St. Louis Browns Set American League Record

By The Associated Press

St. Louis Browns just keep rolling along. Yesterday they won their eighth consecutive victory without defeat, beating Cleveland Indians 5-1 at St. Louis, to establish an American League record for an opening season winning streak. The modern national league record is nine straight.

Jim Tobin Pitches No-Hit, No-Run Game

By The Associated Press

Jim Tobin, 22 year old right hander with the name to sell, yesterday added his name to the select group of pitchers who have pitched no hits and no runs when the Boston Braves blanked the St. Louis Browns 2-0 at Boston in a game which was the first no run game turned in by a major league pitcher since Lon Warlick of the Cardinals turned the trick against the Reds on Aug. 30, 1941 and the first by a Braves' pitcher since Tom Hughes did it in 1916. Tobin pitched for just two men of pitching a perfect game.

The veteran moundman, who won 14 and lost the same number last year, struck out six Dodgers while his teammates felled ruthlessly behind him. The putouts were evenly distributed, six each going to the credit of the outfielders as the veteran had the Dodgers breaking their backs in an attempt to connect with his "soft" pitch.

Address On The Y. M. C. A., Its History And Progress

At the Y's Men's Club meeting...

I propose to deal with this subject under five headings: 1. Origin of the Young Men's Christian Association. 2. The first 100 years of Y. history. 3. The Y. of to-day. 4. The Y. of the next 100 years. 5. The origin and growth of our local Association.

Origin of the Y. M. C. A. This year the Y. M. C. A. is 100 years old. It was in June of 1844 that George Williams, a clerk in a London dry-goods store, had an idea that young men like himself needed fellowship, companionship with whom he could discuss problems which had been in his mind. A room was rented over the store and the Y. was started.

That year 1844 was utterly void of scores of things that make up life today. It was not until 32 years later that Thomas Edison first produced electricity; 34 years later the telephone was invented. Radios, automobiles, airplanes, sewing machines and street cars were unknown.

Local Hoop Champs Take Island Opener

The Charlottetown basketball champions, a Royal Canadian Air Force team from the local airport barracks, defeated the local team from Mount Pleasant in a game last night in what was described as the first game of a home and home series to be played in the Y. M. C. A. gymnasium.

Daily Double Pays Off Well

NEW YORK, April 27 (AP)—A rain-soaked program at Jamaica race track today was brightened by a daily double that paid \$1,493.20 for \$2 tickets were sold. The payoff, largest of the New York season to date, was set up when Yonnie Gray, #10, won a \$189.40 for \$2 selection in the straight betting, took the first race. Maxie Howard's Tealious Miss, #3, won for \$3, triumphed in the second.

Victoria War Loan Meeting Last Night

Despite the rather inclement weather there was a large attendance at the Victoria War Loan Meeting last night. Mr. John H. Myers acted as Chairman and in opening the meeting referred to the address of Prime Minister King given on his arrival in England yesterday and which Mr. Myers had heard over the radio just before coming to the meeting. The Prime Minister said "We in Canada are behind you 100% and we are in it to the end." The people of Victoria and surrounding districts are also in it to the end, said Mr. Myers, and we are determined to make success of the Sixth War Loan here. After the showing of the War Department Report Film "The Front Line" the Royal Canadian Navy delivered a stirring address which won much applause from the large audience. The men who are fighting are looking eagerly to those at home to be in it to the end also and they expect the Sixth War Loan to be an outstanding success. The next speaker was Mr. S. J. Denford, Secretary of the Bank of Nova Scotia at Victoria, who outlined various terms of payment of Victory Bonds and he referred to the advertisement of the Bank in The Charlottetown Guardian and he read this to the audience. This advertisement urged persons with bank balances to invest this money in Bonds. He said money in bonds is not tied up as "you can always borrow instantly against them." E. Graham Rogers when called on to the large audience of the assistance which had been rendered to the National War Finance Committee by Lt. Com Chas. P. MacKenzie and Lt. Prude of H. M. C. S. Queen Charlotte for this particular meeting at Victoria. Mr. Rogers introduced Capt. MacLean of The Salvation Army War Services. The meeting closed with the National Anthem To-night Friday and meetings are at Tignish and Hazelton.

AIRPORT PLAN PRIZE OPEN TO THE EMPIRE

LONDON, April 27 (CP)—The British aviation magazine "Aero-Plane" has offered a prize of \$2,225 open to all British subjects, for the best design of an international airport for London. Decision entrants are sought in the belief, the announcement said, that such a layout would also be applicable to the air transport facilities of every major city in the Commonwealth. The competition closes Sept. 30. Persons interested in entering were asked to write or cable to the magazine for details.

