospitals.

Milk Subsidy Cost Gov't 20 Millions

OTTAWA, May 20 — (CP) —The Government subsidy of two cents a quart on fluid milk, being discontinued May 31, has cost approximately $20,000,000 a year since its inception in 1942, Chairman Donald Gordon of the Prices Board said today in a statement reviewing the history and effect of the payment.

In the last year, with increased milk consumption, the cost of the subsidy reached $21,000,000, said Mr. Gordon, adding that the figure represented subsidy payment alone and did not include operating costs of more than $500,000 yearly.

Total subsidies of all kinds authorized and paid through the Board in the fiscal year 1943-44 came to $81,000,000, with the figure climbing to $107,000,000 in 1944-45. The 1945-46 total was $99,000,000 while the present fiscal year the figure is expected to decline to somewhere between $60,000,000 and $75,000,000.

The milk subsidy was introduced in 1942, along with similar payments on tea, coffee and oranges, in a move to offset a continuing rise in the cost of living at that time.

The result of "what was admittedly an experiment has completely justified that emergency action," Mr. Gordon said

Fluid milk consumption in Canada last year reached an all-time high and the first three months of this year has shown a further increase of eight per cent, representing approximately 320,000,000 pounds of milk or the equivalent of more than 13,500,000 pounds of butter.

Mr. Gordon concluded:—

"Canadian consumers have received excellent value for the money they spend on milk. In the United States, where conditions are the most comparable, the average price of milk at January of this year on basis of same size quart was 19.5 cents against average of 12.5 cents in Canada, both figures on Canadian funds."
