

CROWD OF FARMERS HANG NEGRO CRIMINAL TO TELEGRAPH POLE

SULLIVAN, Ind., Nov. 20.—James Moore, the Kentucky negro, who criminally assaulted Mrs. Mary Davis, of Sullivan county, and Mrs. John Lemon of Knox county on Tuesday last, was hanged to a telegraph pole one mile east of John Lemon's farm at 8 o'clock tonight by a mob.

Moore was captured at Lawrenceville (Ill.) late yesterday, after a battle with the marshal, during which the negro was shot three times and was severely wounded. He was then taken to Robinson (Ill.) for safe keeping. Late this afternoon the negro was brought to Sullivan in a wagon by the sheriff and his deputies, for further identification. A mob of 40 or

50 farmers, heavily armed, took the prisoner from the officers. He was taken to the homes of both his victims and by them was identified. From the home of Mrs. Lemon, 10 miles east of here, the crowd started back to Sullivan with the prisoner, but one mile east of the Lemon farm a rope was thrown over the arm of a telegraph pole and the negro was hung. The governor had ordered out the Virginia militia company to protect the negro, but his instructions were received too late.

After hanging the negro the mob quietly dispersed. It was composed mostly of farmers but was largely augmented by citizens of Sullivan, Oaktown and other towns of this county.

SMALLPOX IN CLOTHING.

SYDNEY, Nov. 20.—The smallpox case is now practically over at Lunenburg. The two patients are convalescent, and it is not expected that there will be any more cases. It is believed that the smallpox was brought to the town in a case of clothing that was sent to the young girl who was first attacked by the disease. The clothing was for winter wear and the disease did not develop till the clothing was worn by the girl.

NERVE DISORDERS OF WOMEN

Accompanied by Neuralgia, Irritability, Sleeplessness and Depressed Spirits.

Dr. Chase's Nerve Food.

The feminine organism requires an enormous quantity of blood not only to sustain the network of nerves which are found in the woman system, but also to make good the periodical loss which so weakens the body. Consequently it happens that just as soon as the blood gets weak or watery or is deficient in quantity the nervous system suffers, and in women the effects are most severely felt in the form of irregularities and weaknesses of the feminine system.

At the beginning of womanhood, at child birth, during the nursing periods and at the change of life, calls are made for an extra supply of blood, and as a result nervous disorders are exceedingly common at these times, and the health and happiness of the remainder of life may depend on the care of the system.

Because Dr. Chase's Nerve Food actually forms new blood and creates new nerve force, it is the most effective preparation ever used by women to build up the system, and restore vigor and strength to the body.

Mrs. Willis Taylor, Hensley Street, Charlottetown, P. E. I., states: "I suffered from nervous prostration, could not sleep, and frequently had attacks of nervous headache; in fact, my whole system was run down and my health was in anything but a satisfactory condition. Since having used three boxes of Chase's Nerve Food I can say that I never tried any medicine that did me so much good. It has built up my system, strengthened the nerves and enabled me to sleep and rest well. It is now a considerable time since I had a headache, and I can truthfully recommend Dr. Chase's Nerve Food as a splendid preparation."

OGILVIE'S FLOUR

Is the highest grade on this Continent. No other Flour will make as much bread to the barrel. Bakers make 152 pound loaves from one barrel of OGILVIE'S. The price is so near that of Ontario Flours, that you would lose money by buying any other. It absorbs more water than any other known Flour; therefore the bread will keep moist longer. OGILVIE'S is made from No. 1 Hard Manitoba Wheat, (acknowledged to be the best made in the world), and scientifically milled by the latest improved methods. Manitoba Wheat contains more gluten than any other Wheat, and gluten is the property in wheat, which gives strength. It is more healthful than starch, which is the principal element in Winter Wheat.