Wartime Activities

Turning to the Wartime work of the "Y" I wish to quote from a letter received from General Wavell, Commander-in-Chief of the Middle East. "The Army in the Middle East owes a big debt of gratitude to the Y. M. C. A. for the splendid work it is doing among the troops, and I shall be glad to hear in due course how far you are successful in obtaining the men you so urgently require for the successful carrying on and expansion of your work."

Similar vitality doing in occupied Europe? While the Association as a corporation no longer exists in the occupied countries its members and staffs hold together and serve more people over a wider area than ever before. In small rented quarters for the purpose of feeding several hundreds of children, provides simple educational classes and collects books for prisoners of war. In Germany the Polish "Y" serves 100,000 prisoners of war; in France it operates 21 refuges for 10,000 sick-troops; it serves 11,000 internees and in Scotland 33,000 Polish soldiers.

Our "Y" is governed by a Board of Directors of fifteen men with an Advisory Committee of five men. The following is our present slate of officers: President—A. J. Haslam; Vice-President—J. C. Johnston;

Out Our Way

By J. R. Williams

WHOA! AM I WITNESSING THE BEGINNING OF A NEW FAD OR CRAZE? SEEM TO BE ENJOYING IT SO!

THAT'S HOW NEARLY EVERYTHING STARTS—PEOPLE THINK YOU'RE HAVING FUN THAT THEY AIN'T!

The Next 100 Years Although an outline of the problems which the "Y" has had to face during the past 100 years would have easily discouraged its members, the "Y" is not discouraged. It is ready for anything; the "Y" will continue to thrive on trying problems. Today the "Y" is recognized as a strong, worthwhile organization; the splendid work it is doing among boys and young men throughout the earth, appreciated by our people and Governments. Governments have come to realize that the "Y" has brought the social unrest and chaos that we have about us today. Governments realize too that the "Y" can bring about desirable effects which they in passing laws cannot get. The "Y" has a sincere, and personal appeal for boys and young men and it gives the boys and young men what they need in their lives. Through them and will help them. Throughout the world the various Governments are appreciating our Y. M. C. A. leaders because these Governments realize that our Y. M. C. A. leaders experienced in youth movements and are helpful in formulating programs for the betterment of youth. So in the next 100 years we may expect larger and more trying problems but I believe sincerely that there will be greater cooperation with our Governments. Work with underprivileged children will continue to be our big problem; juvenile delinquency will give us plenty of opportunity to do good work.

and the following directors: D. J. Bonnell, T. Roy Cutmore, Ernest Coffin, W. E. Scantlebury, L. J. Stacey, J. M. MacFadyen, R. M. Martin, Gordon Avar, Clifford MacDonald, Bruce MacLaren.
The Advisory Committee consists of the following: Dr. J. A. Clark, A. Pickard, J. E. Harris, W. M. Rowe, J. P. Gordon.
Directors are elected for a period of three years and it is so arranged that five directors retire each year. The Directors meet once a month to hear the reports of the different committees and to deal with problems that arise from time to time. Within the "Y" and associated with the work of the "Y" we have the Y's Men's Club, the Hi Y Grads, the Ladies' Auxiliary consisting of representatives of the different churches in the City under the capable leadership of Mrs. Anderson and the Saturday night auxiliary consisting of ladies who have volunteered to entertain and feed the men of the Services. Personally speaking I am very glad to see the "Y" as a splendid set up. The directors are very busy men but in spite of this they along with the Auxiliary are splendid; they are all vitally and sincerely interested in the work of the "Y" and give unstintingly of their time and talent. The "Y's Men and Hi Y Grads" render the "Y" a grand service and they along with the Auxiliary form the backbone of the "Y" and assist greatly in keeping the wheels of progress turning. Our "Y" is giving a splendid service to the young boys and girls of our City as well as to the men of the Services. We have outgrown our building and equipment but as we when young boys were given a larger pair of shoes when we outgrew the ones we had we are going to have a new building with a swimming pool and up to date equipment; when this will come is indefinite as yet but we hope it will be soon. To get a new building we must have the full cooperation of all those interested in the "Y". In using the words of Kipling we find—
"It ain't the guns nor armament, Nor funds that they can pay, But the close cooperation That makes them win the day. It ain't the individual prowess, Nor the army as a whole, But the everlasting team work Of every blooming soul."
In a few minutes these two clubs will be making a dedication to the memory of George Williams who founded the Y. M. C. A. which we regard as being in its essential genius a world-wide fellowship of men and boys, united by their loyalty to Jesus Christ, for the purpose of developing Christian personality and building a Christian Society. You see, Gentlemen we belong to something big.
The chairman was Mr. Edwin C. Johnston.
A complete solo was rendered by Constable Teefe of the R.C.M.P. Members of the Hi-Y Grads were guests.
A vote of thanks to the speaker was moved by Mr. John Simmonds and seconded by Robert E. Gleason. The portrait of Sir George Williams was unveiled by Mr. J. E. Burden, retiring president of the Hi-Y Grads Club.
